# STRATEGIC REPORT FOR THE YEAR ENDED 31 DECEMBER 2018

The directors present the strategic report for the year ended 31 December 2018.

#### Fair Review of the Business

On 27 April 2006 the Company issued 1.703% Index Linked Guaranteed Secured Bonds due 2046 at a nominal value of £745,400,000, drew down sums from the European Investment Bank under two £125,000,000 loan facilities and issued 10.5% mezzanine notes at a value of £20,000,000. These sums were immediately on-lent of the same terms to the Company's fellow subsidiary, Capital Hospitals Limited, pursuant to a proceeds on-loan agreement.

The principal activity of Capital Hospitals Limited is to design, build, finance, maintain and deliver certain non-clinical services to the Barts and Royal London Hospitals in accordance with a forty two year contract (the "Project Agreement") with the Barts and The London NHS Trust. Contract negotiations were successfully completed on 27 April 2006 and construction commenced immediately. Barts and The London NHS Trust merged with Newham University Hospital NHS Trust and Whipps Cross University Hospital NHS Trust on 1 April 2013 to become the Barts Health NHS Trust (the "Trust"). On 29 March 2016 the project reached "Actual Global Completion" when the final construction phase was handed over. From this point 100% of the unitary charge was invoiced to the Trust.

The directors do not foresee any change in the activities of the Company.

### **Principal Risks and Uncertainties**

The Company has exposures to a variety of financial risks which are managed with the purpose of minimising any potential adverse effect on the Company's performance. The directors have policies for managing each of these risks and they are summarised below:

### Sole client

During the operational phase the principal source of funds available to the Company's fellow subsidiary, Capital Hospitals Limited, to meet its liabilities under the on-loan agreements will be the unitary charge received from the Trust under the Project Agreement. The Trust is the sole client of Capital Hospitals Limited, but the directors consider that no risk arises from a single client base since the Secretary of State for Health has undertaken to support the Trust's obligations.

#### Brexit

The Company is exposed to Brexit risk as a result of the inherent uncertainty around the UK's exit from the European Union. Whilst the Company itself is not considered to be significantly exposed, subcontractors which it engages with are considered to have exposure in relation to labour and the cost of supplies. Performance risk under the Project Agreement and related contracts are passed on to the service providers and to the building contractor. The obligations of these subcontractors are underwritten either by performance guarantees issued by banks or by parent company guarantees. Due to the evolving nature of the risk, the Board continue to actively monitor developments.

### **Analysis of Development and Performance**

Financial covenants have been met during the year and having considered the anticipated future performance and position of the Company, the directors are of the opinion that the covenants will continue to be met in the future.

During the year, the Company has received all scheduled receipts in respect of its on-loan to Capital Hospitals Limited and has repaid £28,870,000 in respect of the Index Linked Secured Guaranteed Bonds (the "Bonds") and £11,580,000 of the bank debt. In the previous financial year, the Company repaid £28,327,000 in respect of the Index Linked Secured Guaranteed Bonds (the "Bonds") and £10,949,000 of the bank debt.

The company made a loss of £14,000, as a result of interest charges (£14,000) being incurred during the year. These charges were incurred as a result of amendments to prior year tax computations due to rules surrounding close companies.

# STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2018

### **Key Performance Indicators**

Financial penalties are levied on Capital Hospitals Limited by the Trust in the event of forecast availability of the facilities not being achieved according to detailed criteria set out in the Project Agreement. The deductions are passed on to the service providers but the quantum is an indication of unsatisfactory performance. During the financial year deductions of £297,000 (2017: £308,000) were levied by the Trust and passed onto the service providers. This deduction amounts to only 1.0% (2017: 1.0%) of the total fees charged by the service providers. The directors consider this low level of deduction to be satisfactory.

The directors have modelled the anticipated financial outcome of the project across the term of the contract up to the end of the concession. The directors monitor actual performance against this anticipated performance. As discussed above the company's performance as at 31 December 2018 against this measure was considered satisfactory.

By order of the board

HCP Social Infrastructure (UK) Limited

Secretary 27 June 2019

#### **DIRECTORS' REPORT**

### FOR THE YEAR ENDED 31 DECEMBER 2018

The directors present their annual report and financial statements for the year ended 31 December 2018.

#### Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mrs M Gagnon (Resigned 28 June 2018)
Mrs A Hardwicke (Resigned 16 March 2018)

Mr T Pearson

Ms H Wilson (Resigned 28 June 2018)
Mr A Waddington (Resigned 24 September 2018)
Mr N Crowther (Resigned 1 January 2019)

Mrs G Birley-Smith

Ms J Acred (Appointed 1 January 2018)
Ms J Fegan (Appointed 16 March 2018)
Mr P Bannister (Appointed 29 June 2018)
Mr L J Falero (Appointed 24 September 2018)
Mr N Norehn (Appointed 7 February 2019)
Ms S Sidhu (Appointed 1 January 2019)

Ms J Acred is a non-executive director.

### Results and dividends

The results for the year are set out on page 11.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend. (2017: nil).

### Financial risk management objectives and policies

The Company has outsourced the financial reporting function to HCP Social Infrastructure (UK) Limited (HCP). Authorities remain vested in the board members of the Company. HCP reports regularly to the board of the Company. The Board receives regular reports from HCP which specifically summarise and address the financial, contractual and commercial risks that the Company is exposed and are pertinent to the industry in which the Company operates.

The Board also receives monthly management accounts with explanations of variances from annual budgets and forecasts, which are in turn compared to the Financial Model, which represents the long term business plan of the Company and outlines its ability to comply with its debt obligations and covenants. Material deviations from the business plan are investigated and reported on. Supporting this process, HCP evaluates its performance under the framework of an Internal Audit and Assessment programme which sits within its own Corporate Governance framework. This process ensures that the project remains robust and viable throughout the life of the contract.

The Company's principal financial instruments comprise: Index Lined Guaranteed Secured Bonds, subordinated unsecured loan stock and bank loans. The main purpose of these financial instruments is to ensure, via the terms of the financial instruments, that the profile of the debt service costs is tailored to match the expected revenues. The Company does not undertake financial instrument transactions that are speculative or unrelated to the Company's trading activities. The directors only approve the use of financial instruments that do not contravene the covenant restrictions in its existing funding agreements.

The Company's financial instruments result in the Company's exposure to liquidity, credit rate and interest rate risks. Further information on the financial instruments employed by the Company can be seen in the notes to these financial statements.

# DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2018

#### Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company aims to mitigate liquidity risk by closely monitoring the timing of cash flows within the Company.

### Interest rate risk

The Company is exposed to interest rate risk on interest rate bearing assets with floating interest rates. The directors do not consider this exposure to be significant.

The mezzanine debt and subordinated loan notes both have fixed interest rates until the end of the concession. The Secured Bonds and bank debt are subject to UK Retail Price Index adjustment calculated on a half year basis. This is offset by having on-lent the loans on the same terms effectively hedging this risk. There is therefore no overall interest rate risk associated with these financial liabilities.

### Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for that other party by failing to discharge an obligation. Capital Hospitals Limited is the sole client of the Company. Capital Hospitals Limited has a forty two year contract with the Barts and The London NHS Trust. The directors consider that no significant risk arises from such a small client base since there are no indications that the Trust will not be able to fulfil their obligations. In addition the Secretary of State for Health has underwritten the Trust's obligations. The carrying value of Capital Hospital's financial asset of £1,449,959,000 (2017:£1,446,487,000) is the maximum credit exposure.

### Auditor

KPMG LLP were appointed as auditor to the company and in accordance with section 485 of the Companies Act 2006. KPMG LLP has indicated its willingness to continue in office and a resolution to reappoint it as auditor will be proposed at the next general meeting.

### Going concern

The company's business activities, together with the factors likely to affect its future development, its financial position, financial risk management objectives, details of its financial instruments and derivative activities, and its exposures to price, credit, liquidity and cash flow risk are described in the strategic report.

#### Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the Company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the Company's auditor is aware of that information.

### The directors confirm that:

- (a) the financial statements, prepared in accordance with UK Generally Accepted Accounting Practice, give a true and fair view of the assets, liabilities, financial position and profit or loss of the company; and
- (b) the Strategic report includes a fair review of the development and performance of the business and the position of the Company, together with a description of the principal risks and uncertainties that they face.

# DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2018

#### **Audit committee**

The board does not believe an audit committee is required for the following reasons:

The board itself fulfils the responsibilities and requirements of an audit committee, through reviewing the financial controls and considering the appropriateness of the internal control and risk management systems. See Financial risk management objectives and policies section. It also controls the appointment of the auditor, considers their independence and sets auditor remuneration.

#### Significant shareholdings and special rights

The immediate Parent company, Capital Hospitals (Holdings) Limited, is owned by Skanska TAM Ltd (22.5%), Skanska TAM (Nordic) Ltd (15%), Innisfree Nominees Ltd acting in its capacity as nominee for Innisfree PFI Secondary Fund 2 LP (25.5%), Innisfree Nominees Ltd acting in its capacity as nominee for Innisfree PFI Secondary Fund LP (12%) and Healthcare (Barts) Ltd (25%). Healthcare (Barts) Ltd is owned by Innisfree Nominees Ltd (50%) acting in its capacity as nominee for Innisfree PFI Secondary Fund LP and DIF Infrastructure II UK (50%). The Skanska and Innisfree groups of companies have interests in contracts placed by the parent company for the financing, construction and management of the Barts & The Royal London Hospitals project.

None of the company's ordinary shares carry any special rights with regard to the control of the company. There are no known arrangements under which financial rights are held by a person other than the beneficial owner of the shares and no known agreements on restrictions on share transfers (other than pre-emption rights between existing shareholders) or on voting rights.

### Directors Appointment and Replacement, Allotments of Shares and Control Provisions

The rules about the appointment and replacement of directors are contained in the company's Articles of Association. Changes to the Articles of Association must be approved by the shareholders in accordance with the legislation in force at the time. The powers of the directors and authority to issue and allot ordinary shares are determined by UK legislation and the Memorandum and Articles of Association of the company in force from time to time. Subject to UK legislation the directors are empowered by the Articles to authorise the company to purchase its own shares.

The company does not have agreements with any director that would provide compensation for loss of office or employment following a takeover.

The directors confirm that:

(a) the financial statements, prepared in accordance with UK Generally Accepted Accounting Practice, give a true and fair view of the assets, liabilities, financial position and profit or loss of the company; and

(b) the strategic report includes a fair review of the development and performance of the business and the position of the company, together with a description of the principle risks and uncertainties that they face.

By order of the board

Mr P Bannister **Director** 

27 June 2019

# DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 DECEMBER 2018

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK accounting standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under Company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and estimates that are reasonable and prudent;
- state whether applicable UK accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

# INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF CAPITAL HOSPITALS (ISSUER) PLC

### 1 Our opinion is unmodified

We have audited the financial statements of Capital Hospitals (Issuer) Plc ("the Company") for the year ended 31 December 2018 which comprise the Statement of Total Comprehensive Income, Balance sheet, Statement of Changes in Equity and the related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the Company's affairs as at 31 December 2018 and of its loss for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- · have been prepared in accordance with the requirements of the Companies Act 2006.

### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion. Our audit opinion is consistent with our report to the audit committee.

We were first appointed as auditor by the directors during the year ended 31 December 2005. The period of total uninterrupted engagement is for the 14 financial years ended 31 December 2018. We have fulfilled our ethical responsibilities under, and we remain independent of the Company in accordance with, UK ethical requirements including the FRC Ethical Standard as applied to listed public interest entities. No non-audit services prohibited by that standard were provided.

### 2 Key audit matters: our assessment of risks of material misstatement

Key audit matters are those matters that, in our professional judgment, were of most significance in the audit of the financial statements and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by us, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. We summarise below the key audit matter (unchanged from 2017), in arriving at our audit opinion above, together with our key audit procedures to address that matter and, as required for public interest entities, our results from those procedures. The matter was addressed, and our results are based on procedures undertaken, in the context of, and solely for the purpose of, our audit of the financial statements as a whole, and in forming our opinion thereon, and consequently are incidental to that opinion, and we do not provide a separate opinion on this matter.

### Recoverability of intra-group receivables balances

(£1,450 million; 2017: £1,466 million)

Refer to page 14 (accounting policy) and page 19 (financial disclosures).

### The risk

The carrying amount of the Company's intra-group receivables balances, held at amortised cost less impairment represents 100% (2017: 100%) of the Company's total assets.

# INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF CAPITAL HOSPITALS (ISSUER) PLC

We do not consider the recoverable amount of these receivables to be at a high risk of significant misstatement, or to be subject to a significant level of judgement. However, due to their materiality in the context of the Company financial statements as a whole, this is considered to be the area which had the greatest effect on our overall audit strategy and allocation of resources in planning and completing our company audit.

### Our response

Our procedures included:

- Tests of detail: Comparing the carrying amount of the intra-group receivable with the respective
  net asset values of the counterparty (the intra-group related party), excluding the intra-group liability
  to Capital Hospitals Limited, to identify whether the remaining net asset values of the counterparty,
  are sufficient to repay the intra-group receivables.
- Forecast review: Reviewing the counterparty (the intra-group related party) forecasts, to identify
  whether it is appropriate to consider it likely that sufficient cash will be generated to allow the
  repayment of the debt, when it falls due. As part of assessing the forecast cash inflows we have
  inspected the agreement with Barts Health NHS Trust guaranteeing the unitary charge income until
  2048, subject to meeting performance requirements, and assessed that forecast cash flows are in
  line with our own expectations based on our knowledge of the entity and experience of the industry
  in which it operates.

#### Our results

We found the assessment of the recoverability of the inter-group receivable to be acceptable (2017: acceptable).

### 3 Our application of materiality and an overview of the scope of our audit

Materiality for the statutory financial statements as a whole was set at £7.5 million (2017: £7.3 million), determined with reference to a benchmark of total assets of £1,450 million (2017: £1,446 million), of which it represents 0.52% (2017: 0.50%).

We agreed to report to the Board of Directors any corrected or uncorrected identified misstatements, exceeding £375,000 (2017: £365,000), in addition to other identified misstatements that warranted reporting on qualitative grounds.

Our audit of the Company was undertaken to the materiality level specified above.

### 4 We have nothing to report on going concern

The Directors have prepared the financial statements on the going concern basis as they do not intend to liquidate the Company or to cease its operations, and as they have concluded that the Company's financial position means that this is realistic. They have also concluded that there are no material uncertainties that could have cast significant doubt over its ability to continue as a going concern for at least a year from the date of approval of the financial statements ("the going concern period").

Our responsibility is to conclude on the appropriateness of the Directors' conclusions and, had there been a material uncertainty related to going concern, to make reference to that in this audit report. However, as we cannot predict all future events or conditions and as subsequent events may result in outcomes that are inconsistent with judgements that were reasonable at the time they were made, the absence of reference to a material uncertainty in this auditor's report is not a guarantee that the Company will continue in operation.

# INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF CAPITAL HOSPITALS (ISSUER) PLC

In our evaluation of the Directors' conclusions, we considered the inherent risks to the Company's business model, including the impact of Brexit, and analysed how those risks might affect the Company's financial resources or ability to continue operations over the going concern period. We evaluated those risks and concluded that they were not significant enough to require us to perform additional audit procedures.

Based on this work, we are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements.

We have nothing to report in these respects, and we did not identify going concern as a key audit matter.

### 5 We have nothing to report on the strategic report and the directors' report

The directors are responsible for the Strategic report and the Directors' report. Our opinion on the financial statements does not cover those reports and we do not express an audit opinion thereon.

Our responsibility is to read the strategic report and the directors' report and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- · we have not identified material misstatements in the Strategic report and the Directors' report;
- in our opinion the information given in those reports for the financial year is consistent with the financial statements; and
- · in our opinion those reports have been prepared in accordance with the Companies Act 2006.

### 6 We have nothing to report on the other matters on which we are required to report by exception

Under the Companies Act 2006, we are required to report to you if, in our opinion:

- adequate accounting records have not been kept by the Company, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

We have nothing to report in these respects.

### 7 Respective responsibilities

### Directors' responsibilities

As explained more fully in their statement set out on page 6, the Directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

### Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or other irregularities (see below), or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud, other irregularities or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

# INDEPENDENT AUDITOR'S REPORT (CONTINUED) TO THE MEMBERS OF CAPITAL HOSPITALS (ISSUER) PLC

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

Irregularities - ability to detect

We identified areas of laws and regulations that could reasonably be expected to have a material effect on the financial statements from our general commercial and sector experience, through discussion with the directors and other management (as required by auditing standards), and from inspection of the company's regulatory and legal correspondence and discussed with the directors and other management the policies and procedures regarding compliance with laws and regulations. We communicated identified laws and regulations throughout our team and remained alert to any indications of non-compliance throughout the audit.

The potential effect of these laws and regulations on the financial statements varies considerably. The company is subject to laws and regulations that directly affect the financial statements including financial reporting legislation (including related company legislation), distributable profits legislation and taxation legislation and we assessed the extent of compliance with these laws and regulations as part of our procedures on the related financial statement items.

Whilst the company is subject to many other laws and regulations, we did not identify any others where the consequences of non-compliance alone could have a material effect on amounts or disclosures in the financial statements.

Owing to the inherent limitations of an audit, there is an unavoidable risk that we may not have detected some material misstatements in the financial statements, even though we have properly planned and performed our audit in accordance with auditing standards. For example, the further removed non-compliance with laws and regulations (irregularities) is from the events and transactions reflected in the financial statements, the less likely the inherently limited procedures required by auditing standards would identify it. In addition, as with any audit, there remained a higher risk of non-detection of irregularities, as these may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal controls. We are not responsible for preventing non-compliance and cannot be expected to detect non-compliance with all laws and regulations.

### 8 The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

# NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2018

### 1 Accounting policies

### Company information

Capital Hospitals (Issuer) PLC is a public limited company domiciled and incorporated in England and Wales. The registered office is 8 White Oak Square, London Road, Swanley, Kent, BR8 7AG.

### 1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the Company. Monetary amounts in these financial statements are rounded to the nearest £'000.

The financial statements have been prepared under the historical cost convention. The principal accounting policies adopted are set out below.

The Company's parent undertaking, Capital Hospitals (Holdings) Limited, includes the Company in its consolidated financial statements. The consolidated financial statements of Capital Hospitals (Holdings) Limited are prepared in accordance with FRS 102 and are available to the public and may be obtained from Companies House, Crown Way, Cardiff, CF14 3UZ.

In these financial statements, the Company is considered a qualifying entity (for the purpose of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- Reconciliation of number of shares outstanding from the beginning to the end of the period;
- · Cash flow statement and related notes

As the Company is a wholly owned subsidiary of Capital Hospitals (Holdings) Limited, the company has taken advantage of the exemption in section 33 of FRS 102 to not disclose transactions entered into between itself and the other members of the group.

### 1.2 Going concern

Notwithstanding net current liabilities of £525,000 (excluding debtors greater than one year) as at 31 December 2018 and a loss for the year then ended of £525,000 the financial statements have been prepared on a going concern basis which the directors consider to be appropriate for the following reasons.

The Company is reliant on its fellow group Company Capital Hospitals Limited to allow it to meet its liabilities as they fall due.

The directors have reviewed the cash flow forecast covering the remainder of Capital Hospitals Limited's concession contract and taking into account reasonable possible risks in operations of Capital Hospitals Limited and the fact the obligations of Capital Hospitals Limited's sole customer is underwritten by the Secretary of State for Health believe that, the company will have sufficient funds, through funding from its fellow subsidiary company, Capital Hospitals Limited, to meet its liabilities as they fall due for that period.

Those forecasts are dependent on Capital Hospitals Limited providing additional financial support during that period. Capital Hospital Limited has indicated its intention to continue to make available such funds as are needed by the company for the period covered by the forecasts. As with any company placing reliance on other group entities for financial support, the directors acknowledge that there can be no certainty that this support will continue although, at the date of approval of these financial statements, they have no reason to believe that it will not do so.

Consequently, the directors are confident that the company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

### 1 Accounting policies

(Continued)

#### 1.3 Financial instruments

The Company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the Company's statement of financial position when the Company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

#### Basic financial assets

Basic financial assets, which include interest bearing loans and receivables, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest

Interest-bearing loans classified as basic financial instruments

Interest-bearing loans are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Trade debtors, loans and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'loans and receivables'. Loans and receivables are measured at amortised cost using the effective interest method, less any impairment.

Interest is recognised by applying the effective interest rate, except for short-term receivables when the recognition of interest would be immaterial. The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating the interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument to the net carrying amount on initial recognition.

### Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. If an asset is impaired, the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is a decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been, had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

### Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire or are settled, or when the Company transfers the financial asset and substantially all the risks and rewards of ownership to another entity, or if some significant risks and rewards of ownership are retained but control of the asset has transferred to another party that is able to sell the asset in its entirety to an unrelated third party.

### 1 Accounting policies

(Continued)

### Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

#### Basic financial liabilities

Basic financial liabilities, including bank loans, Bonds and unsecured subordinated and mezzanine loans, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the Company after deducting all of its liabilities.

### Derecognition of financial liabilities

Financial liabilities are derecognised when the Company's contractual obligations expire or are discharged or cancelled.

### 1.4 Equity instruments

Equity instruments issued by the Company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the Company.

### 1.5 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

#### Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

### 1.6 Interest Receivable and Pavable

Interest payable and similar charges include interest payable on borrowings and associated ongoing financing fees.

Other interest receivable and similar income include interest receivable on funds invested and interest recognised on the finance debtor based upon the finance debtor accounting policy above.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2018

### 2 Judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, the Directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are deemed to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period which the estimate is revised where the revision only affects that period, or in the period of the revision and future periods where the revision affects both current and future periods.

#### Key sources of estimation uncertainty

The preparation of financial statements in conformity with FRS102 requires management to make judgements, estimates and assumptions that affect the application of application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based upon historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

Management are not aware of any sources of estimation uncertainty which affect these financial statements.

#### 3 Auditor's remuneration

Fees payable to the Company's auditor and associates:	2018 £'000	2017 £'000
For audit services Audit of the financial statements of the Company	37	30

### 4 Operating profit

The company had no employees during the year (2017: nil).

Directors remuneration is paid by Capital Hospitals Limited

The audit fee of £5,000 (2017: £3,000) has been borne on the Company's behalf by a related company. for which no recharge has been made during the current or previous year

### 8 Financial instruments

The Company's principal financial instruments comprise the intra-group loan with Capital Hospitals Limited, index-linked Bonds, index-linked bank loans, mezzanine notes and subordinated loan notes. The main purpose of these financial instruments is to secure funding for the PFI project entered into between Capital Hospitals Limited and the Trust and to ensure, via the terms of the financial instruments that the profile of the debt service costs is tailored to match the profile of the intra-group loan, which is in turn serviced by expected revenues arising from the project. The main risks arising from the Company's financial instruments are interest rate risk, liquidity risk and credit risk. The board reviews and agrees policies for managing each of these risks and they are summarised below.

### Interest rate risk/inflation risk

Under/(over) provided in prior years

Taxation charge for the year

The Company's exposure to adverse movements in interest costs and inflation on its borrowings is matched by an equal but opposite exposure on amounts owing from Capital Hospitals Limited with the same maturity.

### Credit risk

The Company's principle financial assets are other receivables. The Company's credit risk is attributable to the loan due from Capital Hospitals Limited. Capital Hospitals Limited's main income stream is from the Barts and The London NHS Trut, therefore Capital Hospital Issuer (Plc) considers the probability of not recovering this loan to be minimal.

# NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2018

(Continued)

### 8 Financial instruments

### Liquidity risk

The company's policy has throughout the year been that, to ensure continuity of funding, all of its borrowings should be matched by amounts owing from Capital Hospitals Limited, with the same maturity

### Capital risk management

The Company manages its capital to ensure it is able to continue as a going concern and to maintain an optimal capital structure to reduce the cost of capital. The capital structure of the Company comprises of equity attributable to equity holders consisting of ordinary share capital, reserves and retained earnings.

### 9 Debtors

Amounts falling due within one year:	2018 £'000	2017 £'000
Amounts due from fellow group undertakings	57,499 ————	59,916 ———
Amounts falling due after more than one year:	2018 £'000	2017 £'000
Amounts due from fellow group undertakings	1,392,460	1,386,571 ————
Total debtors	1,449,959	1,446,487

Amounts due from fellow group undertakings disclosed above are measured at amortised cost.

Debtors consist of the proceeds of the debt drawn and on-lent to Capital Hospitals Limited on exactly the same terms as in note 8 and 9.
