CHAIRMAN'S *Statement*

The 2011 financial year was a period of progress for your company, with significant advances in our gold portfolio and market conditions for the Company's Molyhil Molybdenum and Tungsten project in the Northern Territory (Molyhil) approaching levels for the Company to consider its economic development. At the time of writing this report, the ATP price of tungsten as quoted in "Metal Pages" is sitting at US\$465/metric tonne unit (mtu), almost double the previous record highs of 2008, while molybdenum is priced at US\$15/pound (lb), less than 50% of the levels of 3 years ago. The improving commodity price for tungsten, in particular, has added value to Molyhil, and the medium term prospects for tungsten are positive.

The improved tungsten commodity price led to a decision by the Board of directors to review, in detail, the feasibility study for the proposed tungsten and molybdenum mining operation at Molyhil, and a revised definitive feasibility study (DFS) was commissioned. The initial estimate of capital and operating costs for the proposed mining and processing operation at Molyhil have been received and provide very positive early outcomes which provide us with a great deal of confidence in the final results of the DFS. While much more work is required, these initial cost estimates, along with current metal prices, are key to the study outcomes.

The balance of the work on the DFS is continuing at the time of writing with results expected before the end of 2011.

In January 2011, Thor announced that it had agreed terms for the staged acquisition of up to an 80% interest in the 274,000oz Spring Hill Gold Project (Spring Hill) approximately 150 kilometres south of Darwin in the Northern Territory. Subsequently, the Company completed the first stage of this acquisition and now holds a 25% interest in the project. It is hoped that we can confirm and extend the resource at Spring Hill relatively quickly and then immediately progress to feasibility studies while we continue to assess the potential for deeper higher grade mineralisation of the Callie style. The first Thor drill program for this resource commenced in September 2011.

The Company continued the early stage exploration work at the Dundas Gold Project, near Norseman in Western Australia. This area has had very little modern exploration which means the most appropriate initial exploration program should comprise an initial wide coverage reconnaissance until more expensive deeper drilling targets have been identified. It is also in a conservation reserve and requires additional environmental clearance in advance of ground disturbing exploration activities.

CORPORATE ACTIVITIES

During the year under review your Company continued to raise funds, from offers to Shareholders and from placings to new and existing sophisticated investors in both in the United Kingdom and Australia.

OUTLOOK

The Directors are confident of continued progress across the Group in the coming year and are excited by the prospects at Molyhil where we hope to announce the results of the latest feasibility study which is currently being undertaken by the end of the calendar year, and also at Spring Hill where we recently began drilling.

PERSONNEL

The Directors and I gratefully acknowledge the efforts of our very small team including contractors and consultants who have assisted us during the past year and continue to assist as we explore our projects and move towards development of mining operations.

Michael Billing

Chairman and Chief Executive Officer

24 October 2011

REVIEW OF *Operations*

MOLYHIL TUNGSTEN/MOLYBDENUM PROJECT (MOLYHIL) - NT

The Molyhil Tungsten/Molybdenum Project occurs as Scheelite (tungsten) and Molybdenite (molybdenum) mineralisation is hosted within outcropping magnetite skarn

The Project is a proposed open cut mine and processing facility which is planned to produce scheelite and molybdenite concentrates for sale with a potential by-product of fine high quality magnetite

The project comprises an Exploration Licence (EL22349) and three granted Mining Leases (ML23825, ML24429 and ML25721) situated 310km by road north east of Alice Springs in central Australia

International pricing of the projects principle commodities, tungsten and molybdenum have varied during the year While molybdenum pricing has been relatively flat, the price of tungsten has increased tremendously, to the extent that the Molyhil Project 2007 feasibility study now warrants re-visiting In consequence a new Definitive Feasibility Study, to assess the economic viability of the project in the current market has commenced Positive results have been received for capital and operating cost estimates of the project and the balance of the study is continuing This study is expected to be complete in October 2011

The 2007 definitive feasibility study of Molyhil provided an outcome which indicated profitable development and production, according to commodity prices and detailed estimates of capital and operating costs which prevailed at the time

The Global Financial Crisis which commenced in 2008 seriously eroded the price of molybdenum in particular and to a lesser extent the price of tungsten Over the past year, the price of molybdenum has levelled out at around US\$14/lb however the tungsten price has increased dramatically briefly touching US\$500/mtu earlier in the year

Molyhil Resource estimate

The estimate of the resource at Molyhil, as reported on 17th June 2009, is tabulated below

In addition, a drilling program, in July and August 2011, was conducted to both increase the size of the resource, and also to provide additional definition about the grade of material expected to be mined within the first year of operation Assay results from that drilling program are awaited

Summary of Rounded Resource Estimates - 15.25% Fe₂O₃ Lower Cut

Classification	Resource (t)	MoS ₂ (%)	WO ₃ (%)	Fe ₂ O ₃ (%)
Measured	540,000	0.24	0.33	29.4
Indicated	2,300,000	0.18	0.38	27.9
Inferred	900,000	0.20	0.15	27.0
Total	3,750,000	0.19	0.32	28.0

Note Totals may differ from sum of individual items due to rounding

SPRING HILL PROJECT - NT

In January 2011, Thor announced that it had agreed terms for the staged acquisition of up to an 80% interest in the 274,000oz Spring Hill Gold Project approximately 150 kilometres south of Darwin in the Northern Territory. Subsequently, the Company has completed the first stage of that acquisition and now holds a 25% interest in the project.

Resource Estimate (Reported on 22 January 2011) (3.6 million tonnes @ 2.34g/t gold. Cutoff grade 1.0 g/t)									
	Measured		Indicated		Inferred		Total		
	Tonnes (Mt)	Grade g/t Au	Tonnes (Mt)	Grade g/t Au	Tonnes (Mt)	Grade g/t Au	Tonnes (Mt)	Grade g/t Au	Contained Oz Gold (K oz)
Zone of Oxidation	-	-	1.32	2.16	-	-	1.32	2.16	92
Transition Zone	-	-	0.50	2.37	-	-	0.50	2.37	38
Unweathered Zone	-	-	1.82	2.47	-	-	1.82	2.47	144
Total	-	-	3.64	2.34	-	-	3.64	2.34	274

Estimate McDonald Speijers June 2003 Compliant with JORC Code September 1999

Spring Hill hosts an Indicated Resource of 274,000oz gold within 3.64Mt @ 2.34 grams per tonne (g/t) gold. However, Directors believe significant potential exists for exploration upside, both for increments to the resource accessible for open pit mining, and at depth for a major resource using the Callie model.

Gold at Spring Hill occurs mainly in quartz veins concentrated in fracture zones and the axial zones of anticlinal fold structures. Much of the gold is relatively coarse-grained, in the visible range, imparting significant nugget effect to drill samples.

The project is located close to infrastructure, is served by all-weather access and is in close proximity to the arterial Stuart highway, north-south rail, gas pipeline, and trunk powerlines.

Four main zones of gold mineralisation cover an area of approximately 1,000 x 400 metres. They have been outlined during the early 1990s and mid 2000s by drilling conducted by previous owners of the project around historic workings. These zones have not been drill tested below 150 metres. Additionally, several subordinate occurrences have been identified in adjoining areas, and these are scheduled for drill testing.

Additionally, the Company believes that the Spring Hill gold deposit may be just the indicator of much more substantial mineralisation at depth. The Northern Territory's Tanami Region shares a near-identical geological history and gold endowment.

Importantly, in the Tanami, the Callie deposit (resources + production >5 million ounces at 5-6 g/t gold) occupies a structural-stratigraphic setting comparable to that of Cosmo Howley (resources + production >1 million ounces at 3-4 g/t). Consequently, the Company is targeting a sheeted vein system deeper in the anticline, below the known Spring Hill mineralisation and which it believes has substantial Company-making potential.

The target deposit is more than an extension of the exposed mineralisation, it is a separate deposit in a separate but related setting. This concept is scheduled to be tested at Spring Hill during 2012.

REVIEW OF Operations

DUNDAS GOLD PROJECT - WA

The Thor Dundas Project is comprised of three tenements EL 63/872, EL 63/1101, and EL 63/1102 and is situated in Western Australia within the Albany-Fraser Province. The project tenements lie on the general strike-extension of the most prolific gold-bearing belt of the Yilgarn Province – the 700km Wiluna-Kalgoorlie-Norseman greenstone belt (Figure 3), in an area where the trend of the Albany-Fraser belt is displaced south-eastwards by about 50km (Figure 3). The Albany-Fraser belt hosts a number of recent gold discoveries including the +5 million ounce Tropicana gold deposit, and other discoveries including Hercules, Beachcomber, Socrates, Corvette, and Corona.

This area has had very little modern exploration which means the most appropriate initial exploration program should comprise an initial wide coverage reconnaissance techniques until more expensive deeper drilling targets have been identified. It also sits in a conservation reserve and therefore requires additional environmental clearance in advance of ground disturbing exploration activities.

A series of surface (calcrete) sampling programmes have been conducted, followed up by shallow Air-core drilling, and this will continue. A number of prospects have been identified for systematic drill testing, and this will continue as permitting and local conditions allow.

OORABRA REEFS BARITE/FLOURITE PROJECT - NT

Previous sampling has confirmed significant barite mineralisation with assays up to 9.37% Ba returned. Significant fluorite mineralisation is also evident in the area and historically values range from 5.7% CaF_2 to 85% CaF_2 (Central Pacific Minerals). In 1972 Central Pacific Minerals identified an inferred resource of 250,000 short tonnes at 37% CaF_2 . The resource is now 100% owned by Molyhil Mining Pty Ltd as part of the recent acquisition of ML77-86 from QER Pty Ltd. The ten ML's are surrounded by the Molyhil EL22349.

The proximity to the proposed infrastructure at Molyhil will allow the Oorabra Reefs mineralisation to be explored thoroughly and developed in the future.

The information in this report that relates to exploration results, mineral resources or ore reserves is based on information compiled by Richard Bradey, who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Bradey is an employee of Thor Mining PLC. Richard Bradey has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the which activity he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Richard Bradey consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

DIRECTORS' *Report*

The Directors are pleased to present this year's annual report together with the consolidated financial statements for the year ended 30 June 2011

REVIEW OF OPERATIONS

The net result of operations for the year was a loss of £2,852,000 (2009: £1,762,000)

Molyhil Molybdenum/Tungsten project

During the year ended 30 June 2011, the price of tungsten rallied strongly providing encouragement for medium term development of the Molyhil project, while the price of molybdenum remained relatively static

A drilling program conducted during 2009, included, amongst other tests, two holes testing for potentially economic mineralisation below 150 metres. Encouraged by this the Company committed to a further drilling program to test Molyhil further at depth, in an effort to demonstrate the potential for significant increase in the size of the resource

At the time of writing, that drilling program was complete with assays awaited

In addition Thor has committed to a new feasibility study to re-assess the economic outcomes of production at Molyhil. That study is in progress at the time of writing

Exploration projects

Gold Exploration – Spring Hill NT

In January 2011, Thor announced that it had agreed terms for the staged acquisition of up to an 80% interest in the 274,000oz Spring Hill Gold Project approximately 150 kilometres south of Darwin in the Northern Territory. Subsequently, the Company has completed the first stage of that acquisition and now holds a 25% interest in the project. The first Thor drilling program for this resource commenced on Tuesday 27 September 2011

Gold exploration – Dundas WA

During the year, the consolidated entity increased its equity in the Dundas Gold project to 60% following shareholder approval for the acquisition

Subsequent to this, assays from a calcrete sampling program on EL 63/872 and EL 63/1102 revealed clusters of elevated gold values identifying five previously unknown areas of gold anomaly in addition to the target area identified by previous exploration. Each of these warrants systematic follow-up sampling. This was followed by a shallow air core drilling program on the highest priority anomaly which confirmed anomalous gold and copper. Deeper reverse circulation drilling is scheduled, along with further shallow drilling on the other targets

DIRECTORS AND OFFICERS

The names and details of the Directors and officers of the company during or since the end of the financial year are

Michael Robert Billing – CPA, BBus MAICD
Executive Chairman and CEO

Mick Billing has over 36 years of mining and agri-business experience and a background in finance, specialising in recent years in assisting in the establishment and management of junior companies to the position where they can be sustainable businesses. His career includes experience in company secretarial, senior commercial, and CFO roles including lengthy periods with Bougainville Copper Ltd and WMC Resources Ltd. He has worked extensively with junior resource companies over the past 15 years. He was appointed to the Board on 30 April 2008.

He is also a director of ASX listed company Southern Gold Limited and is a past director of Western Desert Resources Limited

Michael Kevin Ashton – Non-Executive Director

Mick Ashton owns a timber manufacturing business located in South Australia and is a major shareholder in a successful exploration drilling company located in Victoria, which has both Australian and international activities. Mick has extensive knowledge and experience in the exploration and mining industries, which dates back 40 years. He was appointed to the Board 30 April 2008.

He is also a Director of ASX listed company Western Desert Resources Limited

WORLDWIDE Report

DIRECTORS AND OFFICERS

Gregory Durack – Non-Executive Director

Greg Durack is a Member of the Australian Institute of Mining and Metallurgy. He is a metallurgist, with over 20 years experience in Australia, Papua New Guinea and Greece having worked primarily on gold projects, in operational and development management roles. Greg was appointed to the Board 18 July 2005.

He is also the Chief Executive Officer of Jupiter Mines Limited an ASX listed company.

Trevor John Ireland – F AusIMM Non-Executive Director

Trevor Ireland is a geologist with more than 40 years experience in mineral exploration and corporate management. He has been involved both as a Manager and as a Company Director with mineral discoveries, economic evaluations and new mine developments covering gold, nickel, uranium and bauxite deposits in Australia and in several African countries.

He is particularly associated with the discovery and development of The Granites and Callie gold mines in the Tanami region of the Northern Territory by North Flinders Mines Ltd. He served as a Director and Exploration Manager – Europe & Africa for Normandy La Source SAS, overseeing the evaluation of Ahafo and Akeyem gold orebodies in Ghana, and Tasiast gold in Mauritania, all of which have subsequently reached development or operating status.

More recently, he was Managing Director of Australasia Gold Ltd which he led from inception through an IPO and listing on the ASX, with exploration projects in South Australia, the Northern Territory and New Zealand.

He is currently a consultant to a number of resources companies operating in these and other areas. Trevor was appointed to the Board on 10 March 2010.

Norman Wayne Gardner – Non-Executive Director

Norm Gardner is the Managing Director of ASX listed company Western Desert Resources Limited which, as at the date of this report, continues to hold 7.85% of the issued capital of this company.

Norm was appointed to the Board 30 April 2008. He resigned on 16 August 2011.

Allan Burchard – Chief Financial Officer/ Company Secretary (appointed 18 November 2010)

Mr Allan Burchard was appointed as Chief Financial Officer and Company Secretary in November 2010. He is a chartered accountant with 40 years' experience, including 20 years as an audit partner with KPMG, an international accounting and advisory firm, in Australia and Kazakhstan. He continues to hold Board and advisory positions with a number of Adelaide based private companies and not-for-profit organisations.

Laurie Ackroyd – Chief Financial Officer/ Company Secretary (resigned with effect from 18 November 2010)

Stephen F Ronaldson Joint Company Secretary (UK)

Mr Stephen Ronaldson is the joint company secretary as well as a partner of the Company's UK solicitors, Ronaldsons Solicitors LLP.

Mr Ronaldson has an MA from Oriel College, Oxford and qualified as a Solicitor in 1981. During his career Mr Ronaldson has concentrated on company and commercial fields of practice undertaking all issues relevant to those types of businesses including capital raisings, financial services and Market Act work, placings and admissions to AIM and Ofex.

Mr Ronaldson is currently company secretary for a number of companies including eight AIM list companies.

Richard Bradey – Exploration Manager (appointed 9 May 2011)

Mr Richard Bradey is a Geologist with over 20 years exploration and development experience. He holds a Bachelor of Science in Applied Geology and a Masters Degree in Natural Resources. His career includes exploration, resources development and mine geology experience with a number of Australian based mining companies.

EXECUTIVE DIRECTOR SERVICE CONTRACTS

All Directors are appointed under the terms of a Directors letter of appointment. Each appointment provides for annual fees of Australian dollars \$40,000 for services as Directors plus 9% as a company contribution to Australian statutory superannuation schemes. The agreement allows for any services supplied by the Directors to the Company and any of its subsidiaries in excess of two days in any calendar month, may be invoiced to the Company at market rate, currently at A\$1,000 per day.

PRINCIPAL ACTIVITIES AND REVIEW OF THE BUSINESS

The principal activities of the Group are the exploration for and potential development of molybdenum and tungsten deposits in the Northern Territory of Australia and exploration for, and potential development of, gold projects. The primary molybdenum and tungsten asset comprises the Molyhil Molybdenum/Tungsten Project (Molyhil). The gold projects are located in the Albany-Fraser Orogen at the margin of Western Australia's gold rich Archaean Yilgarn Craton and also in the Pine Creek area of Northern Territory.

A detailed review of the Group's activities is set out in the Review of Operations.

BUSINESS REVIEW AND FUTURE DEVELOPMENTS

A review of the current and future development of the Group's business is given in the Chairman's Statement and the Chief Executive Officer's Review of Operations on pages 2-8.

RESULTS AND DIVIDENDS

The Group incurred a loss after taxation of £2,852,000 (2010: £1,762,000). No dividends have been paid or are proposed.

KEY PERFORMANCE INDICATORS

Given the nature of the business and that the Group is on an exploration and development phase of operations, the Directors are of the opinion that analysis using KPIs is not appropriate for an understanding of the development, performance or position of our businesses at this time.

POST BALANCE SHEET EVENTS

At the date these financial statements were approved, 29 September, 2011, the Directors were not aware of any significant post balance sheet events other than those set out in the notes to the financial statements.

SUBSTANTIAL SHAREHOLDINGS

At 31 August 2011 the following had notified the Company of disclosable interests in 3% or more of the nominal value of the Company's shares:

	Ordinary shares	%
Western Desert Resources Limited ¹	47,220,296	7.85
TD Waterhouse Nominees (Europe) Limited	38,506,483	6.40
Barclayshare Nominees Limited	35,020,661	5.82

Laurie Ackroyd ³	-	-	-	-	-	-

¹ Mr Norman Gardner resigned as a director on 16 August 2011

² Mr Allan Burchard was appointed as Chief Financial Officer/Company secretary on 18 November 2010

³ Mr Laurie Ackroyd resigned with effect from 18 November 2010

DIRECTORS' REMUNERATION

The Company remunerates the Directors at a level commensurate with the size of the Company and the experience of its Directors. The Remuneration Committee has reviewed the Directors' remuneration and believes it upholds the objectives of the Company with regard to this issue. Details of the Director emoluments and payments made for professional services rendered are set out in Note 5 to the financial statements.

The Australian based directors are paid on a nominal fee basis amount to A\$40,000 per annum (£24,800). For the year ended 30 June 2011, the Directors elected to accept half fee arrangements until further notice.

Summary of amounts paid to Key Management Personnel

The following table discloses the compensation of the Directors and the key management personnel of the Group during the year.

2011	Salary & Fees	Post Employment Superannuation	Total Fees for Services rendered	Short-term employee benefits Salary & Fees	Share Options Granted during the year ¹	Options (based upon Black-Scholes formula) ²	Total Benefit
Directors:	£'000	£'000	£'000	£'000	No.	£'000	£'000

* Options are granted at an exercise price above the existing share price as at the date of grant. The value of options granted during the period has been calculated by the Black-Scholes formula method where applicable.

¹ Fees payable to Mr G Durack are paid to Martineau Resources Pty Ltd

² Mr L Ackroyd is an employee of Western Desert Resources Limited which invoiced the Company for accounting, administrative and secretarial services until November 2010. Fees are not paid direct to Mr Ackroyd. Mr Ackroyd resigned from his role with Thor Mining PLC effective 18 November 2010.

³ Mr I Sheffield Parker left the employ of the Company on 20 November 2009.

DIRECTORS' REMUNERATION

This report outlines the remuneration arrangements in place for directors and other key management personnel of Thor Mining PLC

DIRECTORS' MEETINGS

The Directors hold meetings on a regular basis and on an as required basis to deal with items of business from time to time. Meetings held and attended by each Director during the year of review were

2011	Meetings held whilst in Office	Meetings attended
Michael Billing	10	10
Gregory Durack	10	10
Michael Ashton	10	9
Norman Gardner	10	9
Trevor Ireland	10	10

CORPORATE GOVERNANCE

A statement on Corporate Governance is set out on pages 15 to 17

ENVIRONMENTAL RESPONSIBILITY

The Company is aware of the potential impact that its subsidiary companies may have on the environment. The Company ensures that it,

and its subsidiaries at a minimum comply with the local regulatory requirements and the revised Equator Principles with regard to the environment

EMPLOYMENT POLICIES

The Group will be committed to promoting policies which ensure that high calibre employees are attracted, retained and motivated, to ensure the ongoing success for the business. Employees and those who seek to work within the Group are treated equally regardless of sex, age, marital status, creed, colour, race or ethnic origin.

HEALTH AND SAFETY

The Group's aim will be to achieve and maintain a high standard of workplace safety. In order to achieve this objective the Group will provide training and support to employees and set demanding standards for workplace safety.

PAYMENT TO SUPPLIERS

The Group's policy is to agree terms and conditions with suppliers in advance, payment is then made in accordance with the agreement provided the supplier has met the terms and conditions. It is usual for suppliers to be paid within 30 days of receipt of invoice.

2018-19 ~~Q1~~ Report

POLITICAL CONTRIBUTIONS AND CHARITABLE DONATIONS

During the period the Group did not make any political contributions or charitable donations

ANNUAL GENERAL MEETING ("AGM")

This report and financial statements will be presented to shareholders for their approval at the AGM. The Notice of the AGM will be distributed to shareholders together with the Annual Report

STATEMENT OF DISCLOSURE OF INFORMATION TO AUDITORS

As at the date of this report the serving Directors confirm that

- So far as each Director is aware, there is no relevant audit information of which the Company's auditors are unaware, and
- they have taken all the steps that they ought to have taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor are aware of that information

AUDITORS

A resolution to reappoint Chapman Davis LLP and to authorise the Directors to fix their remuneration will be proposed at the next Annual General Meeting

GOING CONCERN

Notwithstanding the loss incurred during the period under review, the Directors are of the opinion that ongoing evaluations of the Company's interests indicate that preparation of the Group's accounts on a going concern basis is appropriate. As a Junior Exploration Company the Directors are aware that the Company must go to the marketplace to raise cash to meet its exploration and development plans

STATEMENT OF DIRECTORS' RESPONSIBILITY

Company law in the United Kingdom requires the Directors to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the company and

the group and of the profit or loss of the group for that period. In preparing those financial statements, the Directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group will continue in business

The Directors are responsible for keeping proper accounting records, for safeguarding the assets of the group and for taking reasonable steps for the prevention and detection of fraud and other irregularities. They are also responsible for ensuring that the annual report includes information required by the Alternative Investment Market (AIM) of the London Stock Exchange plc

ELECTRONIC COMMUNICATION

The maintenance and integrity of the Company's website is the responsibility of the Directors. The work carried out by the auditors does not involve consideration of these matters and, accordingly, the auditors accept no responsibility for any changes that may have occurred to the financial statements since they were initially presented on the website

The Company's website is maintained in accordance with AIM Rule 26

Legislation in the United Kingdom governing the preparation and dissemination of the financial statements may differ from legislation in other jurisdictions

This report was approved by the board on 29 September 2011

Mick Billing
Executive Chairman

Attan Burchard
Company Secretary

CORPORATE GOVERNANCE

Statement

The Board is committed to maintaining high standards of corporate governance. The Listing Rules of the Financial Services Authority incorporate the Combined Code, which sets out the principles of Good Governance, and the Code of Best Practice for listed companies. Whilst the Company is not required to comply with the Combined Code, the Company's corporate governance procedures take due regard of the principles of Good Governance set out in the Combined Code in relation to the size and the stage of development of the Company.

BOARD OF DIRECTORS

The Board of Directors currently comprises of one Executive Chairman and three Non-Executive Directors. The Directors are of the opinion that the Board comprises a suitable balance and that the recommendations of the Combined Code have been implemented to an appropriate level. The Board, through the Chairman and the Chief Financial Officer in particular, maintains regular contact with its advisers in order to ensure that the Board develops an understanding of the views of major shareholders about the Company.

BOARD MEETINGS

Board met 10 times in relation to normal operational matters. The Board is responsible for formulating, reviewing and approving the Company's strategy, financial activities and operating performance. Day to day management is devolved to the Executive Chairman/Chief Executive Officer who is charged with consulting the Board on all significant financial and operational matters.

All Directors have access to the advice of the Company's solicitors and the Company Secretary. Necessary information is supplied to the Directors on a timely basis to enable them to discharge their duties effectively, and all Directors have access to independent professional advice, at the Company's expense, as and when required.

BOARD COMMITTEES

The Board considers that its structure has been and continues to be appropriate in the context of the Company's history, and the size and scale of its present operations.

As such, the full board, in conjunction with the company secretary, fulfils the role of the Audit Committee and is responsible for ensuring that the financial performance of the Group is properly monitored and reported on.

In addition, the full board acts as the Remuneration Committee and considers and agrees the Executive Directors' remuneration and conditions. The financial package for the Executive Chairman is established by reference to packages prevailing in the employment market for executives of equivalent status both in terms of level of responsibility of the position and their achievement of recognised job qualifications and skills. The Committee will also have regard to the terms which may be required to attract an equivalent experienced executive to join the Board from another company.

INTERNAL CONTROLS

The Directors acknowledge their responsibility for the Group's systems of internal controls and for reviewing their effectiveness. These internal controls are designed to safeguard the assets of the Company and to ensure the reliability of financial information for both internal use and external publication. The Board is aware that no system can provide absolute assurance against material misstatement or loss, however, in light of increased activity and further development of the Company, continuing reviews of internal controls will be undertaken to ensure that they are adequate and effective.

RISK MANAGEMENT

The Board considers risk assessment to be important in achieving its strategic objectives. There is a process of evaluation of performance targets through regular reviews by senior management to forecasts. Project milestones and timelines are regularly reviewed.

RISKS AND UNCERTAINTIES

The principal risks facing the Company are set out below. Risk assessment and evaluation is an essential part of the Group's planning and an important aspect of the Group's internal control system.

GENERAL AND ECONOMIC RISKS

- Contractions in the world's major economies or increases in the rate of inflation resulting from international conditions,
- Weakness in equity markets throughout the world, particularly United Kingdom and Australia
- Adverse changes in market sentiment towards the resource industry
- Currency exchange rate fluctuations and, in particular, the relative prices of the Australian Dollar, the United States Dollar and the UK Pound,
- Exposure to interest rate fluctuations, and
- Adverse changes in factors affecting the success of exploration and development operations, such as increases in expenses, changes in government policy and further regulation of the industry, unforeseen major failure, breakdowns or repairs required to key items of plant and equipment resulting in significant delays, notwithstanding regular programmes of repair, maintenance and upkeep, variations in grades and unforeseen adverse geological factors or prolonged weather conditions

FUNDING RISK

The Group or the companies in which it has invested may not be able to raise, either by debt or further equity, sufficient funds to enable completion of planned exploration, investment and/or development projects.

COMMODITY RISK

Commodities are subject to high levels of volatility in price and demand. The price of commodities depends on a wide range of factors, most of which are outside the control of the Company. Mining, processing and transportation costs also depend on many factors, including commodity prices, capital and operating costs in relation to any operational site.

EXPLORATION AND DEVELOPMENT RISKS

- Exploration and development activity is subject to numerous risks, including failure to achieve estimated mineral resource, recovery and production rates and capital and operating costs
- Success in identifying economically recoverable reserves can never be guaranteed. The Company also cannot guarantee that the companies in which it has invested will be able to obtain the necessary permits and approvals required for development of their projects
- The regions in which the Company operates have native title laws which could affect exploration and development activities. The companies in which the Company has an interest may be required to undertake clean-up programmes on any contamination from their operations or to participate in site rehabilitation programmes which may vary from country to country. The Group's policy is to follow all applicable laws and regulations and the Company is not currently aware of any material issues in this regard
- Timely approval of mining permits and operating plans through the respective regulatory agencies cannot be guaranteed, and
- Geology is always a potential risk in mining and exploration activities

MARKET RISK

The ability of the Group (and the companies it invests in) to continue to secure sufficient and profitable sales contracts to support its operations is a key business risk

INSURANCE

The Group maintains insurance in respect of its Directors and Officers against liabilities in relation to the Company. The group insures other assets held having given regard to risks and events that may occur

TREASURY POLICY

The Group finances its operations through equity and holds its cash as a liquid resource to fund the obligations of the Group. Decisions regarding the management of these assets are approved by the Board

SECURITIES TRADING

The Board has adopted a Share Dealing Code that applies to Director, senior management and any employee who is in possession of inside information. All such persons are prohibited from trading in the Company's securities if they are in possession of inside information. Subject to this condition and trading prohibitions applying to certain periods, trading can occur provided the relevant individual has received the appropriate prescribed clearance

RELATIONS WITH SHARE HOLDERS

The Board is committed to providing effective communication with the shareholders of the Company. Significant developments are disseminated through stock exchange announcements and regular updates of the Company website. The Board views the AGM as a forum for communication between the Company and its shareholders and encourages their participation in its agenda

INDEPENDENT AUDITOR'S *Report*

TO THE MEMBERS OF THOR MINING PLC

We have audited the financial statements of Thor Mining Plc for the year ended 30th June 2011 which comprise the Group and Company Statements of Comprehensive Income, the Group and Parent Company Balance Sheets, the Group and Parent Company Statements of Cash Flows, the Group and Parent Company Statements of Changes in Equity and the related notes 1 to 19. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

Respective responsibilities of directors and auditors

As explained more fully in the Statement of Directors' Responsibilities included in the Directors' Report, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Scope of the audit

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of whether the accounting policies are appropriate to the group's and the parent company's circumstances and have been consistently applied and adequately disclosed, the reasonableness of significant accounting estimates made by the directors, and the overall presentation of the financial statements.

Opinion on financial statements

In our opinion the financial statements

- give a true and fair view of the state of the group's and the parent company's affairs as at 30th June 2011 and of the group's and the parent company's loss for the year then ended,
- have been properly prepared in accordance with IFRSs as adopted by the European Union, and
- have been prepared in accordance with the requirements of the Companies Act 2006 and, as regards the group financial statements, Article 4 of the IAS Regulation.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion

- the information given in the Directors' Report for the financial year for which the consolidated financial statements are prepared is consistent with the consolidated financial statements.

**Matters on which we are required to report
by exception**

We have nothing to report in respect of
the following

Under the Companies Act 2006 we are required
to report to you if, in our opinion

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the parent company financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

NOTES TO THE *Accounts*

FOR THE YEAR ENDED 30 JUNE 2011

1 PRINCIPAL ACCOUNTING POLICIES

a) Authorisation of financial statements

The Group financial statements of Thor Mining PLC for the year ended 30 June 2011 were authorised for issue by the Board on 29 September 2011 and the balance sheets signed on the Board's behalf by Michael Billing and Allan Burchard. The Company's ordinary shares are traded on the AIM Market operated by the London Stock Exchange and on the Australian Securities Exchange.

b) Statement of compliance with IFRS

The Group's financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS). The Company's financial statements have been prepared in accordance with IFRS as adopted by the European Union. The principal accounting policies adopted by the Group and Company are set out below.

c) Basis of preparation

The consolidated financial statements have been prepared on the historical cost basis, except for the measurement to fair value of assets and financial instruments as described in the accounting policies below, and on a going concern basis.

The financial report is presented in Sterling and all values are rounded to the nearest thousand pounds (£ 000) unless otherwise stated.

d) Basis of consolidation

The consolidated financial statements comprise the financial statements of Thor Mining PLC and its controlled entities. The financial statements of controlled entities are included in the consolidated financial statements from the date control commences until the date control ceases.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

All intercompany balances and transactions have been eliminated in full.

e) Exploration and development expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage which permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against the income statement in the year in which the decision to abandon the area is made.

A review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

Restoration, rehabilitation and environmental costs necessitated by exploration and evaluation activities are expensed as incurred and treated as exploration and evaluation expenditure.

f) Revenue

Revenue is recognised to the extent that it is probable that economic benefits will flow to the group and the revenue can be reliably measured.

Interest revenue

Interest revenue is recognised as it accrues using the effective interest rate method.

g) Deferred taxation

Deferred income tax is provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences.

i) Except where the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that

- is not a business combination and at the time of transaction, affects neither the accounting profit nor taxable profit or loss, and
- ii) In respect of taxable temporary differences associated with investments in subsidiaries, except where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except

- i) When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss, or
- ii) When the deductible temporary difference is associated with investments in subsidiaries, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised

Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the balance sheet date

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority

h) Trade and other payables

Trade and other payables are carried at amortised costs and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the Group becomes obliged to make future payments in respect of the purchase of these goods and services

i) Foreign currencies

The Company's functional currency is Sterling (£). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. As at the reporting date the assets and liabilities of these subsidiaries are translated into the presentation currency of Thor Mining PLC at the rate of exchange ruling at the balance sheet date and their income statements are translated at the average exchange rate for the year. The exchange differences arising on the translation are taken directly to a separate component of equity.

All other differences are taken to the income statement with the exception of differences on foreign currency borrowings, which, to the extent that they are used to finance or provide a hedge against foreign equity investments, are taken directly to reserves to the extent of the exchange difference arising on the net investment in these enterprises. Tax charges or credits that are directly and solely attributable to such exchange differences are also taken to reserves.

1 PRINCIPAL ACCOUNTING POLICIES

j) Share based payments

During the year the Group has provided benefits to Directors and associates of the Group in the form of share options to the value of £155,000 (2010 £0)

The cost of these equity-settled transactions with Directors and associates was measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined by using a Black-Scholes model.

In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Thor Mining PLC (market conditions) if applicable.

The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant holders become fully entitled to the award (the vesting period).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects (i) the extent to which the vesting period has expired and (ii) the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date. The Income Statement charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the holder, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

k) Leased assets

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

i) Finance Leases

Assets funded through finance leases are capitalised as fixed assets and depreciated in accordance with the policy for the class of asset concerned.

Finance lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as an expense in the income statement.

ii) Operating Leases

All operating lease payments are charged to the Income Statement on a straight line basis over the life of the lease.

l) Cash and cash equivalents

Cash and short-term deposits in the balance sheet comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less

For the purposes of the Cash Flow Statement, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts

m) Trade and other receivables

Trade receivables, which generally have 30 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts

An allowance for doubtful debts is made when there is objective evidence that the Group will not be able to collect the debts. Bad debts are written off when identified

n) Investments

Investments in subsidiary undertakings are stated at cost less any provision for impairment in value, prior to their elimination on consolidation

o) Financial instruments

The Group's financial instruments, other than its investments, comprise cash and items arising directly from its operation such as trade debtors and trade creditors. The Group has overseas subsidiaries in Australia whose expenses are denominated in Australian Dollars. Market price risk is inherent in the Group's activities and is accepted as such. There is no material difference between the book value and fair value of the Group's cash

p) Merger reserve

The difference between the fair value of an acquisition and the nominal value of the shares allotted in a share exchange have been credited to a merger reserve account, in accordance with the merger relief provisions of the then Companies Act 1985 and accordingly no share premium for such transactions is set-up

Where the assets acquired are impaired, the merger reserve value is reversed to retained earnings to the extent of the impairment

q) Property, plant and equipment

Plant and equipment is stated at cost less accumulated depreciation and any accumulated impairment losses. Land is measured at fair value less any impairment losses recognised after the date of revaluation

Depreciation is provided on all tangible assets to write off the cost less estimated residual value of each asset over its expected useful economic life on a straight-line basis at the following annual rates: Land (including option costs) – Nil, Plant and Equipment – between 5% and 25%

All assets are subject to annual impairment reviews

r) Impairment of assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or Groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

Accounts

1 PRINCIPAL ACCOUNTING POLICIES

r) Impairment of assets

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at its revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the Income Statement unless the asset is carried at its revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

s) Provisions

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the income statement net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the risks specific to the liability.

t) Loss per share

Basic loss per share is calculated as loss for the financial year attributable to members of the parent, adjusted to exclude any costs of servicing equity (other than dividends) and preference share dividends, divided by the weighted average number of ordinary shares, adjusted for any bonus element.

Diluted loss per share is calculated as loss for the financial year attributable to members of the parent, adjusted for

- costs of servicing equity (other than dividends) and preference share dividends,
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses, and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares, divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

u) Share based payments reserve

This reserve is used to record the value of equity benefits provided to employees and directors as part of their remuneration and provided to consultants and advisors hired by the Group from time to time as part of the consideration paid

v) Foreign currency translation reserve

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries

w) Adoption of new and revised Accounting Standards

In the current year, the company has adopted all of the new and revised Standards and Interpretations issued by Accounting Standards and Interpretations Board that are relevant to its operations and effective for the current annual reporting period and there is no material financial impact on the financial statements of the company or the company

**2 REVENUE AND SEGMENTAL ANALYSIS
- GROUP**

The group has not commenced production and therefore recorded no revenue

The Group has a number of exploration licenses in Australia which are managed on a portfolio basis. The decision to allocate resources to individual projects in the portfolio is predominantly based on available cash reserves, technical data and the expectations of future metal prices. Accordingly, the Group effectively operates as one segment, being exploration in Australia. This is the basis on which internal reports are provided to the Directors for assessing performance and determining the allocation of resources within the Group

Accounts

	2011 £ 000	2010 £ 000
3 OPERATING LOSS – GROUP		
This is stated after charging		
Depreciation	23	26
Auditors' remuneration – audit services	25	45
Auditors' remuneration – non-audit services	-	-
Options issued – directors, staff and consultants	155	-
Directors' emoluments – fees and salaries	185	116

Auditors' remuneration for audit services above includes £10,000 (2010 £16 500) to Chapman Davis LLP for the audit of the company. Remuneration to Deloitte Touche Tohmatsu for the audit of the Australian subsidiaries was £14 500 (2010 £12 500).

4 DIRECTORS AND EXECUTIVE DISCLOSURES – GROUP

All Directors are each appointed under the terms of a Directors letter of appointment. Each appointment provides for annual fees of Australian dollars \$40 000 for services as Directors plus 9% as a company contribution to Australian statutory superannuation schemes. The agreement allows for any services supplied by the Directors to the Company and any of its subsidiaries in excess of 2 days in any calendar month, can be invoiced to the Company at market rate currently at \$1,000 per day. From 1st January 2010 the Directors elected to accept half fee arrangements until further notice.

¹ Appointed 10 May 2011

² Appointed 18 November 2010

³ Ceased employment 18 November 2010

b) Compensation of Key Management Personnel

Compensation Policy

The compensation policy is to provide a fixed remuneration component and a specific equity related component. There is no separation of remuneration between short term incentives and long term incentives. The Board believes that this compensation policy is appropriate given the stage of development of the Company and the activities which it undertakes and is appropriate in aligning director and executive objectives with shareholder and businesses objectives.

4 DIRECTORS AND EXECUTIVE DISCLOSURES – GROUP

b) Compensation of Key Management Personnel

Compensation Policy

The compensation policy setting the terms and conditions for the executive Directors and other executives has been developed by the Board after seeking professional advice and taking into account market conditions and comparable salary levels for companies of a similar size and operating in similar sectors. Executive Directors and executives receive either a salary or provide their services via a consultancy arrangement. Directors and executives do not receive any retirement benefits other than compulsory Superannuation contributions where the individuals are directly employed by the Company or its subsidiaries in Australia. All compensation paid to Directors and executives is valued at cost to the Company and expensed.

The Board policy is to compensate non-executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Board determines payments to the non-executive Directors and reviews their compensation annually, based on market practice, duties and accountability. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to Directors is subject to approval by shareholders at a General Meeting. Fees for non-executive Directors are not linked to the performance of the economic entity. However, to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and may receive options.

5 TAXATION - GROUP

Analysis of charge in year

- -

Tax on profit on ordinary activities

- -

Factors affecting tax charge for year

The differences between the tax assessed for the year and the standard rate of corporation tax are explained as follows

Loss on ordinary activities before tax	(2,852)	(1 762)
Standard rate of corporation tax in the UK	26%	28%
Loss on ordinary activities multiplied by the standard rate of corporation tax	(741)	(493)
Effects of		
Share based payments not allowable	40	-
Future tax benefit not brought to account	701	493
Current tax charge for year	-	-

No deferred tax asset has been recognised because there is insufficient evidence of the timing of suitable future profits against which they can be recovered

Accounts

FIFTH YEAR ENDING 30 JUNE 2011

	2011 € 000	2010 € 000
6 LOSS PER SHARE		
Loss for the year	(2,852)	(1,762)
Weighted average number of Ordinary shares on issue	438,071,586	222,694,602
Loss per share – basic	(0.65)p	(0.79)p
<p>The basic loss per share is derived by dividing the loss for the period attributable to ordinary shareholders by the weighted average number of shares in issue</p> <p>As the inclusions of the potential Ordinary Shares would result in a decrease in the loss per share they are considered to be anti-dilutive and as such not included</p>

15 ANALYSIS OF CHANGES IN NET DEBT

Cash at bank and in hand	35	1 416	134	1 585
--------------------------	----	-------	-----	-------

16 CONTINGENT LIABILITIES AND COMMITMENTS

a) Exploration commitments

Ongoing exploration expenditure is required to maintain title to the Group mineral exploration permits. No provision has been made in the financial statements for these amounts as the expenditure is expected to be fulfilled in the normal course of the operations of the Group.

b) Claims of native title

The Directors are aware of native title claims which cover certain tenement and tenement applications in the Northern Territory. The Group's policy is to operate in a mode that takes into account the interests of all stakeholders including traditional owners requirements and environmental requirements. At the present date no claims for native title have seriously affected exploration by the Company.

17 FINANCIAL INSTRUMENTS

The Group uses financial instruments comprising cash, liquid resources and debtors/creditors that arise from its operations.

The Group's exposure to currency and liquidity risk is not considered significant. The Group's cash balances are held in Pounds Sterling and in Australian Dollars, the latter being the currency in which the significant operating expenses are incurred.

To date the Group has relied upon equity funding to finance operations. The Directors are confident that adequate cash resources exist to finance operations to commercial exploitation but controls over expenditure are carefully managed.

The net fair value of financial assets and liabilities approximates the carrying values disclosed in the financial statements. The currency and interest rate profile of the financial assets is as follows:

	June 11 £'000	June 10 £ 000
Cash and short term deposits		
Sterling	95	4
Australian Dollars	1,490	31
At 30 June	1,585	35

The financial assets comprise interest earning bank deposits.

Set out below is a comparison by category of carrying amounts and fair values of all of the Group's financial instruments recognised in the financial statements, including those classified under discontinued operations.

The fair value of cash and cash equivalent, trade receivables and payables approximate to book value due to their short-term maturity.

The fair values of derivatives and borrowings have been calculated by discounting the expected future cash flows at prevailing interest rates. The fair values of loan notes and other financial assets have been calculated using market interest rates.

	2011 Carrying Amount £ 000	2011 Fair Value £'000	2010 Carrying Amount £ 000	2010 Fair Value £ 000

18 RELATED PARTIES

There is no ultimate controlling party

Thor has lent funds to its wholly owned subsidiaries, Molyhil Mining Pty Ltd , Hale Energy Ltd , Hatches Creek Pty Ltd and TM Gold Pty Ltd to enable those companies to carry out its operations in Australia. At 30 June 2011 the amount outstanding converted to £7 161 055

Thor Mining PLC engages the services of Ronaldson Solicitors, a company in which Mr Stephen Ronaldson is a Senior Partner. Mr Ronaldson is the UK based Company Secretary. During the period £76,441 was paid to Ronaldson Solicitors on the basis of normal commercial terms

Western Desert Resources Limited was in previous years considered to be a related party because of

- The level of its shareholding in Thor Mining PLC (12.37% as at 31 August 2010),
- The appointment of two directors (Mr NW Gardner and Mr M K Ashton) of Western Desert Resources Limited to the board of Thor Mining PLC, and
- The dual role of Mr M R Billing as executive chairman of Thor Mining PLC and until 13 January 2010 non-executive chairman of Western Desert Resources Limited

During the period to 30 November 2010, Thor Mining PLC paid GBP60 838 to Western Desert Resources Limited in accordance with a service agreement for the supply of office space and services including accounting, payroll and secretarial services

At the date of this report Western Desert Resources Limited is no longer considered to be a related party because of

- The reduction of its shareholding to below 10% of the issued capital of Thor Mining PLC
- The time which has elapsed since the dual role of Mr M R Billing and
- The resignation of Mr N W Gardner as a director of Thor Mining PLC on 16 August 2011

19 POST BALANCE SHEET EVENTS

On 2 August 2011, the company issued 40 000 000 shares to Western Desert Resources Limited, as approved at a General Meeting held on 18 May 2011 in consideration for the acquisition of an interest of 25% in the Spring Hill gold project in Australia's Northern Territory

On 4 August 2011 the company raised GBP410 000 (before costs) through the issue of 30,597,018 shares at 14 pence per share

On 16 August 2011 Mr Norm Gardner resigned as a director of the company

Subject to the above matters there were no material events arising subsequent to 30 June 2011 to the date of this report which may significantly affect the operations of the Company, the results of those operations and the state of affairs of the Company in the future

The warrants granted to shareholders were on the basis of one warrant/option for every two new shares subscribed.

Stock Exchanges

Thor Mining PLC shares are dual listed on the AIM market and the Australian Stock Exchange. On the ASX they are traded as CDIs.

The ASX Code on Corporate Governance requires that every public company disclose its compliance with each principle of the Code. During the financial year 2010/11 (Reporting Period) the Company has complied with each of the Ten Essential Corporate Governance Principles and Best Practice Recommendations as published by the ASX Corporate Governance Council, other than in relation to the matters specified below.

2.1 Majority of the Board should be Independent Directors

The Board considers that its structure has been, and continues to be, appropriate in the context of the Company's history and the size and scale of operations. The Company considers that the non-independent director possesses skills and experience suitable for building the Company. The Board intends to reconsider its composition as the Company's operations evolve and appoint further independent directors as appropriate.

Mr Michael Billing is the Executive Chairman and is not considered to be independent in respect of the ASX Corporate governance Council's definition of independence. Mr Billing is a former Director and Chairman of Western Desert Resources Limited, a continuing shareholder of Thor Mining PLC, albeit no longer deemed to be a related party. The board considers that the expertise and dedication of Mr Michael Billing gives cohesiveness and organisation to the board and its functions.

Mr Michael Billing as the Executive Chairman has also fulfilled the role of Chief Executive Officer of the Company following the departure of the former Chief Executive in June 2009. It is planned that Mr Billing continues in this role until such time as a new chief executive is recruited.

A separate Nomination Committee has not been formed

The Board considers that the Company is not currently of a size to justify the formation of a nomination committee. The Board as a whole undertakes the process of reviewing the skill base and experience of existing Directors to enable identification of attributes required in new Directors. Where appropriate, independent advisers are engaged to identify possible new candidates for the Board.

A separate Audit Committee has not been formed

The role of the Audit Committee is carried out by the full Board with specific assistance from the Executive Chairman and the Company Secretary. The Board considers this appropriate given its size and stage of development. As the Company grows, the Board intends to move towards an Audit Committee comprising primarily independent Directors.

Recommendation 8.1

Non-disclosure of the process of evaluating the board

The process for evaluation of the Board, individual Directors and key executives has not been disclosed. However, an evaluation of the Board, Directors and key executives does occur on an informal basis at least annually by the Chairman in conjunction with key Directors.

Recommendation 9.2

The full Board carried out the functions of the Remuneration Committee. All matters of remuneration were determined by the Board in accordance with Corporations Act requirements, especially in respect of related party transactions. That is, no Directors participated in any deliberation regarding their own remuneration or related issues.

Skills, experience, expertise and term of office of each Director

A profile of each Director containing the applicable information is set out on the Company's website and elsewhere within this document.

Identification of Independent Directors

Mr M K Ashton, Mr G Durack and Mr T J Ireland are independent in accordance with the criteria set out in Box 2.1 of the ASX Principles and Recommendations.

Statement concerning availability of independent professional advice

Subject to the approval of the chairman, an individual Director may engage an outside adviser at the expense of Thor Mining PLC for the purposes of seeking independent advice in appropriate circumstances.

Names of nomination committee members and their attendance at committee meetings

The full Board carries out the functions of the Nomination Committee. The Board did not convene formally as the Nomination Committee during the Reporting Period, but rather, discussed relevant issues on an as-required basis at scheduled Board meetings.

Names and qualifications of audit committee members

The full Board performs the functions of the Audit Committee. Mr Michael Billing is financially literate.

Number of audit committee meetings and names of attendees

During the Reporting Period representatives of the audit committee met with the external auditors in respect of the half year and full year financial reports.

During the Reporting Period an evaluation of the Board was conducted as an informal review during regular meetings of the Board.

NOTES

NOTES

An abstract geometric design featuring several thin white lines that intersect to form various triangular and quadrilateral shapes across a solid black background. The lines are thin and white, creating a high-contrast, minimalist aesthetic. The composition is dynamic, with lines extending from the edges towards the center and crossing each other at different angles.
