NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE PERIOD ENDED 30 SEPTEMBER 2010

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention

The company has taken advantage of the exemption in Financial Reporting Standard No 1 from the requirement to produce a cash flow statement on the grounds that it is a small company

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated)

1.3 Turnover

Turnover represents service charges receivable net of VAT

1.4 Deferred taxation

In accordance with Financial Reporting Standard 19 'Accounting for deferred tax', deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Provision is made at the rates expected to apply when the timing differences reverse.

Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in taxable profits in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.
