These financial statements have been prepared under the accounting policies set out therein.

This report is made solely to the company's members, as a body, in accordance with Section 235 of the Companies Act 1985. ## Notes

*(forming part of the financial statements)*

### 1 Accounting policies

The following accounting policies remain unchanged from the previous year and have been applied consistently in dealing with items which are considered material in relation to the financial statements

#### ***Basis of preparation***

The financial statements have been prepared in accordance with applicable accounting standards, under the historical cost convention and on the going concern basis which the directors believe to be appropriate for the following reasons. The Company is dependent for its working capital on funds provided to it by ContentFilm plc, the Company's ultimate holding undertaking. ContentFilm plc has indicated that for at least 12 months from the date of approval of these financial statements, it will continue to make available such funds as are needed by the company and in particular will not seek repayment of the amounts currently made available. This should enable the Company to continue in operational existence for the foreseeable future by meeting its liabilities as they fall due for payment. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

#### ***Sales expenses***

Direct costs contractually rechargeable to the licensor are included in the balance sheet and are recovered from the licensor's income collected by the Company as sales agent on behalf of the licensor, these being film and television distribution and broadcast rights. Provision is made against those direct costs when their recoverability is considered doubtful.

#### ***Income recognition***

Income from the exploitation of film and television rights is recognised on a receivable basis, except where payment is dependent on the film or television project being completed or delivered, or other contractual obligations in which case income is recognised on completion or delivery or fulfilment of any relevant obligations.

#### ***Currency translation***

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

#### ***Taxation***

The charge for taxation is based on the results for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date except as otherwise required by FRS 19.
