FORM CREATIONS LIMITED
Balance sheet at 31 March 2014 (continued)

The accounts are prepared in accordance with the special provisions of Part 15 of the Companies Act 2006 relating to small companies.

For the financial year ended 31 March 2014 the company was entitled to exemption from audit under section 477 Companies Act 2006 and no notice has been deposited under section 476. The directors acknowledge their responsibilities for ensuring that the company keeps accounting records which comply with section 386 and for preparing accounts which give a true and fair view of the state of affairs of the company as at the end of the financial year and of its profit or loss for the financial year in accordance with the requirements of sections 394 and 395 and which otherwise comply with the requirements of the Companies Act 2006 relating to accounts, so far as applicable to the company.

The accounts were approved by the board of directors on 11 September 2014 and signed on its behalf by:

A handwritten signature in black ink, appearing to read 'S R Hall', is written over the printed name.

S R Hall
Director

The notes on pages 3 and 4 to form part of these accounts

1. Accounting policies

Accounting basis and standards

The financial statements have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008). The principal accounting policies are set out below:

Turnover

Turnover represents the invoiced value of goods and services supplied by the company net of value added tax and trade discounts.

Depreciation

Depreciation on fixed assets is provided at rates estimated to write off the cost, less estimated residual value, of each asset over its expected useful life. It is calculated by the reducing balance method at 25% per annum.

Stock

Stocks are valued at the lower of cost and net realisable value. Cost is calculated as follows:

Raw materials – cost of purchase on a first in, first out basis.

Work in progress – cost of raw materials and labour together with attributable overheads.

Net realisable value is based on estimated selling price less further costs to completion and disposal.

Leased assets

Where assets are financed by agreements that give rights approximating to ownership ("finance leases"), the assets are treated as if they had been purchased outright. The amount capitalised is the present value of the minimum lease payments payable over the term of the lease. The corresponding leasing commitments are shown as amounts payable to the lessor. Depreciation on the relevant assets is charged to the profit and loss account.

Lease payments are split between capital and interest components so that the interest element of the payment is charged to the profit and loss account over the period of the lease and represents a constant proportion of the balance of capital repayments outstanding. The capital part reduces the amounts payable to the lessor. All other leases are treated as operating leases. Their annual rentals are charged to the profit and loss account on a straight line basis over the term of the lease.

Deferred taxation

Provision is made for timing differences between the treatment of certain items for taxation and accounting purposes.
