1 Accounting policies

Basis of preparation

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (Effective April 2008).

Turnover

Turnover represents amounts chargeable, net of value added tax, in respect of the sale of goods and services to customers.

Investment properties

Properties held for investment purposes are not depreciated as required by the Companies Act 2006. In accordance with the Financial Reporting Standards for Small Entities (effective April 2008) investment property is revalued to its open market value at each balance sheet date, with any surplus or deficit on revaluation being transferred to a revaluation reserve in the first instance. This treatment constitutes an override of the Companies Act requirement to depreciate its fixed assets and is necessary in order to give a true and fair view.

Deferred tax

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes, which have arisen but not reversed by the balance sheet date, except as required by the FRSSE. Deferred tax is measured at the rates that are expected to apply in the periods when the timing differences are expected to reverse, based on the tax rates and law enacted at the balance sheet date.
