**3. ACCOUNTING POLICIES**

The principal accounting policies applied to the preparation of these financial statements are set out below. These policies have been consistently applied to all of the years unless otherwise stated.

**Basis of preparation**

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 4.

**Going concern**

3. ACCOUNTING POLICIES (CONTINUED)

**Exceptional items**

Exceptional items are those significant items which are separately disclosed by virtue of their size or incidence to enable a full understanding of the company's financial performance.

**Taxation**

Taxation expense for the period comprises current and deferred tax recognised in the reporting period. Tax is recognised in the Statement of Comprehensive Income, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

*i. Current tax*

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the period end.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

*ii. Deferred tax*

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements.

Deferred tax is recognised on all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the period end and that are expected to apply to the reversal of the timing difference.

**Provisions**

Provisions are made for liabilities and charges when there is a legal or constructive obligation arising from a past event.

**Investments**

Investment in the subsidiary undertaking is included at cost less any provision for impairment.

**Share capital**

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

**Related party transactions**

The company discloses transactions with related parties which are not wholly owned within the same group. It does not disclose transactions with members of the same group that are wholly owned.
