Notes

1 Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

The financial statements have been prepared in accordance with applicable accounting standards, and under the historical cost accounting rules.

The company is exempt by virtue of s228 of the Companies Act 1985 from the requirement to prepare group financial statements. These financial statements present information about the company as an individual undertaking and not about its group.

Under Financial Reporting Standard ('FRS') 1 the company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the company in its own published consolidated financial statements.

As the company is a wholly owned subsidiary of Partnerships In Care Group Limited (as disclosed in note 11), the Company has taken advantage of the exemption contained in FRS 8 'Related party disclosures' and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties).

Fixed assets and depreciation

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets by equal instalments over their estimated useful economic lives as follows:

Freehold buildings	over 50 years
Leasehold land and buildings	over primary term of lease
Building structural alterations and refurbishment	over 10 years
Fixtures and fittings	over 7 years
Building major decorative refurbishment	over 5 years

No depreciation is provided on freehold land.

Cost includes directly attributable finance costs.

Rental income

Rental income is recognized excluding VAT. Rental income under operating leases is charged to the profit and loss account on a straight line basis over the period of the lease. The difference between the amount recognised in the profit and loss account and the actual rental received in the year is recorded in debtors.

Taxation

The charge for taxation is based on the profit for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.
