Notes to the financial statements

Accounting policies

- 1 The following accounting policies have been consistently applied in dealing with items which are considered material in relation to the financial statements, except for the adoption of new financial reporting standards introduced during the year. The effect of these are disclosed where relevant.

Basis of preparation

The accounts have been prepared in accordance with applicable UK accounting standards and under the historical cost accounting rules.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking, Volvox Group (Leeds) Limited, includes the Company in its own published consolidated financial statements.

At 30 September the Company had net current assets of £2,921,000 (2013: £2,920,000). Future projections prepared by management indicate that the company will be able to meet its obligations as they fall due for at least 12 months from the date of these financial statements. On this basis, the directors consider it appropriate to prepare the accounts on a going concern basis.

Group accounts

The Company is a wholly owned subsidiary of Volvox Group (Leeds) Limited and has taken advantage of the exemption from preparing group accounts available under section 408 of the Companies Act 2006. Consequently the information presented in these financial statements refers to the Company as an individual undertaking.

Dividends Payable

In accordance with FRS 21 - Events after the balance sheet date dividends payable on ordinary share capital are recognised in the financial statements as follows:

- interim dividends - when declared by the directors of the Company
- final dividends - when approved by shareholder resolution

Capital instrument finance costs

The finance cost recognised in the profit and loss account in respect of capital instruments other than equity shares is allocated to periods over the term of the instrument at a constant rate on the carrying amount.

Deferred taxation

In accordance with FRS 19 "Deferred Tax", deferred tax is provided in full on timing differences which result in an obligation at the balance sheet date to pay more tax, or a right to pay less tax, at a future date, at rates expected to apply when they crystallise based on current tax rates and law. Timing differences arise from the inclusion of income and expenditure in taxation computations in years different from those in which they are included in the financial statements. Deferred tax is not provided on timing differences arising from the revaluation of fixed assets where there is no commitment to sell the asset. Deferred tax assets are recognised to the extent that it is regarded as more likely than not that they will be recovered. Deferred tax assets and liabilities are not discounted.

Goodwill and Brands

In accordance with FRS 10 "Goodwill and Intangible Assets", goodwill, being the excess of the fair value of the purchase consideration over the fair value of the net assets at the time of the purchase of the business, is capitalised and amortised over a maximum estimated useful life of 20 years on a straight line basis. The directors consider annually whether a provision against the value of goodwill on an individual investment basis is required.

Acquired brands which are controlled through custody or legal rights and could be sold separately from the rest of the business are capitalised and written off over 10 years on a straight line basis.

Post-retirement benefits

The Company and the Group operate defined contribution pension schemes. The assets of the schemes are held separately from those of the Company and Group in independently administered funds. The amount charged to the profit and loss account represents the contributions payable to the schemes in respect of the accounting period.
