S T Cross QC

Director

Company registration number: 5475645

# ACTION 4 EQUALITY (SCOTLAND) LIMITED NOTES TO THE FINANCIAL STATEMENTS

## YEAR ENDED 30 NOVEMBER 2021

#### 1. General information

The company is a private company limited by shares, registered in England and Wales. The address of the registered office is c/o Joseph Miller, Milburn House, Dean Street, Newcastle upon Tyne, NE1 1LE.

# 2. Statement of compliance

These financial statements have been prepared in compliance with Section 1A of FRS 102, 'The Financial Reporting Standard applicable in the UK and the Republic of Ireland'.

# 3. Accounting policies

## Basis of preparation

The financial statements have been prepared on the historical cost basis, as modified by the revaluation of fixed asset investments measured at fair value through profit or loss. The financial statements are prepared in sterling, which is the functional currency of the entity.

#### Revenue recognition

Turnover comprises revenue earned, net of Value Added Tax, under contracts to provide services and advice to third parties. Revenue recognition Revenue is recognised when, and to the extent that, the outcome of the transaction can be estimated reliably. Revenue is calculated by reference to the stage of completion of the transaction at the end of the reporting period. If the outcome of the transaction cannot be estimated reliably revenue is recognised only to the extent of the expenses recognised that are recoverable. Revenue in respect of contingent fee arrangements is recognised if the contingency has been met at the date the accounts are approved and the conditions for recognition have also been met.

#### **Taxation**

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date. Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events have occurred at that date that will result in an obligation to pay more, or a right to pay less or to receive more tax. Deferred tax is measured on an undiscounted basis at the tax rates that are expected to apply in the periods in which timing differences reverse, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

#### Foreign currencies

Foreign currency transactions are initially recorded in the functional currency, by applying the spot exchange rate as at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are translated at the exchange rate ruling at the reporting date, with any gains or losses being taken to the profit and loss account.

#### Tangible assets

Tangible assets are initially recorded at cost, and subsequently stated at cost less any accumulated depreciation and impairment losses.

#### Depreciation

Depreciation is calculated so as to write off the cost or valuation of an asset, less its residual value, over the useful economic life of that asset as follows:

Motor vehicles - 25 % straight line Equipment - 25 % straight line

#### **Investments**

Fixed asset investments are initially recorded at cost, and subsequently stated at fair value with changes in fair value being recognised in profit or loss.

# Impairment of fixed assets

A review for indicators of impairment is carried out at each reporting date, with the recoverable amount being estimated where such indicators exist. Where the carrying value exceeds the recoverable amount, the asset is impaired accordingly. Prior impairments are also reviewed for possible reversal at each reporting date.

#### Finance leases and hire purchase contracts

Assets held under finance leases and hire purchase contracts are recognised in the statement of financial position as assets and liabilities at the lower of the fair value of the assets and the present value of the minimum lease payments, which is determined at the inception of the lease term. Any initial direct costs of the lease are added to the amount recognised as an asset. Lease payments are apportioned between the finance charges and reduction of the outstanding lease liability using the effective interest method. Finance charges are allocated to each period so as to produce a constant rate of interest on the remaining balance of the liability.

#### **Government grants**

Government grants are recognised at the fair value of the asset received or receivable. Grants are not recognised until there is reasonable assurance that the company will comply with the conditions attaching to them and the grants will be received. Government grants are recognised using the accrual model. Under the accrual model, government grants relating to revenue are recognised on a systematic basis over the periods in which the company recognises the related costs for which the grant is intended to compensate. Grants that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the entity with no future related costs are recognised in income in the period in which it becomes receivable.

#### Financial instruments

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities. Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. Finance costs are calculated so as to produce a constant rate of return on the outstanding liability. Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

# 4. Employee numbers

The average number of persons employed by the company during the year amounted to 4 (2020: 4).

# 5. Tangible assets

•	Motor		
	vehicles	Equipment	Total
	£	£	£
