## Notes to the Abbreviated Accounts

For the year ending 30 April 2011

1 **Accounting policies**

**Accounting convention**

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

**Turnover**

Turnover represents net invoiced sales of goods, excluding value added tax.

**Stocks**

Stocks are valued at the lower of cost and net realisable value, after making due allowance for obsolete and slow moving items.

**Deferred tax**

Deferred tax has been calculated, but the amount involved is not significant enough to materially affect the financial statements, and therefore no provision has been made.

**Hire purchase and leasing commitments**

Assets obtained under hire purchase contracts or finance leases are capitalised in the balance sheet. Those held under hire purchase contracts are depreciated over their estimated useful lives. Those held under finance leases are depreciated over their estimated useful lives or the lease term, whichever is shorter. The interest element of these obligations is charged to the profit and loss account over the relevant period. The capital element of the future payments is treated as a liability.

**Trade Debtors**

Trade debtors are stated net of advances received from factors. The factored debts are non-recourse subject to debtors adhering to credit limits prescribed by the factors. Therefore, a linked presentation has been adopted.

**Depreciation**

Depreciation has been provided at the following rates in order to write off the assets over their estimated useful lives.

Fixtures and fittings	25% on cost
Motor vehicles	25% on reducing balance
