Judgements

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported. These estimates and judgements are continually reviewed and are based on experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the provision of services in the ordinary course of the company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

Tax

The tax expense for the period comprises deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses and fair value, with any changes in fair value recognised net of deferred tax within other comprehensive income.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives. Amounts held at fair value are not depreciated, instead the carrying value is assessed by the Director with any change running through other comprehensive income. The rates are as follows:

Asset class	Depreciation method and rate
Plant and Machinery	20% Straight line
Motor Vehicles	Held at fair value
Fixtures and Fittings	Held at fair value

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits.

2 Accounting policies (continued)

Trade debtors

Trade debtors are amounts due from customers for services performed in the ordinary course of business. Bad debts are reviewed and any amounts deemed as irrecoverable are recognised in the profit and loss account.

Trade debtors are recognised at transactions price.

Trade creditors

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Trade creditors are recognised at transaction price.

Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease.

Share capital

Ordinary shares are classified as equity.

3 Staff numbers

The average number of persons employed by the company (including the director) during the period, was 0 (2018 - 0).
