NOTES TO THE FINANCIAL STATEMENTS for the year ended 31 December 2009

ACCOUNTING POLICIES 1

Going concern

The financial statements have been prepared on a going concern basis, which assumes the company will be able to meet its liabilities as they fall due, for the foreseeable future

The current economic conditions have created a number of uncertainties in the market in which the company operates, in particular in respect of asset valuations

The company is party to a cross guarantee over debt drawn across the Pureskill group secured on the company's assets. The group financing arrangements include valuation covenants amongst other requirements

The director has acknowledged the latest FRC guidance on going concern during the current economic conditions. The group has prepared forecasts (including those of the company), taking into account reasonably possible changes, which have been reviewed by the director, based on estimates and judgements about the economic environment in which the group operates In addition the parent company Pureskill Limited has confirmed that it will provide financial support for the company to meet its liabilities for the foreseeable future

After making enquiries, the director has formed a judgement, at the time of approving the financial statements, that there is a reasonable expectation that the company has access to adequate resources to continue in operational existence for the foreseeable future. Accordingly, the director continues to adopt the going concern basis in preparing the financial statements

Accounting convention

The financial statements have been prepared under the historical cost convention

The principal accounting policies are summarised below. They have been applied consistently throughout the current and previous year

Financial Reporting Standard Number 1 (revised)

Under the provisions of Financial Reporting Standard No 1 (revised), the company has not prepared a cash flow statement because its ultimate parent undertaking, Pureskill Limited, which is incorporated in Great Britain, has prepared consolidated financial statements which include a cash flow statement incorporating the cash flows of the company

Stocks are valued at the lower of cost and net realisable value

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date

Current tax, including UK corporation tax and foreign tax, is provided at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the balance sheet date

Rental is measured at the fair value of the consideration received or receivable and is stated net of discounts and VAT

Revenue comprises income in relation to the sale of properties and is recognised on the point of completion

OPERATING PROFIT 2

The operating profit is stated after charging

Fees payable to the company's auditors for the audit of the company's annual accounts	2009 £ 901	2008 £ <u>878</u>
