The directors present their strategic report and the financial statements for the year ended 31 December 2022.

Principal activities and review of the business

The principal activity of the company was that of an international parent undertaking.

The key performance indicators during the year were as follows:

	2022	2021	Changes
	£	£	
Profit/(loss) on ordinary activities before taxation	7,931,998	437,126	1,715%
Profit/(loss) for the financial year after taxation	7,198,266	353,562	1,936%
Investments	33,949,262	30,832,642	10.1%
Equity shareholders' funds	72,409,200	65,025,324	11.4%

The principle factors influencing the results of the current year are the impairment of investments in subsidiaries and the movement in foreign currency assets and liabilities held by the company (see below).

At the end of 2022, the Directors' concluded that with the improvement in business activity, the previously recognized impairment may have reversed and as such assessed the impaired investments in subsidiaries. This resulted in a reversal of impairment of £3,116,621 (2021 impairment: £38,078). This related to impairments in multiple subsidiary undertakings which operate in the oil and natural gas sectors. During 2020, the widely publicized and discussed coronavirus (COVID-19) outbreak rapidly spread across the world, driving sharp demand destruction for oil and natural gas as whole economies shut down. The virus continued to spread during 2020, extending depressed demand, uncertainty and spending reductions by the entire oil and gas industry. In 2022 we have seen improvement in the global economy and the activity of the subsidiary undertakings and have recorded a reversal in impairment of 3,116,621.

As part of the company's role in financing the operations of the international group, the company holds a number of loans, most of which are denominated in foreign currencies.

The Board of Directors' Statement on s172(1)

Under section 172 of the UK Companies Act 2006 ('Section 172') directors must act in the way that they consider, in good faith, would be most likely to promote the success of their company. In doing so, our directors must have regard to stakeholders and the other matters set out in Section 172. The information presented below comprises the Section 172 statement, which describes how the directors have had regard to these matters when performing their duties.

We have identified the stakeholder groups below as key to the success of the company. In light of our objectives and strategies, our directors take steps to understand the needs and priorities of each stakeholder group and do so through a variety of mediums and channels.

The Board of directors ('the Board') meets at times as required. In addition to these board meetings, the wider group senior management team, meets periodically. These receive feedback from various business areas, with particular feedback on specific stakeholder groups, which is then relayed to the Board. The outcome of stakeholder engagement influences the formulation and ongoing review of the long-term strategy and financial planning to ensure that our approach continues to deliver sustainable returns and promotes reputational reward.

As part of the Board decision-making process, the Board considers the potential impact of decisions on relevant stakeholders whilst also having regard to a number of broader factors, including the impact of the company's responsible business practices and the likely consequences of decisions in the long term.

The summary below details the interests of each of the relevant stakeholder groups and the approaches taken to engage them.

The Board of Directors' Statement on s172(1) (continued)

Investors - Our ultimate parent, MRC Global, Inc.

As the owner of the Company, our ultimate parent's priorities are critical to us and their support allows us to implement our strategy and to achieve our long-term plans.

Key topics of engagement	How we engaged in 2022	Considerations and outcomes
 Key areas are: Compliance with all regulations; Compliance with internal US Group policies; Operating in ethical manner; Performance against the strategic and financial plan; and Effective leadership to ensure the Company's long-term sustainability and ultimately deliver a return on investment. 	We have open, frequent dialogue with our parent company senior leadership team through one-to-one meetings, function meetings and board meetings. A matrix reporting structure is in place with our parent company. Key parent company senior leadership members are directors of the UK Group holding companies.	During 2022 there has been a further rationalisation of some of the subsidiary entities with the ongoing work towards dissolution of certain non-trading entities.

Subsidiaries

Oversight and governance of subsidiaries is important to ensuring implementation of our Group strategy and achievement of our Group long-term plans.

Key topics of engagement	How we engaged in 2022	Considerations and outcomes
 Key areas are: Monitoring of performance; Intercompany balances; Dividends; and Consideration of investment values 	Directors are consistent across the company and subsidiaries ensuring the directors can make the appropriate decisions for the benefit of the UK Group as a whole. Formal items are discussed at Board of director meetings where required.	During 2022 there has been a further rationalisation of some of the subsidiary entities with the ongoing work towards dissolution of certain non-trading entities. Reversal in impairment of subsidiary undertakings identified and recognized.

The Board of Directors' Statement on s172(1) (continued)

Employees

Our company's long-term success is dependent on the commitment of our work force to our core values and its demonstration of our values on a daily basis.

Key topics of engagement	How we engaged in 2022	Considerations and outcomes
Key areas are: Health & Safety; Employee Development; Monitoring of performance.	We provide the training & resources necessary to promote safe work practices in all areas of our business. Ongoing employee development supported, maintained & completed for each employee.	Training has been vigorously maintained during 2022, by the provision of online training courses, which are tailored to individual employee needs. The EDS system & employee performance for 2022 was completed in February 2023. This has been replaced in 2023 with a new performance check in process to support employees throughout the year.

Principal risks and uncertainties

The company's principal activities as the parent undertaking of an international group are holding investments, financing operations and growth and the provision of management services to the international group. Consequently, the risks to the company include the following.

The performance of subsidiary undertakings is important to ensure the continued value of the investments held. The Directors of the company are closely involved in the monitoring and influencing of performance of the subsidiary undertakings to support their continued value to the company.

Exposure to foreign exchange through the financing activities of the business is and will continue to be a key risk to the business in the international group. The UKs departure from the EU will result in a period of volatility and further exposure to exchange markets.

In February 2022, Russia invaded Ukraine which has had several consequences to the broader economy, global attitudes toward energy security and the pace of the energy transition. We have no operations or sales in Ukraine, Belarus or Russia nor do we have any significant suppliers from those countries. Longer term, we expect traditional energy investments in the North Sea and elsewhere in Europe will be required to replace reliance on Russian gas. MRC Global and its subsidiaries are well positioned to benefit from this growth.

In 2023 we are in the midst of significant inflationary pressure. Selling, general and administrative expenses of the company's subsidiaries and parent have increased in 2023 to provide competitive wages and benefits to employees and to support anticipated growth. MRC Global is working closely with customers to ensure margins are not eroded. The Directors believe inflationary increases will not impact the parent support being provided to the company.

On behalf of the Board

Cornelis Putter Director

21 September 2023

Registered No. 5436123

Directors' report

The directors present their report and the financial statements for the year ended 31 December 2022.

Results and dividends

The profit for the year amounts to £7,198,266 (2021 profit – £353,562). The Directors do not recommend a final dividend (2021 – £nil).

Going concern

The company participates in the group's multi-currency global asset-based revolving credit facility (the "Global ABL Facility") and shares these facilities with its parent and fellow subsidiaries. The centralised treasury arrangements entitle the company to access funds as set out in note 15 to the financial statements. A letter of support has been obtained from the ultimate parent reinforcing the rights to funding from the group treasury arrangements. In assessing the ability of the ultimate parent to support the company if needed the directors have received and reviewed a copy of the group managements going concern assessments which are produced as each set of quarterly results are released to the US market in accordance with ASC 205-40-50. The directors note that the US parent has considerable net current assets and very high levels of liquidity due to a combination of cash reserves and access to undrawn but committed facilities. As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook. After performing a going concern assessment for the period to 31 December 2024, the directors have a reasonable expectation that the company and the group have adequate resources to continue in operational existence for the period to 31 December 2024. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

Directors

The directors who served the company during the year were as follows:

C J Hellmund

C C Putter

S B Smith

Disclosure of information to the auditors

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors, each director has taken all the steps that he is obliged to take as a director in order to make himself aware of any relevant audit information and to establish that the auditor is aware of that information.

Registered No. 5436123

Directors' report (continued)

Auditors

A resolution to reappoint Ernst & Young LLP as auditors will be put to the members at the Annual General Meeting.

On behalf of the Board

Cornelis Putter Director

21 September 2023

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

to the members of MRC Transmark Holdings UK Limited (continued)

Opinion

We have audited the financial statements of MRC Transmark Holdings UK Limited for the year ended 31 December 2022 which comprise the Profit and Loss Account, the Statement of comprehensive income, the Statement of changes in equity, the Balance Sheet and the related notes 1 to 16, including a summary of significant accounting policies. The financial reporting framework that has been applied in their preparation is applicable law and United Kingdom Accounting Standards including FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the company's affairs as at 31 December 2022 and of its profit for the year then ended;
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period to 31 December 2024.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the company's ability to continue as a going concern.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information contained within the annual report.

to the members of MRC Transmark Holdings UK Limited (continued)

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the course of the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether this gives rise to a material misstatement in the financial statements themselves. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinions on other matters prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

to the members of MRC Transmark Holdings UK Limited (continued)

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the entity and management.

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the
 company and determined that the most significant are those that relate to the reporting framework
 (FRS 102 and the Companies Act 2006) and compliance with the relevant direct and indirect tax
 regulations in the United Kingdom. In addition, the company must comply with laws and regulations
 relating to its operations, including health and safety, anti-bribery and corruption regulations,
 environmental and General Data Protection Regulation ("GDPR").
- We understood how MRC Transmark Holdings UK is complying with those frameworks by making
 inquiries of management to understand how the company maintains and communicates its policies
 and procedures in these areas. We corroborated our understanding through review of Board Minutes,
 and we understood controls put in place by management to reduce the opportunities for fraudulent
 transactions as well as the culture of honest and ethical behaviour.
- We assessed the susceptibility of the company's financial statements to material misstatement, including how fraud might occur by EY team wide discussions, communication with management to understand where they considered there was susceptibility to fraud and what entity level controls are in place and knowledge of the business from previous audit. We reviewed all the material manual statutory adjustments required and considered the nature of these transactions. For those that we did not consider to be in normal course of business and are not of a trivial value, we obtained evidence to support the validity of such adjustments including third party documentation where available. Finally, we have assessed management's calculation of each entities' value in use which is part of the investment impairment review. We have then tested the assessments involved in either the recoverable amount of assets or discounted cashflows models, through corroborating evidence and challenging assumptions used.
- Based on this understanding we designed our audit procedures to identify noncompliance with such laws and regulations. Our procedures involved review of manual journals and detailed testing over the investment impairment, the results of our procedures did not identify any instances of noncompliance.

to the members of MRC Transmark Holdings UK Limited (continued)

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Use of our report

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

at 31 December 2022

1. Statement of compliance

MRC Transmark Holdings UK Limited is a limited liability company incorporated in England. The registered office is Heaton House, Riverside Drive, West Yorkshire, BD19 4DH.

The company's financial statements have been prepared in compliance with FRS 102 as it applies to the financial statements of the company for the year ended 31 December 2022.

2. Accounting policies

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the company's financial statements.

Basis of preparation

These financial statements have been prepared in accordance with applicable United Kingdom accounting standards, including Financial Reporting Standard 102 – 'The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland' ('FRS 102'), and with the Companies Act 2006.

The directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future. Thus they continue to adopt the going concern basis of accounting in preparing the annual financial statements.

The financial statements are prepared in sterling, which is the functional currency of the company.

The individual accounts for MRC Transmark Holdings UK Limited have adopted the reduced disclosure framework for FRS102 with the following exemptions:

- the requirement to present a statement of cash flows and related notes
- financial instrument disclosures, including:
 - categories of financial instruments
 - items of income, expenses, gains and losses relating to financial instruments, and
 - exposure to and management of financial risks
- the requirements relating to certain disclosures in respect of share based payments
- the requirements relating to certain disclosures in respect of related party transactions

Going concern

The company participates in the group's multi-currency global asset-based revolving credit facility (the "Global ABL Facility") and shares these facilities with its parent and fellow subsidiaries. The centralised treasury arrangements entitle the company to access funds as set out in note 15 to the financial statements. A letter of support has been obtained from the ultimate parent reinforcing the rights to funding from the group treasury arrangements. In assessing the ability of the ultimate parent to support the company if needed the directors have received and reviewed a copy of the group managements going concern assessments which are produced as each set of quarterly results are released to the US market in accordance with ASC 205-40-50. The directors note that the US parent has considerable net current assets and very high levels of liquidity due to a combination of cash reserves and access to undrawn but committed facilities. As a consequence, the directors believe that the company is well placed to manage its business risks successfully despite the current uncertain economic outlook. After performing a going concern assessment for the period to 31 December 2024, the directors have a reasonable expectation that the company and the group have adequate resources to continue in operational existence for the period to 31 December 2024. Accordingly, they continue to adopt the going concern basis in preparing the annual report and financial statements.

at 31 December 2022

2. Accounting policies (continued)

Group financial statements

The company is exempt by virtue of s401 of the Companies Act 2006 from the requirement to prepare group financial statements. These financial statements present information about the company as an individual undertaking and not about its group.

Related parties

The company operates as an international parent undertaking, providing and managing services to other group undertakings. Transactions with group undertakings are undertaken on an arm's length basis.

Tangible fixed assets

Depreciation is provided to write off the cost less the estimated residual value of tangible fixed assets over their estimated useful economic life, as follows:

Plant and machinery – 10 years straight-line
Computer hardware – 3 years straight-line
Computer software – 3-7 years straight-line

Investments

Investments in and amounts due from subsidiary undertakings are stated at cost less amounts written off.

Deferred taxation

Deferred taxation is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more, tax, with the following exceptions:

- Provision is made for deferred taxation that would arise on remittance of the retained earnings of
 subsidiaries, associates and joint ventures only to the extent that, at the balance sheet date, dividends
 have been accrued as receivable.
- Deferred tax assets are recognised only to the extent that the directors consider that it is more likely
 than not that there will be suitable taxable profits from which the future reversal of the underlying
 timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

Leases

Costs in respect of operating leases are charged to the income statement on a straight line basis over the term of the lease. Lease incentives are recognised over the lease term on a straight line basis

Foreign currencies

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

Interest-bearing loans and borrowings

All interest-bearing loans and borrowings which are basic financial instruments are initially recognised at the present value of cash payable to the bank (including interest). After initial recognition they are measured at amortised cost using the effective interest rate method, less impairment. The effective interest rate amortisation is included in finance revenue in the income statement.

at 31 December 2022

2. Accounting policies (continued)

Derivative financial instruments

The company uses forward foreign currency contracts to reduce exposure to foreign exchange rates.

Derivative financial instruments are initially measured at fair value on the date on which a derivative contract is entered into and are subsequently measured at fair value through the income statement. Derivatives are carried as assets when the fair value is positive and as liabilities when the fair value is negative.

Post-retirement benefits

The company is a participating employer in the MRC Global (UK) Limited defined contribution pension scheme. The assets of this scheme are held separately from those of the company in an independently administered fund. The amount charged against profits represents the contributions payable to the scheme in respect of the accounting period.

Share-based payments

Equity-settled transactions are settled with shares issued by the ultimate parent undertaking. These are deemed to be a capital contribution to the company, which is credited to equity, with a corresponding charge to the profit and loss account, the amount of which is determined in accordance with the accounting principles set out below.

The cost of equity-settled transactions with employees is measured by reference to the fair value at the date at which they are granted and is recognised as an expense over the vesting period, which ends on the date on which the relevant employees become fully entitled to the award. Fair value is determined using the Black Scholes pricing model. In valuing equity-settled transactions, no account is taken of any vesting conditions, other than conditions linked to the price of the shares of the company (market conditions).

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is conditional upon a market condition, which are treated as vesting irrespective of whether or not the market condition is satisfied, provided that all other performance conditions are satisfied.

At each reporting date the cumulative expense recognised for equity-settled transactions reflects the extent to which the vesting period has expired and the number of shares that, in the directors' opinion, will ultimately vest. The movement in cumulative expense since the previous reporting date is recognised in the profit and loss account, with a corresponding entry in equity.

Where the terms of an equity-settled award are modified or a new award is designated as replacing a cancelled or settled award, the cost based on the original award terms continues to be recognised over the original vesting period. In addition, an expense is recognised over the remainder of the new vesting period for the incremental fair value of any modification based on the difference between the fair value of the original award and the fair value of the modified award, both as measured on the date of the modification. No reduction is recognised if this difference is negative.

Where an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any cost not yet recognised in the profit and loss account for the award is expensed immediately. Any compensation paid up to the fair value of the award at the cancellation or settlement date is deducted from equity, with any excess over fair value expensed in the profit and loss account.

at 31 December 2022

2. Accounting policies (continued)

Judgements and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year.

However, the nature of estimation means that actual outcomes could differ from those estimates. The following judgements (apart from those involving estimates) have had the most significant effect on amounts recognised in the financial statements.

i) Taxation

The company establishes provisions based on reasonable estimates, for possible consequences of audits by the tax authorities of the country in which it operates. The amount of such provisions is based on various factors, such as experience with previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Management estimation is required to determine the amount of deferred tax assets that can be recognised, based upon likely timing and level of future taxable profits together with an assessment of the effect of future tax planning strategies. Further details are contained in note 8.

ii) Provision for impairment in subsidiary undertakings

The company recognises an impairment provision where there has been an impairment in the fair value of the subsidiary undertaking. The calculation of fair value requires management to make judgements and estimates in respect of future revenue flows & profitability of subsidiaries. Further details are contained in note 10.

A reversal of impairment has been realised in the year of £3,116,621 (2021 impairment: £38,087). Changes in key assumptions used to calculate the recoverable amount would result in a change to the impairment recorded. A decrease in the discount rate of 1% would result in a further reversal of the impairment of £1,280,735 whereas an increase in the discount rate of 1% would result in a decrease in the reversal of the impairment of £1,024,695.

8. Tax (continued)

(d) Factors that may affect future tax charges

The company has other short term timing differences of £2,493,429 (2021 - £2,834,709) available to offset against income and gains in future periods, on which a deferred tax asset of £610,890 (2021 - £666,156) has been recognised.

The standard rate of corporation tax in the United Kingdom for the year is 19% (2021 – 19%). An increase in the UK corporation tax rate to 25% was substantively enacted in May 2021 and is due to take effect from 1 April 2023. Accordingly, deferred tax balances have been valued at the rate of 25% in these accounts to the extent that timing differences are expected to reverse after this date.

The Directors perform an annual review of investments held each year. The recoverable amount is estimated based on fair value less the costs to sell or a value in use calculation. Value in use is based on a discounted cash flow model.

The Directors' review at the year-end 2022 resulted in a reversal of impairment of £3,116,621. This relates to impairments in the below subsidiary undertakings:

MRC Global Australia Pty Ltd

MRC Global Korea Limited

MRC Global Italy SRL

MRC Global Middle East Trading LLC

The impairment of the investment in MRC Global Australia Pty Limited recognized in 2020 was due to the impact of the reduction in sales in the territory this company operates in brought by the coronavirus (COVID-19) outbreak. In 2022 the company revenues have increased and returned to prepandemic levels with future growth expected in the company. Based on the discounted cashflows forecast for this company, a reversal of £2,748,294 has been recorded in the period.

The company is in the process of closing the company in Korea and the final closing balance sheet has now been agreed therefore the investments have been impaired to the value of the recoverable assets of this business. In 2022 this resulted in a reversal of the previously recognized impairment of £331,017.

MRC Global Italy continues to provide services to the group and has grown the net assets of the business by £21,115 and therefore a reversal of this amount has been recognized.

14. Share-based payments

MRC Global Inc. has made share-based awards to employees of the company under the 2007 Stock Option Plan and the 2011 Omnibus Incentive Plan (the "Plans"), which are settled with shares in MRC Global Inc.

There are no performance conditions attached to the awards and the vesting generally occurs over a three year period on the anniversaries of the date specified in the employees' respective agreements, subject to accelerated vesting under certain conditions set out in those agreements. All options granted under the Plans have a maximum life of 10 years.

15. Contingent liabilities

In March 2012, MRC Global Inc. entered into a multi-currency global asset-based revolving credit facility (the "Global ABL Facility") that was subsequently amended and restated in July 2014, September 2017 and September 2021. The five-year Global ABL Facility, which will mature on September 03, 2026, is comprised of \$750 million of total revolving credit facilities, including a \$7.5 million facility in the United Kingdom. The facility contains an accordion feature that allows us to increase the total principal amount of the facilities by up to \$250 million.

The company guarantees the obligations of our other non-U.S. borrower subsidiaries under the Global ABL Facility. The obligations of any of our non-U.S. borrower subsidiaries are primarily secured, subject to certain exceptions, by a first-priority security interest in the accounts receivable, inventory and related assets of the non-U.S. subsidiary and our wholly owned material U.S. subsidiaries. No non-U.S. subsidiary guarantees the U.S. tranche and no property of our non-U.S. subsidiaries secures the U.S. tranche.

The company has a separate standalone borrowing base that limits its ability to borrow under its respective tranche, provided that it may utilize excess availability under the U.S. tranche to borrow amounts in excess of their respective borrowing bases but not to exceed our applicable commitment amount or \$7.5 million.

Subject to the foregoing, the company's ability to borrow under the Global ABL Facility is limited by a borrowing base equal to 85% of eligible receivables, plus the lesser of 70% of eligible inventory and 85% of appraised net orderly liquidation value of the inventory.

The company's borrowings bear interest at a benchmark rate, which varies based on the currency in which such borrowings are made, plus a margin varying between 1.25% and 1.75% based on our fixed charge coverage ratio.

At the balance sheet date, the company had a contingent obligation of US\$Nil (2021 – US\$Nil) in respect of borrowings by non-U.S. subsidiary undertakings under the Global ABL facility.

at 31 December 2022

16. Ultimate parent undertaking and controlling party

The directors regard MRC Global Inc., a company incorporated in the United States of America, as the company's ultimate parent undertaking and controlling party.

The smallest and largest group of undertakings for which group financial statements are prepared and which include the results of the company is that of MRC Global Inc. Copies of the group financial statements can be obtained from MRC Global Inc., 1301 McKinney St, Suite 2300, Houston, Texas, TX77010 USA.

The immediate parent undertaking is MRC Transmark Group BV, which is incorporated in The Netherlands.
