1. Accounting policies

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A of Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006. The financial statements have been prepared under the historical costs convention as modified by the revaluation of certain assets.

Revenue recognition

Turnover represents amounts receivable for services. Amounts receivable for services performed over time are based upon the stage of completion of the services performed.

Property, plant and equipment

Tangible fixed assets, other than freehold land, are stated at cost or valuation less depreciation and any provision for impairment. Depreciation is provided at rates calculated to write off the cost or valuation of fixed assets, less their estimated residual value, over their expected useful

lives on the following basis:

Investment property	0% Reducing balance
Office & computer equipment	25% Reducing balance
Motor vehicles	25% Reducing balance

No depreciation is provided on the company's freehold properties since in the opinion of the directors the expected useful lives are sufficiently long and the estimated residual values are sufficiently high that any such depreciation would be immaterial. The directors undertake an annual impairment review of these properties.

Investment property

Investment properties are included in the balance sheet at their open market value at the balance sheet date. The resulting aggregate surplus or deficit is transferred to a revaluation reserve. Depreciation is provided only on those investment properties which are leasehold and where the unexpired lease term is less than 20 years. Although this accounting policy is in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015), it is a departure from the general requirement of the Companies Act 2006 for all tangible assets to be depreciated. In the opinion of the directors compliance with the standard is necessary for the financial statements to give a true and fair view. Depreciation or amortisation is only one of many factors reflected in the annual valuation and the amount of this which might otherwise have been charged cannot be separately identified or quantified.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme for the benefit of its directors/and employees. Contributions payable are charged to the profit and loss account in the period in which they are payable.
