## **PART 1 - GENERAL DESCRIPTION OF THE COMPANY'S ACTIVITIES AND IMPACT**

In the space provided below, please insert a general account of the company's activities in the financial year to which the report relates, including a description of how they have benefited the community.

Decipha CIC has been set up to benefit young people and adults with neurological conditions who have special and additional needs. We give advice and support to their carers and family members. Decipha CIC reinvests any profits above working costs and salaries to support programmes for young people in the community.

We aim to ensure that young people with complex education and medical special needs, their families and carers will be better supported in the future. We will provide training and coaching to enable every young person and adult with complex needs to have a person centred plan that fully meets the aspirations of the family.

Through individual specialist learning, behaviour and IT assessments we will offer interventions that will improve young people's literacy, maths and communication skills. We will provide resources, training and access to information that will support young people and their families through life changing transitions from childhood to adulthood.

Decipha CIC through its partnership with Duchenne UK and RoadMap for Life Programme provides a unique service to families and professionals supporting boys living with Duchenne Muscular Dystrophy. It provides expert assessment and evaluations based upon agreed international standards of psychosocial care and research. We take that knowledge and experience and share this with families and schools to ensure we can get the best possible outcomes for Education, Health, Care and Life.

Decipha CIC has supported 51 parents (48 families) with advice, assessment and support for starting or reviewing EHC Plans

Decipha CIC has advised and worked with:

- 10 school SENCOs
- 2 Headteachers
- 3 Class Teachers
- 4 TAs
- 2 Social Workers
- 1 Speech and Language Therapist
- 1 Physiotherapist
- 1 Psychologist
- 4 Local Authority officers

We have attended 5 EHC Plan reviews to offer support to families and advice to Schools and LA's on the complex nature of Duchenne Muscular Dystrophy.

Decipha CIC has worked with 4 families to support their SEND Tribunal Appeals. The Local Authorities (LA) in these cases would not agree to fully assess SEND for a young person with Duchenne and would not issue an EHC Plan. These are appeals to a court in front of a Judge. In all these cases the LA settled out of court following our submission of evidence and have agreed to draft EHC Plans. However, one case is still ongoing with a subsequent appeal as the LA would not agree draft an EHC Plan following re-assessment. We have

undertaken Level 3 SEND Law training with IPSEA in order to keep up to date with relevant case law and changes to legislation.

We spoke to Physiotherapists in the North Star network in Birmingham, Newcastle and Leeds in September and October 2022 on research and interventions relating to learning and behaviour in DMD

We attended meetings of the DMD Care Psycho-Social group that is developing advice for improved practice in assessing and supporting boys with Duchenne through the Neuromuscular Hubs

We advised meetings in the successful development of the DUK A and E App

We attended the Action Duchenne Conference speaking about supporting adults with DMD to be independent.

We have written a report on findings from focus groups with parents and interviews with clinicians regarding psycho-social needs and DMD.

We submitted advice to the Government's National consultation (Green Paper) on Special Educational Needs highlighting the need to properly implement the 2015 Families Act Legislation and SEND Code of Practice for young people with Duchenne Muscular Dystrophy

We attended the "Supporting Disabled Students in Higher Education" Conference at Westminster Chaired by Lord Colin Low of Dalston, Co-Chair, All-Party Parliamentary Group for Assistive Technology and provided DUK with a report.

**PART 2 – CONSULTATION WITH STAKEHOLDERS** – Please indicate who the company's stakeholders are; how the stakeholders have been consulted and what action, if any, has the company taken in response to feedback from its consultations? If there has been no consultation, this should be made clear.

Families and young people were asked to feedback on our programme to support the development of Education Health and Care Plans during our RoadMap for Life service. The personal assessments and reviews in school have improved alongside the new protocols following the new SEN legislation. Families asked for more information on how to complete Section A of EHC Plan process and we have successfully provided further templates. Young people with Duchenne are now more likely to get early intervention with lagging skills in literacy and maths. There was still concern that skills relating to communication, social and emotional behaviours were not being assessed and supported.

Decipha CIC continues to work with individual families and is developing and updating online resources for families and professionals. Following consultation Decipha CIC will be working with Duchenne families to ensure that International agreed standards of Care are implemented in the UK.
