TERSUS ENERGY LIMITED

REPORT OF THE DIRECTORS

The directors present their annual report together with the financial statements of the Company for the year ended 31 December 2019.

PRINCIPAL ACTIVITIES AND BUSINESS REVIEW

A review of the Company's performance and the activities of the Group is contained on pages 3 to 6.

Historically, the principal activities of the Company were to invest in, operate and advise businesses in the renewable energy sector. The principal objective of the business is now to realise the value of its investments in order to maximise the return to shareholders.

The principal risks associated with this objective are normal business risks applicable to the underlying Envinta business, which is US dollar based, together with the need to maintain sufficient funds to provide enough time for the investments to be optimally realised. In March 2020, the Company sold the majority of its US dollar cash holdings at that date, realising a gain of £14,009 over the sterling value of the USD denominated balances at 31 December 2019. Currency fluctuation remains relevant to the future value of the Company's assets.

STATUTORY MATTERS

As in previous accounting periods, the Company has taken advantage of Companies Act 2006 enabling provisions that allow the Company not to prepare group accounts and to be exempt from the audit of its accounts.

RESULTS AND DIVIDENDS

The results for the year ended 31 December 2019 are shown in the Profit and Loss Account on page 8. The profit for the year after tax amounted to £2,549 (2018 – £102,140). The directors are not proposing payment of a dividend for the year (2018 – nil).

DIRECTORS

The directors during the year to 31 December 2019 were:

S P Levine (Chief Executive Officer)

D T Wilson (Chief Operating Officer and Finance Director)

Steven Levine (Chief Executive Officer)

Steve Levine is an energy services executive and attorney with extensive experience developing and financing domestic and international energy projects and managing related businesses. He was previously VP of New Energy, Inc. (now Constellation New Energy), one of the largest US deregulated electricity power retailers. He is a former president of Metro Energy, L.L.C., a private New York City based utility.

David Wilson (Chief Operating Officer and Finance Director)

David Wilson was a director of Hilton International Plc with responsibilities for finance and for identifying and negotiating new business opportunities, and previously a partner in Ernst & Young with responsibility for services to small and medium-sized enterprises.

TERSUS ENERGY LIMITED

REPORT OF THE DIRECTORS

Directors and their shareholdings

The interests of the directors who served during the year in the shares of the Company were as follows:

	As at 31 December 2019		As at 31 December 2018	
	Number of ordinary shares	Percentage of issued ordinary shares	Number of ordinary shares	Percentage of issued ordinary shares
S P Levine	358	4.06	358	4.06
D T Wilson	3,142	35.66	3,142	35.66

No changes in the directors' share interests have taken place between 31 December 2019 and 2 September 2020.

Under the provisions of the Company's Articles of Association S P Levine shall retire from office at the Annual General Meeting of the Company and, being eligible, offers himself for re-election.

OTHER MATTERS

Both directors have service agreements. The Company has the power to determine the service agreements on six or twelve months' notice without payment of compensation (other than statutory compensation).

Communication with shareholders on remuneration matters is undertaken by way of this report and the detailed disclosure of remuneration provided by note 8 to the financial statements.

DIRECTORS' RESPONSIBILITIES FOR THE FINANCIAL STATEMENTS

The directors are responsible for preparing the Report of the directors and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the Company's financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

TERSUS ENERGY LIMITED

REPORT OF THE DIRECTORS

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

VALUATION POLICY

Investment strategy

The Company has a documented investments strategy.

The Company's principal investments are:

- Its 100 per cent ownership of Envinta Corp. ("Envinta")
- Its approximately 1.3 per cent investment in Zhong Hang (Baoding) Huiteng Wind Power Equipment Company Ltd ("HT Blade"), which is held through its 9.075 per cent partnership interest in Tang Wind Energy LP ("TWELP"), a Texan limited partnership
- Its 12.1 per cent partnership interest in TWE II LP ("TWELP 2"), a Texan limited partnership.

Principles of valuation of fixed asset investments, including subsidiaries

Fixed asset investments are shown at cost, less provision for any permanent impairment of value, where cost includes the associated costs of acquisition.

When considering if there has been a permanent impairment in an investment's value, the directors assess the value of an investment, having regard to the requirement to apply a degree of caution in making the necessary assessments. In making these assessments, the directors use a methodology which is appropriate in light of the nature, facts and circumstances of the investment and its materiality in the context of the total investment portfolio.

Investment in Envinta Corp. "Envinta"

The investment in the Company's wholly-owned subsidiary, Envinta, has been assessed having regard to the fact that, although its products and services are well received by its customers, the overall market for its products appears to be diminishing, as evidenced by the progressive reductions in its annual revenues in recent years. The revenue achieved in 2019 was US\$425,105 compared with US\$576,000 in 2018: it is likely there will be a further reduction in revenue in 2020 due in part to the continuing impact on the US economy of the COVID-19 pandemic. It is difficult to foresee future revenue levels although Envinta makes continuing efforts to generate additional revenue and contain operating costs to ensure it does not operate at a loss and is able to pay a monthly management fee to the Company to cover the time commitment of the Company's directors and financial controller. Despite efforts in previous years to seek a buyer for the business consistent with the Company's overall strategy of realising investments and minimising running costs, it has not proved possible to find a buyer.

It is considered appropriate to continue to base the assessment of the value of the investment on the estimated long run amount of Envinta's net assets attributable to the Company. This assessment includes an estimate of the present value of its future profits, which are not expected to be material. Following completion of this review, it was decided to continue to carry the investment at £49,743, the value assessed as at 31 December 2019. The provision for impairment was accordingly unchanged at £1,005,000.

Investment in TWELP

In 2008, the Company received approximately US\$2.19 million when it disposed of 25 per cent of its then 12.1 per cent interest in TWELP, whose main asset is its indirect minority holding in HT Blade. The Board has been unable to obtain up to date information on developments affecting HT Blade from the general partner of TWELP. It understands HT Blade was loss-making in each of 2011, 2012 and 2013 but has no information on later years. The Board considers there can only be value in TWELP if circumstances change in relation to HT Blade and the Company is able to benefit from this. Consequently, in view of the considerable uncertainties in relation to both the current and future business performance of HT Blade and the future intentions of the majority shareholders, the value of the Company's investment in TWELP continues to be assessed as zero.

Investment in TWELP 2

The Company received distributions of approximately US\$1.45 million in 2008 and a further US\$484,000 in 2012 (made from the profit on the sale by TWELP of part of its interest in HT Blade). At 31 December 2012, TWELP 2 had cash or cash equivalent assets which, if distributed, would result in a further distribution to the Company of approximately US\$500,000. The general partner declined to make such a distribution and, in the four years up to 31 December 2016, the general partner disbursed US\$4.5 million as management fees, so reducing TWELP 2's cash or cash equivalent assets to US\$111,000 by that date. At 31 December 2018, being the latest date for which the Company has received information from the general partner, TWELP 2's cash or cash equivalent assets were US\$102,111. The Company does not know what the current cash balances are.

TWELP 2 also continued to have a loan balance of some US\$12.2 million as at 31 December 2018 relating to a loan to a Texan partnership connected with the general partner. The Company has been unable to establish either why this amount was lent to this partnership or what its realisable value might be. In view of the uncertainties regarding the recoverability of this amount, no value has been attributed to it when assessing the value of the Company's investment in TWELP 2. Accordingly, as in the previous period, the value of the investment has again been assessed at nil.

Future value in TWELP and TWELP 2

The Board is aware of a dispute between the general partner of TWELP and Chinese State Owned Enterprises, which are the majority shareholders of HT Blade. This dispute is currently the subject of legal action in the USA courts, and relates, inter alia, to the management of HT Blade as well as other alleged actions by the Chinese State Owned Enterprises. Your Board believes that the claim relating to HT Blade has been rejected. Any future value in TWELP 2 seems likely to be dependent on other aspects of this legal action being resolved in favour of the general partner or related entities and on part of any moneys received being applied towards repayment of the loan due to TWELP 2. The Board has a continuing dispute with the general partner of TWELP 2 regarding its management of TWELP 2's funds. The Board believes that neither the legal action against the Chinese State Owned Enterprises, nor any possible discussions or litigation between the Company and the general partner of TWELP 2 are likely to be settled for some time. Given the considerable uncertainty relating to these, your Board considers they provide no justification for attributing a value to its partnership interest in either TWELP or TWELP 2.

A small share-holding in an AIM-listed company has been valued at the closing price on 31 December 2019. The valuations of the remaining investments, all of which are unlisted, have been assessed as nil on the basis of their estimated realisable amounts and the lack of any cash flows from these investments.

Valuation review procedures

Valuations are prepared by the directors.

TERSUS ENERGY LIMITED

REPORT OF THE DIRECTORS

Results for 2019 and operating costs

The profit for the year was £2,549, compared with £102,140 in the previous year. The fees received from Envinta were £39,113 (\$48,000) compared with £83,929 (\$112,000) in 2018 when a dividend of £47,218 (\$60,000) was also received. The 2018 results also benefited from net exchange gains of £15,438 while there were net exchange losses of £5,104 in 2019. However, subsequent to the year end the Company transferred \$160,000 funds into sterling in March 2020 at an average rate of exchange of approximately 1.188 US\$:£, so locking in a gain of £14,000 compared with the year-end carrying value

We have stated previously that one of your Board's objectives is to minimise running costs.

The Company's future running costs are now below £30,000 per annum, excluding any remuneration payable to directors. These running costs comprise the cost of the Company's financial controller as well as company secretarial, insurance, sundry professional costs, travel, office and communication costs.

Directors' remuneration

During the year to 31 December 2019, the two executive directors received emoluments equivalent to £26,093 in aggregate per annum, to reflect their time commitment on matters relating to the Company's affairs and investment portfolio. This remuneration can, of course, be further reduced or stopped at any point where either the time commitment reduces or the funds available make it appropriate to cease these payments.

Future direction of the business

Following the return of capital to shareholders in 2018, the directors are continuing your Board's strategy of seeking to realise the Company's investments while minimising running costs in the meantime. As explained on page 5, there are continuing business interests which may yet provide value to shareholders and your board remains reluctant to forgo any opportunity for future value unnecessarily. The directors continue to keep the future of the Company under review.

GOING CONCERN

The directors confirm they are satisfied that the Company has adequate resources to continue in operational existence for the foreseeable future. For this reason, they continue to adopt the going concern basis in preparing the financial statements. There are some uncertainties that are outlined further in note 2 to the financial statements.

ANNUAL GENERAL MEETING

This year's annual general meeting will be held at 3.00 pm on 29 September 2020 at 44 Kensington Park Gardens, London W11 2QT. The notice of meeting is set out on pages 20 and 21 of this document.

In the light of the UK Government's social distancing guidelines associated with the COVID-19 pandemic restricting public gatherings, physical attendance at the Company's AGM will not be permitted. The Company encourages shareholders to appoint the Chairman as their proxy with their voting instructions.

REPORT OF THE DIRECTORS

Details of the business to be considered at the meeting are given below.

Report and accounts (Resolution 1)

It is a requirement of company law that the annual report and accounts is laid before shareholders in general meeting.

Re-election of director (Resolution 2)

In accordance with article 92.1 of the articles of association, one-third of the directors retire from office each year. Accordingly, Steven Levine offers himself for re-election. His biographical details are given on page 2.

Authority of directors to allot shares (Resolutions 3 and 4)

Resolution 3 asks shareholders, by ordinary resolution, to authorise the directors under section 551 of the Act to allot unissued shares and to grant rights to subscribe for, or to convert any security into, shares in the Company. This authority will, if granted, expire, unless previously revoked, renewed or varied, 15 months after the date of passing the resolution or, if earlier, at the conclusion of next year's annual general meeting, although offers or agreements can be made before the expiry of that period, which might require shares to be allotted or rights granted after the expiry of that period. This authority, if approved, will be limited to shares up to an aggregate nominal amount of £3,000. The directors believe that it is appropriate for them to have the authority proposed in the resolution to enable such allotments to take place if required.

Resolution 4 – disapplication of pre-emption rights for the issue of new shares. If the directors wish to allot new shares and other equity securities for cash, the Act requires that any such shares are offered first to existing shareholders in proportion to their holdings. This is known as shareholders' pre-emption rights. There may be occasions, however, when the directors need the flexibility to finance business opportunities as they arise without offering securities on a pre-emptive basis. The Act allows a limited disapplication of these pre-emption rights in certain circumstances. Therefore, this resolution, which will be proposed as a special resolution, authorises the directors to issue, for cash, up to an aggregate nominal amount of £550 in ordinary shares, equivalent to approximately 5 per cent of the issued share capital of the Company. This resolution will be proposed subject to resolution 4 (referred to above) first being carried at the meeting and the authority sought, if granted, will be for the same period as that granted under resolution 4.

Voting

A form of proxy is being sent to shareholders for use at the Annual General Meeting. This should be completed, signed and returned as soon as possible in accordance with the instructions on it. In the light of the UK Government's social distancing guidelines associated with the COVID-19 pandemic restricting public gatherings, physical attendance at the Company's Annual General Meeting will not be permitted. The AGM will be held with a quorum of members only present at the physical location. Shareholders are encouraged to appoint the Chairman as their proxy with their voting instructions. A form of proxy should be returned so that it is received not less than 48 hours (excluding non-working days) before the time of the meeting.

The directors consider that all the resolutions to be put to the meeting are in the best interests of the Company and its shareholders as a whole. The directors will be voting in favour of them and unanimously recommend that shareholders do so as well.

TERSUS ENERGY LIMITED

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2019

1 COMPANY INFORMATION

The Company is a private limited company, which is incorporated in England and Wales with company registration number 5314207. The address of the registered office of the Company is 44 Kensington Park Gardens, London W11 2QT.

2 BASIS OF PREPARATION

The financial statements relate to the year ended 31 December 2019. The comparative figures relate to the year ended 31 December 2018.

As in previous accounting periods, the Company has taken advantage of Companies Act 2006 enabling provisions that allow the Company not to prepare group accounts and to be exempt from the audit of its accounts.

The financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 – “The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland” (“FRS 102”) and with the Companies Act 2006. The financial statements have been prepared on the historical cost basis.

The financial statements are presented in sterling, which is the functional currency.

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been applied consistently to all the periods presented, unless otherwise stated.

GOING CONCERN

The Company meets its working capital and operating costs requirements from its cash balances. The nature of the Company’s business is such that there is considerable uncertainty in the amounts and timing of cash flows. For example, remittances of surplus funds from Envinta and any further distributions from TWELP or TWELP 2 are all uncertain as to amount and timing.

Bearing this in mind, the directors have prepared cash flow forecasts for the period to 31 December 2021. The forecasts show that the Company will have adequate resources for this period. The Company therefore continues to adopt the going concern basis in preparing its financial statements.

The financial statements do not include any adjustments or disclosures that would be required if the Company was not a going concern.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2019

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reported period. Although these estimates are based on management's best knowledge of the amount, event or action, actual results may differ materially from those estimates.

The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities relate to:

- the assessment of whether there has been any impairment in respect of unlisted investments, which are valued on the bases set out in the Report of the directors
- the assessment of whether there has been any impairment in respect of subsidiaries
- the timing and amount of cash flows.

4 PRINCIPAL ACCOUNTING POLICIES

REVENUE

Revenue is measured at the fair value of the consideration received or receivable from third parties for services provided in the normal course of business, net of value added tax and other sales taxes.

FIXED ASSET INVESTMENTS

Fixed asset investments, including subsidiaries, are shown at cost, less provision for any permanent impairment of value. Cost includes the associated costs of acquisition.

DISPOSAL OF ASSETS

The gain or loss arising on the disposal of an asset is determined as the difference between the disposal proceeds and the carrying amount of the asset and is recognised in the income statement.

TAXATION

Current tax is the tax currently payable based on taxable profits for the period using tax rates and laws that have been enacted or substantively enacted by the reporting date.

Deferred tax is recognised on all timing differences where the transactions or events that give the Company an obligation to pay more tax in the future, or a right to pay less tax in the future, have occurred by the reporting date. Deferred tax assets are recognised when it is more likely than not that they will be recovered. Deferred tax is measured using rates of tax that have been enacted or substantively enacted by the reporting date.

Tax expense or income is presented either in profit or loss, other comprehensive income or equity depending on the transaction that resulted in the tax expense or income.

FOREIGN CURRENCIES

Transactions in foreign currencies are translated at the exchange rate ruling at the date of the transaction. Monetary assets and liabilities in foreign currencies are translated at the rates of exchange ruling at the balance sheet date. Non-monetary items that are measured at historical cost in a foreign currency are translated at the exchange rate at the date of the transaction.

Any exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were initially recorded are recognised in the profit or loss in the period in which they arise.

- (a) The provision for impairment in the value of the Company's remaining subsidiary is made on the basis of its assessed long-term value. No change in the provision has been made in respect of the investment in Envinta Corp., which is carried at a net book amount of £49,743. The total provision made in respect of this investment is £1,005,000 (2018 - £1,005,000). Information on Envinta Corp. is given below.
- (b) The value of the investment in TWELP has been assessed as nil (2018 – nil) in view of the uncertainty regarding the current and future business performance of HT Blade and the future intentions of the majority shareholders. The value of the investment in TWELP 2 has continued to be assessed as nil (2018 – nil) as there is no indication of the amount, if any, that will be realised for the loan asset in TWELP 2 or of the timing of such realisation. The investment could have a substantial value if the realisable value of the loan asset in TWELP 2 of some US\$12 million were substantial (see page 5), as the Company holds a 12.1% partnership interest in TWELP 2.

19 LONG TERM INCENTIVES

There are arrangements in place to provide long term incentives. The arrangements under which long term incentives have already been granted are summarised below.

Advisory Income Participation Arrangement

The Company has an Advisory Income Participation Arrangement whose objective is to reward and incentivise those employees and contract personnel who assist the Group in consummating cash-generative transactions with advisory clients. Under this arrangement an amount of 30 per cent of the net cash received by the Group on a transaction (after taking account of the payment of various related expenses to third parties and basic remuneration) may be paid in compensation to employees who had an active role in the transaction, provided that those employees have met certain minimum criteria.

No payments were made in the years to 31 December 2019 or 31 December 2018 under this arrangement.

NOTES TO THE FINANCIAL STATEMENTS

For the year ended 31 December 2019

Investment Gain Participation Arrangement

The Company has an Investment Gain Participation Arrangement whose objective is to reward and incentivise those employees and contract personnel who assist the Group in acquiring, managing or realising an investment. Under this arrangement, an amount of up to 20% per cent of the net realised gain made by the Group on an investment may be made available and allocated amongst the members of the investment management team from time to time. The net gain is calculated after a first return to the Group the amount of which will reflect the amount and type of capital invested and the expected return at the time of investment. Non-refundable advances may be paid where an investment is judged to have secured an increase in value giving rise to an unrealised gain and/or is operating profitably. No such advances have been made to date. Participations granted under this arrangement will normally vest over a period of up to 3 years. No participation rights were granted during the year or in the previous year.

No amounts were earned in the years to 31 December 2019 or 31 December 2018 under this arrangement.

20 RELATED PARTY TRANSACTIONS

The Company provides back office services on a commercial basis to its wholly-owned subsidiary, Envinta Corp.. TERSUS ENERGY LIMITED

NOTICE OF 2020 ANNUAL GENERAL MEETING OF TERSUS ENERGY LIMITED

Notice is hereby given that the 2020 Annual General Meeting ("AGM") of Tersus Energy Limited (the "Company") will be held at 44 Kensington Park Gardens, London W11 2QT at 3.00 pm on Tuesday 29 September 2020 to consider and, if thought fit, to pass the following resolutions ("Resolutions") of which Resolutions 1 to 3 will be proposed as ordinary resolutions and Resolution 4 will be proposed as a special resolution:

In the light of the UK Government's social distancing guidelines associated with the COVID-19 pandemic restricting public gatherings, physical attendance at the Company's AGM will not be permitted. The AGM will be held with a quorum of members only present at the physical location. Shareholders are encouraged to appoint the Chairman as their proxy with their voting instructions.

ORDINARY RESOLUTIONS

1. **TO** receive and adopt the accounts of the Company for the year ended 31 December 2019 and the report of the directors thereon.
2. **TO** re-elect Steven P Levine who retires from office in accordance with article 92.1 of the Company's articles of association and who, being eligible, offers himself for re-election, as a Director.
3. **THAT** subject to and conditional upon the passing and coming into effect of resolution 5 below and in substitution for any existing authorities, the directors be and are hereby generally and unconditionally authorised in accordance with section 551 of the Companies Act 2006 (the "Act"), to allot shares in the Company or grant rights to subscribe for or to convert any security into shares in the Company ("Rights") up to an aggregate nominal amount of £3,000 provided that this authority shall, unless renewed, varied or revoked by the Company, expire 15 months after the date of passing this resolution or at the conclusion of the next annual general meeting of the Company whichever first occurs save that the Company may, before such expiry, make an offer or agreement which would or might require shares to be allotted or Rights to be granted and the directors may allot shares or grant Rights in pursuance of such offer or agreement notwithstanding that the authority conferred by this resolution has expired.

SPECIAL RESOLUTION

4. **THAT**, subject to the passing of resolution 3 and, in substitution for any existing authorities, the directors be and are generally empowered pursuant to section 570 of the Companies Act 2006 (the "Act") to allot equity securities (as defined in section 560 of the Act) pursuant to the authority conferred by resolution 4, as if section 561(1) of the Act did not apply to any such allotment, provided that this power shall:
 - (a) be limited to the allotment of equity securities up to an aggregate nominal amount of £550 (representing approximately 5 per cent. of the Company's issued share capital); and
 - (b) (unless previously renewed, varied or revoked by the Company) expire 15 months after the date of passing of this resolution or at the conclusion of the next annual general meeting of the Company whichever first occurs, save that the Company may, before such expiry, make an offer or agreement which would or might require equity securities to be allotted after such expiry and the directors may allot equity securities in pursuance of such offer or agreement as if the power conferred hereby had not expired.

Notes:

1. An explanation of the proposed resolutions can be found in the Directors' report on pages 6 and 7.

Right to Appoint a Proxy

2. Members entitled to attend and vote at the AGM are entitled to appoint some other person(s) of their choice as their proxy to exercise all or any of their rights to attend, speak and vote (on a show of hands and on a poll) on their behalf at the AGM. A proxy need not be a member of the Company, but must attend the meeting to represent you. In the light of the UK Government's social distancing guidelines associated with the COVID-19 pandemic restricting public gatherings, physical attendance at the Company's AGM will not be permitted. The Company encourages shareholders to appoint the Chairman as their proxy with their voting instructions.
3. A member may appoint more than one proxy, provided that each proxy is appointed to exercise the rights attached to different shares. A member may not appoint more than one proxy to exercise rights attached to the same shares.
4. A proxy form, which may be used to make such appointment and give proxy instructions, accompanies this notice. If you do not receive a proxy form and believe that you should have one, please contact the Company on + (44) (0)7957 209700 between 9.00 am and 5.30 pm, Monday to Friday. The cost of calls to this mobile number will depend on your telephone provider.

Procedure for Appointing a Proxy

5. If you wish to appoint multiple proxies, please contact the Company using the contact details in note 4 to request additional proxy forms. Alternatively, the proxy form may be photocopied before completion.
6. To be effective, any proxy form must be completed, signed and received by the Company at Tersus Energy Limited, 44 Kensington Park Gardens, London W11 2QT by post or (during normal business hours only) by hand no later than 3.00 pm on 27 September 2020. It should be accompanied by any power of attorney or other authority under which it is signed (or a copy of such power or authority notarially certified or certified in some other way approved by the Company's board of directors).
7. Proxy forms may not be submitted via the Company's website or via any e-mail address set out on the Company's website.
8. The return of a completed proxy form will not prevent a member from attending the AGM and voting in person.
9. In the case of joint holders, the signature of only one of the joint holders is required on the proxy form, but the names of all joint holders should be stated. The vote (whether in person or by proxy) of the first named on the register of members of the Company will be accepted to the exclusion of the other joint holders.
10. In the case of a corporation, the proxy form must be given under its common seal or signed on its behalf by a duly authorised officer or an attorney.

Corporate Representatives

11. A member which is a corporation is entitled to appoint one or more persons to act as the corporate representative or representatives at the meeting and to exercise the same powers on behalf of the corporation as the corporation could exercise if it were an individual member.

Communication

12. You may not use any electronic address provided either in this notice or any related documents (including the Chairman's letter and proxy form) to communicate with the Company for any purposes other than those expressly stated.
