### Strategic Report for the Year Ended 31 March 2019

The directors present their Strategic Report for the year ended 31 March 2019.

#### **Business review and principal activities**

Hempel Holdings Limited ("the company") is a wholly owned subsidiary of The British Land Company PLC and operates as a constituent of The British Land Company PLC group of companies ("the group").

The company's principal activity is investment holding in the United Kingdom (UK).

As shown in the company's Profit and Loss Account on page 5, the company's turnover has remained consistent with the prior year. Profit on ordinary activities before taxation is £nil compared to a profit on ordinary activities before taxation of £nil in the prior year.

Dividends of £nil (2018: £nil) were paid in the year.

The Balance Sheet on page 7 shows that the company's financial position at the year end has remained consistent compared with the prior year.

The company is a subsidiary of The British Land Company PLC. The company's strategy is the same as the group's strategy - to deliver an above average annualised total return to shareholders, which is achieved by creating attractive environments in the right places focused around the people who work, shop and live in them.

The Board of the group uses total return, to monitor the performance of the group. This is a measure of growth in total equity per share, adding back any current year dividend.

The expected future developments of the company are determined by the strategy of the group.

For more information also see The British Land Company PLC group annual report.

The performance of the group, which includes the company, is discussed in the group's annual report which does not form part of this report.

#### Principal risks and uncertainties

This company is part of a large property investment group. As such, the fundamental underlying risks for this company are those of the property group as discussed below.

The group generates returns to shareholders through long-term investment decisions requiring the evaluation of opportunities arising in the following areas:

- demand for space from occupiers against available supply;
- identification and execution of investment and development strategies which are value enhancing;
- availability of financing or refinancing at an acceptable cost;
- economic cycles, including their impact on tenant covenant quality, interest rates, inflation and property values;
- legislative changes, including planning consents and taxation;
- engagement of development contractors with strong covenants;
- key staff changes; and
- environmental and health and safety policies.

These opportunities also represent risks, the most significant being change to the value of the property portfolio. This risk has high visibility to directors and is considered and managed on a continuous basis. Directors use their knowledge and experience to knowingly accept a measured degree of market risk.

The group's preference for prime assets and their secure long term contracted rental income, primarily with upward only rent review clauses, presents lower risks than many other property portfolios.

The financial and political risks for the company are managed in accordance with the group financial risk management policy, as disclosed in the consolidated group financial statements. The general risk environment in which the group operates has heightened over the course of the year, which is largely due to the continued level of uncertainty associated with the future impact of the UK's exit from the EU, the significant deterioration in the UK retail market and weaker investment markets.

The company has no third party debt and no associated third party interest rate exposure.

Approved by the Board on 18/09/19 and signed on its behalf by:

#### 2 Accounting policies

##### Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

##### Basis of preparation

These financial statements were prepared in accordance with Financial Reporting Standard 101 Reduced Disclosure Framework ("FRS 101").

In preparing these financial statements, the company applies the recognition, measurement and disclosure requirements of International Financial Reporting Standards as adopted by the EU ("Adopted IFRSs"), but makes amendments where necessary in order to comply with Companies Act 2006 and has set out below where advantage of the FRS 101 disclosure exemptions has been taken.

The financial statements have been prepared under the historical cost convention. Historical cost is generally based on the fair value of the consideration given in exchange for the assets.

## Hempel Holdings Limited

### Notes to the Unaudited Financial Statements for the Year Ended 31 March 2019 (continued)

#### 2 Accounting policies (continued)

Disclosure exemptions for subsidiaries are permitted where the relevant disclosure requirements are met in the consolidated financial statements. Where required, equivalent disclosures are given in the group financial statements of The British Land Company PLC. The group financial statements of The British Land Company PLC are available to the public and can be obtained as set out in note 14.

#### Adoption status of relevant new financial reporting standards and interpretations

During the period the company adopted the following standards:

##### *IFRS 9 – Financial Instruments*

The new standard addresses the classification, measurement and recognition of financial assets and financial liabilities. It simplifies the existing categories of financial instruments, redefines the criteria required for hedge effectiveness and introduces an expected credit loss model requiring expected credit loss to be recognised on all financial assets held at amortised cost. Adoption of IFRS 9 has not had a material impact on the financial statements of the company. The standard was applied using the modified retrospective approach.

##### *IFRS 15 – Revenue from contracts with customers*

The new standard sets out a five-step model for the recognition of revenue and establishes principles for reporting useful information to users of financial statements about the nature, timing and uncertainty of revenues and cash flows arising from an entity's contracts with customers. The new standard does not apply to rental income which is in the scope of IAS 17, but does apply to service charge income, management and performance fees and trading property disposals. Adoption of IFRS 15 has not had a material impact on the financial statements of the company. The standard was applied using the full retrospective approach.

Apart from the changes in the standards highlighted above, no other standards, interpretations and amendments effective for the first time from 1 April 2018 have had a material effect on the financial statements.

#### Going concern

The directors consider that the company has adequate resources to continue trading for the foreseeable future, with no external borrowings and the ability to meet all liabilities as they fall due.

As a consequence of this the directors feel that the company is well placed to manage its business risks successfully in the current economic climate. Accordingly, they believe the going concern basis is an appropriate one.

#### Taxation

Current tax is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted. Taxable profit differs from net profit as reported in the Profit and Loss Account because it excludes items of income or expense that are not taxable (or tax deductible).

Deferred tax is provided on items that may become taxable at a later date, on the difference between the balance sheet value and tax base value, on an undiscounted basis.

#### Investments

Fixed asset investments are stated at the lower of cost and the underlying net asset value of investments.

#### Debtors

Trade and other debtors are initially recognised at fair value and subsequently measured at amortised cost and discounted as appropriate. The Company calculates the expected credit loss for debtors based on lifetime expected credit losses under the IFRS 9 simplified approach.

#### Creditors

Trade and other creditors are initially recognised at fair value and subsequently measured at amortised cost and discounted as appropriate.
