STRATEGIC REPORT

FOR THE YEAR ENDED 31 DECEMBER 2015

The directors present the strategic report and financial statements for the year ended 31 December 2015.

Business Review

The principal activity of the company is to design, build, finance and operate a Hospital in accordance with a thirty seven years and five months contract (the "Project Agreement") with Sherwood Forest Hospitals NHS Foundation Trust (the "Trust"). Contract negotiations were successfully completed in November 2005 and construction commenced immediately. The project has been fully operational since 2011.

The directors do not foresee any change in the activities of the company.

Development and performance

The company made a profit of £1,353,000 (2014: profit of £111,000) for the year on a turnover of £34,375,000 (2014: £36,206,000). At the 31 December 2015 the company had net assets of £278,000 (2014: net liabilities of £1,075,000).

Financial covenants have been met during the year and having considered the anticipated future performance and position of the company, the directors are of the opinion that the covenants will continue to be met in the future.

The financial asset amortisation during the year was £5,474,000 (2014: £5,226,000). This is being amortised over the life of the concession and the carrying value at the reporting date is £329,448,000 (2014: £334,922,000).

The directors believe the financial asset to be recoverable over the term of the Project Agreement.

During the year, the company has repaid £12,598,000 of the Index Linked Secured Guaranteed Bonds (the "Bonds"). Scheduled loan repayment dates are 31 March and 30 September each year. In the previous financial year, the company repaid a total of £12,232,000.

During the year the company has not repaid any of the subordinated unsecured loan stock as scheduled repayments do not commence until 2042.

Key performance indicators

Financial penalties are levied by the Trust in the event of performance not being achieved according to detailed criteria set out in the Project Agreement. The deductions are passed on to the service providers but the quantum is an indication of unsatisfactory performance. During the financial year deductions of £113,000 (2014: £67,000) were levied by the Trust and passed onto the service providers to the fullest extent possible. This deduction amounts to only 0.60% (2014: 0.39%) of the total fees charged by the service providers. The directors consider this low level of deduction to be satisfactory.

The directors have modelled the anticipated financial outcome of the project across the term of the contract up to the end of the concession. The directors monitor actual performance against this anticipated performance. As discussed above the company's performance as at 31 December 2015 against this measure was considered satisfactory.

The company is providing a full range of facilities management services as required under the Project Agreement at a satisfactory level.

STRATEGIC REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

Principal risks and uncertainties

The company has exposures to a variety of financial risks which are managed with the purpose of minimising any potential adverse effect on the company's performance. The directors have policies for managing each of these risks and they are summarised below:

Major maintenance

The principal risk borne by the company is that maintenance costs exceed those forecast in the financial model agreed at financial close. This risk is mitigated by regular management review of actual expenditure against budget and technical evaluations of the physical condition of the facilities.

Availability

Investment in the project is funded primarily by the bonds and subordinated unsecured loan stock. During the operational phase the principal source of funds available to meet its liabilities under the bonds will be unitary charge received from the Trust under the Project Agreement. Failure to achieve the forecast levels of availability would result in lower than forecast revenues and this may adversely affect the company's ability to make payments to Bondholders. Deductions of £113,000 (2014: £67,000) were incurred in the year and recovered from the service providers to the fullest extent possible.

Service performance

Performance risk under the Project Agreement and related contracts are substantially passed on to the service providers. The obligations of these subcontractors are underwritten by parent company guarantees. Ultimately, poor performance may result in the Trust having the right to terminate the Project Agreement. As noted in the discussion of the company's KPIs, the levels of deductions levied in the year were low and are not considered to pose a risk to the project.

On behalf of the board

Mr R Sheehan **Director**

24 May 2016

DIRECTORS' REPORT

FOR THE YEAR ENDED 31 DECEMBER 2015

The directors present their annual report and financial statements for the year ended 31 December 2015.

Directors

The directors who held office during the year and up to the date of signature of the financial statements were as follows:

Mrs G Birley-Smith Mr R Sheehan

Results and dividends

The results for the year are set out on page 8.

No ordinary dividends were paid. The directors do not recommend payment of a final dividend.

Supplier payment policy

The company's current policy concerning the payment of trade creditors is to:

- settle the terms of payment with suppliers when agreeing the terms of each transaction;
- ensure that suppliers are made aware of the terms of payment by inclusion of the relevant terms in contracts; and
- · pay in accordance with the company's contractual and other legal obligations.

Trade creditors of the company at the year end were equivalent to 65 (2014: 68) day's purchases, based on the average daily amount invoiced by suppliers during the year.

Financial instruments

Treasury operations and financial instruments

The company's financial instruments result in the company's exposure to liquidity, credit rate and interest rate risks. Further information on the financial instruments employed by the company can be seen in the notes to these financial statements.

Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The company aims to mitigate liquidity risk by closely monitoring the timing of cash flows within the company.

Interest rate risk

The company is exposed to interest rate risk on bank balances with floating interest rates, however the directors do not consider this exposure to be significant.

The unsecured subordinated loan notes have a fixed interest rate, thus there is no interest rate risk associated with this financial liability.

The interest rate risk on the index linked guaranteed secured bonds are mitigated against the increase in interest revenue on the finance debtor.

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for that other party by failing to discharge an obligation. The Trust is the sole client of the company. The directors consider that no significant risk arises from such a small client base since there are no indications that the Trust will not be able to fulfil their obligations. In addition the Secretary of State for Health has underwritten the Trust's obligations. The carrying value of the financial asset and unitary charge control account of £367,370,000 (2014: £375,724,000) is the maximum credit exposure.

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

Financial reporting risk and internal control

The company has outsourced the financial reporting function to HCP Social Infrastructure (UK) Limited ("HCP"). Authorities remain vested in the board members of the company. HCP reports regularly to the board of the company. The board receives monthly reports from HCP which specifically summarise and address the financial, contractual and commercial risks that the company is exposed to, and are pertinent to the industry in which the company operates. The board also receives monthly management accounts with explanations of variances from annual budgets and forecasts, which are in turn compared to the Financial Model, which represents the long term business plan of the company and outlines its ability to comply with its debt obligations and covenants. Material deviations from the business plan are investigated and reported on. Supporting this process, HCP evaluates its performance under the framework of an Internal Audit and Assessment programme which sits within its own Corporate Governance framework. This process ensures that the project remains robust and viable throughout the life of the contract.

Auditor

KPMG LLP has indicated its willingness to continue in office and a resolution to reappoint it as auditor will be proposed at the next general meeting.

Statement of disclosure to auditor

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information of which the company's auditor is unaware. Additionally, the directors individually have taken all the necessary steps that they ought to have taken as directors in order to make themselves aware of all relevant audit information and to establish that the company's auditor is aware of that information.

Going concern

The company's business activities, together with the factors likely to affect its future development, its financial position, financial risk management objectives, details of its financial instruments and derivative activities, and its exposures to price, credit, liquidity and cash flow risk are described in the strategic report.

After making enquiries, the directors have a reasonable expectation that the company has adequate resources to continue in operational existence for the foreseeable future.

Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts.

DIRECTORS' REPORT (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

Significant shareholdings and special rights

The company is 100% owned by Central Nottinghamshire Hospitals (Holdings) Limited. Central Nottinghamshire Hospitals (Holdings) Limited is owned by Innisfree PFI Secondary Fund (66%) and Innisfree PFI Secondary Fund 2 LP (34%). Each of the shareholders holds its shareholdings as a long term investment.

None of the company's ordinary shares carry any special rights with regard to the control of the company. There are no known arrangements under which financial rights are held by a person other than the beneficial owner of the shares and no known agreements on restrictions on share transfers (other than pre-emption rights between existing shareholders) or on voting rights.

Directors Appointment and Replacement, Allotments of Shares and Control Provisions

The rules about the appointment and replacement of directors are contained in the company's Articles of Association. Changes to the Articles of Association must be approved by the shareholders in accordance with the legislation in force at the time. The powers of the directors and authority to issue and allot ordinary shares are determined by UK legislation and the Memorandum and Articles of Association of the company in force from time to time. Subject to UK legislation the directors are empowered by the Articles to authorise the company to purchase its own shares.

The company does not have agreements with any director that would provide compensation for loss of office or employment following a takeover.

On behalf of the board

Mr R Sheehan Director

24 May 2016

DIRECTORS' RESPONSIBILITIES STATEMENT FOR THE YEAR ENDED 31 DECEMBER 2015

The directors are responsible for preparing the Strategic Report, the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102, *The Financial Reporting Standard applicable in the UK and Republic of Ireland.*

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to:

- · select suitable accounting policies and then apply them consistently;
- · make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the company and to prevent and detect fraud and other irregularities.

INDEPENDENT AUDITOR'S REPORT

TO THE MEMBERS OF CENTRAL NOTTINGHAMSHIRE HOSPITALS PLC

We have audited the financial statements of Central Nottinghamshire Hospitals Plc for the year ended 31 December 2015 set out on pages 8 to 20. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice), including FRS 102, The Financial Reporting Standard applicable in the UK and the Republic of Ireland.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditors

As explained more fully in the Directors' Responsibilities Statement set out on page 6, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit, and express an opinion on, the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

A description of the scope of an audit of financial statements is provided on the Financial Reporting Council's website at www.frc.org.uk/auditscopeukprivate.

Opinion on financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 December 2015 and of its profit for the year then ended:
- · have been properly prepared in accordance with UK Generally Accepted Accounting Practice; and
- · have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matters prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- · the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

NOTES TO THE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2015

1 Accounting policies

Company information

Central Nottinghamshire Hospitals Plc is a limited company domiciled and incorporated in England and Wales. The registered office is 8 White Oak Square, London Road, Swanley, Kent, BR8 7AG.

1.1 Accounting convention

These financial statements have been prepared in accordance with FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" ("FRS 102") and the requirements of the Companies Act 2006.

The financial statements are prepared in sterling, which is the functional currency of the company. Monetary amounts in these financial statements are rounded to the nearest £000.

The financial statements have been prepared on the historical cost convention. The principal accounting policies adopted are set out below.

These financial statements for the year ended 31 December 2015 are the first financial statements of Central Nottinghamshire Hospitals Plc prepared in accordance with FRS 102, The Financial Reporting Standard applicable in the UK and Republic of Ireland. The date of transition to FRS 102 was 1 January 2014. The reported financial position and financial performance for the previous period are not affected by the transition to FRS 102.

FRS 102 grants certain first-time adoption exemptions from the full requirements of FRS 102. The following exemptions have been taken in these financial statements:

Service concession arrangements

The company entered into its service concession arrangement before the date of transition to this FRS. Therefore its service concession arrangements have continued to be accounted for using the same accounting policies being applied at the date of transition to this FRS.

The company's parent undertaking, Central Nottinghamshire Hospitals (Holdings) Limited, includes the company in its consolidated financial statements. The consolidated financial statements of Central Nottinghamshire Hospitals (Holdings) Limited are prepared in accordance with FRS 102 and are available to the public and maybe obtained from Companies House, Crown Way, Cardiff, CF14 3UZ.

In these financial statements, the company is considered a qualifying entity (for the purpose of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- · Reconciliation of number of shares outstanding from the beginning to the end of the period;
- Cash flow statement and related notes; and
- · Key management personnel compensation.

As the company is a wholly owned subsidiary of Central Nottinghamshire Hospitals (Holdings) Limited, the company has taken advantage of the exemption in section 33 of FRS 102 to not disclose transactions entered into between itself and the other members of the group.

1.2 Going concern

The directors have reviewed a cash flow forecast covering the remainder of the company's contract period and taking into account reasonable possible risks in operations and the fact the obligations of the company's sole customer are underwritten by the Secretary of State for Health, believe that the company will be able to settle its liabilities as they fall due for the foreseeable future and therefore it is appropriate to prepare these financial statements on the going concern basis.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

1 Accounting policies

(Continued)

1.3 Turnover

Turnover is recognised in accordance with the service concession contract accounting policy. Turnover represents value of work done entirely in the United Kingdom and excludes value added tax.

1.4 Financial instruments

The company has elected to apply the provisions of Section 11 'Basic Financial Instruments' and Section 12 'Other Financial Instruments Issues' of FRS 102 to all of its financial instruments.

Financial instruments are recognised in the company's Balance Sheet when the company becomes party to the contractual provisions of the instrument.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include trade and other debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest

Trade and other debtors

Trade and other debtors are recognised initially at transaction price less attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method, less any impairment losses. If the arrangement constitutes a financing transaction, for example if payment is deferred beyond normal business terms, then it is measured at the present value of future payments discounted at a market rate of instrument for a similar debt instrument.

Cash and cash equivalents

Cash and cash equivalents comprise cash balances and call deposits.

Restricted cash

The company is obligated to keep separate cash reserves in respect of requirements in the company's funding agreements. This restricted cash balance, which is shown on the balance sheet within the "cash at bank and in hand" balance, amounts to £23,388,000 at the year end (2014: £22,664,000).

Impairment of financial assets

Financial assets, other than those held at fair value through profit and loss, are assessed for indicators of impairment at each reporting end date.

Financial assets are impaired where there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows have been affected. The impairment loss is recognised in profit or loss.

Derecognition of financial assets

Financial assets are derecognised only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership to another entity.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

1 Accounting policies

(Continued)

Classification of financial liabilities

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities.

Basic financial liabilities

Basic financial liabilities, including trade and other creditors, bonds and subordinated loans, are initially recognised at transaction price unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest.

Trade and other creditors

Trade and other creditors are recognised initially at transaction price plus attributable transaction costs. Subsequent to initial recognition they are measured at amortised cost using the effective interest method.

Interest-bearing borrowings classified as basic financial instruments

Interest-bearing borrowings are recognised initially at the present value of future payments discounted at a market rate of interest. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost using the effective interest method, less any impairment losses.

Derecognition of financial liabilities

Financial liabilities are derecognised when, and only when, the company's obligations are discharged, cancelled, or they expire.

1.5 Equity instruments

Equity instruments issued by the company are recorded at the proceeds received, net of direct issue costs. Dividends payable on equity instruments are recognised as liabilities once they are no longer at the discretion of the company.

1.6 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax.

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date.

Deferred tax

Deferred tax liabilities are generally recognised for all timing differences and deferred tax assets are recognised to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. Such assets and liabilities are not recognised if the timing difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each reporting end date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered. Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset is realised. Deferred tax is charged or credited in the profit and loss account, except when it relates to items charged or credited directly to equity, in which case the deferred tax is also dealt with in equity. Deferred tax assets and liabilities are offset when the company has a legally enforceable right to offset current tax assets and liabilities and the deferred tax assets and liabilities relate to taxes levied by the same tax authority.

NOTES TO THE FINANCIAL STATEMENTS (CONTINUED) FOR THE YEAR ENDED 31 DECEMBER 2015

1 Accounting policies

(Continued)

1.7 Service concession accounting

The company is an operator of a Public Finance Initiative ("PFI") contract. The underlying asset was not deemed to be an asset of the company under old UK GAAP, because the risks and rewards of ownership as set out in that standard are deemed to lie principally with the Authority.

During the construction phase of the project, all attributable expenditure was included in amounts recoverable on contracts and turnover. Upon becoming operational, the costs were transferred to the finance debtor. During the operational phase income is allocated between interest receivable and the finance debtor using a project specific interest rate. The remainder of the PFI unitary charge income is included within turnover in accordance with FRS102 section 23. The company recognises income in respect of the services provided as it fulfils its contractual obligations in respect of those services and in line with the fair value of the consideration receivable in respect of those services.

Major maintenance costs are recognised on a contractual basis and the revenue in respect of these services is recognised when these services are performed.

1.8 Interest payable and receivable

Interest payable and similar charges include interest payable on borrowings and associated ongoing financing fees.

Other interest receivable and similar income include interest receivable on funds invested and interest recognised on the finance debtor based upon the finance debtor accounting policy above.

2 Judgements and key sources of estimation uncertainty

The preparation of financial statements in conformity with FRS102 requires management to make judgements, estimates and assumptions that affect the application of application of policies and reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based upon historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of revision and future periods if the revision affects both current and future periods.

Critical judgements

The estimates and assumptions which have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities are as follows.

Service concession accounting

Accounting for the service concession contract and finance debtors requires of estimation of service margins, finance debtors interest rates and associated amortisation profile which is based on forecasted results of the PFI contract.

	Decrease in deferred tax asset	306	-
1		***************************************	***************************************
	Total tax charge	349	31
			==

Corporation tax has been charged in the year on non traded income.

A deferred tax asset in respect of tax losses has been recognised as the directors consider the balance to be recoverable over the life of the PFI contract.

The charge for the year can be reconciled to the profit per the profit and loss account as follows:

	2015 £000	2014 £000
Profit before taxation	1,702	142
		=
Expected tax charge based on a corporation tax rate of 20.25% (2014 -		
21.50%)	344	31
Effect of change in corporation tax rate	7	-
Deferred tax adjustments in respect of prior years	(2)	· -
•		
Tax charge for the year	349	31
	= -	

The total tax charge as stated above has been recorded in the profit and loss account:

Factors that may affect the future tax charge

The company has tax losses of £1,448,000 (2014: £2,937,000) which have been carried forward and will be offset against future trading profits.

A reduction in the UK corporation tax rate from 21% to 20% (effective from 1 April 2015) was substantially enacted on 2 July 2013 and as such a blended rate of 20.25% has been used for the calculation of current tax for the year ended 31 December 2015.

A further reduction in the UK corporation tax rate from 20% to 19% (effective from 1 April 2017) was substantially enacted on 26 October 2015. The latest budget announcement on 16 March 2016 has proposed a further reduction to 17% effective from 1 April 2020. This will reduce the company's future tax accordingly.

Index Linked Guaranteed Secured Bonds 2042

The company has created £351,900,000 of 1.8768% Index Linked Guaranteed Secured Bonds 2042 pursuant to a Trust Deed and Collateral Deed dated 4 November 2005, of which £319,900,000 were issued for cash on 4 November 2005 at par.

The bonds bear interest at 1.8768% which together with their principal repayment is subject to indexation in accordance with the terms of the Bond Trust Deed. The interest is payable semi-annually in arrears on 31 March and 30 September each year.

The company retained £32,000,000 of bonds (the "variation bonds") which it may sell, subject to certain restrictions in the Collateral Deed, to fund variations to the project. The bonds, excluding the variation bonds, have the benefit of an unconditional and irrevocable financial guarantee issued by Assured Guaranty (UK) Limited in favour of Deutsche Trustee Company Limited as security trustee over all of the undertaking and assets of the company.

Unsecured 12,00% Subordinated loan notes 2043

Under the terms of a Deed Poll made on 4 November 2005 (amended and restated on 21 April 2006) both Central Nottinghamshire Hospitals (Holdings) Limited and the Company authorised and approved the issue by the company of up to £29,873,000 unsecured subordinated loan notes 2043 on like terms. Under the terms of a Shareholder Support Agreement dated 4 November 2005 (amended and restated on 21 April 2006) the shareholders of Central Nottinghamshire Hospitals (Holdings) Limited each agreed to subscribe in proportion to their shareholdings for a share of the £29,873,000 of the loan notes issued.

The company has issued £29,873,000 of loan notes at par for cash. The loan notes bear interest at 12.00% which is payable semi-annually on 31 March and 30 September each year. The loan notes are repayable in instalments on 31 March, 30 September 2042 and 31 March 2043 save that they may be redeemed early with the consent of Assured Guaranty (UK) Limited. An amount of £800,000 was redeemed in March 2012.
