1 Accounting policies

HVL 2 Limited is a private company limited by shares and incorporated in England & Wales under the Companies Act. The address of the registered office is given on the contents page and the nature of the company's operations and its principal activities are set out in the report of the director.

The financial statements have been prepared in accordance with FRS 102, the Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgement in applying the company's accounting policies, as detailed in note 2. The following principal accounting policies have been applied:

Basis of preparation

The financial statements have been prepared on a going concern basis. In considering the appropriateness of the going concern assumption, the director has taken into consideration the company's cash flow forecasts and the company's present level of funding. The shareholders have indicated that they will not withdraw the existing financial support to the company for at least a year from the date of approval of these financial statements. The director is therefore confident that they have sufficient working capital and consider that adequate longer term funding will remain in place and consequently the company will continue as a going concern. No adjustments have been made to the carrying value of both assets and liabilities, that might be required should the going concern basis be inappropriate.

Cash flow statement

No cash flow statement has been presented as the Company did not trade in the year, nor did it have a bank account open in its name.

Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment. Where merger relief is applicable, the cost of the investment in a subsidiary undertaking is measured at the nominal value of the shares issued together with the fair value of any additional consideration paid.

2 Judgements in applying accounting policies and key sources of estimation uncertainty

Valuation of investments (note 3)

The valuation of the Company's investments has previously been impaired to £Nil and Management do not consider it appropriate to reverse any of this impairment.
