Strategic report for the year ended 31 March 2021

The directors present their strategic report on the company for the year ended 31 March 2021.

Principal activities, review of business and future developments

The principal activity of the company is the designing, building, financing and operation, including the provision of wastewater treatment and sludge disposal services, of a series of waste water treatment plants and sludge incinerators in Northern Ireland.

The company has recorded a profit before taxation in the year of £1,240,000 (2020: profit of £956,000) on turnover of £29,183,000 (2020: £28,734,000). Net liabilities of the company are £28,521,000 (2020: £33,874,000).

The company's results for the year and its financial position at the end of the year were considered to be satisfactory by the directors who expect the company to maintain its present level of activity in future years. Management have acted to mitigate the impact that Coronavirus (Covid-19) has on the business and have worked closely with NI Water and the key sub-contractor to maintain onsite operations and the business has operated at full capacity throughout the pandemic.

Principal risks and uncertainties

As the company's services are provided to its customer under a Private Finance Initiative contract, the company's risks are limited to those arising from service performance. The risk of failing to meet the required service performance levels is mitigated through the company subcontracting the operation of the water treatment facilities to a company that specialises in managing and operating the water treatment facilities. The board closely monitors the service performance level of its facilities to ensure that the required service performance levels are met.

Key performance indicators

The company's key performance indicator is cash generated, which for the year ended 31 March 2021 was an inflow of £1,114,000 (2020: inflow of £1,760,000).

Environment

The company recognises its corporate responsibility to carry out its operations whilst minimising environmental impacts. The directors' continued aim is to comply with all applicable environmental legislation, prevent pollution and reduce waste wherever possible.

Health and safety

The company is committed to achieving the highest practicable standards in health and safety management and strives to make all sites and offices safe environments. The board of directors receives regular reports on compliance with the policies and procedures established by the shareholders and in respect of the company's performance against the standards set out in those policies.

This report was approved by the board on ... 22 12 2021 ... and signed on its behalf.

S Patton Director

Directors' report for the year ended 31 March 2021

The directors present their report and the audited financial statements of the company for the year ended 31 March 2021.

Future developments

The section on future developments which is detailed in the Strategic report, is included in this report by cross reference.

Results

The company made net profit for the financial year of £731,000 during the year (2020: profit of £723,000). The directors do not recommend the payment of a final dividend (2020: £nil).

Going concern

Although the company's balance sheet reflects net liabilities, this is primarily caused by the recognition of derivative financial instruments at their fair values. These derivative financial instrument liabilities are unrealised and are part of hedging arrangements that help to reduce volatility in the company's cash flows over the duration of the PFI project. However, the company is cash generative and is forecast to remain cash positive over that period. The directors are satisfied that the company's cash flows are sufficient to enable the company to continue as a going concern and settle all liabilities as they fall due for at least the next 12 months from signing these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Directors' indemnity

The company has made a qualifying third-party indemnity provision for the benefit of its directors during the year and it remained in force at the date of approval of the financial statements.

Financial risk management

The company's operations expose it to a variety of financial risks that include credit risk, liquidity risk and interest rate risk. The company has in place a risk management programme that seeks to limit the adverse effects on the financial performance of the company by monitoring these risks.

Given the size of the company, the directors have retained the responsibility of monitoring financial risk management and have not delegated this responsibility to a sub-committee of the board. The policies set by the board of directors are implemented by the company's finance department.

Credit risk

As the company's customer is a government owned company, exposure to credit risk is limited.

Liquidity risk

The company's exposure to liquidity risk is limited as it has sufficient cash reserves to fund short term working capital requirements, whilst its contract with its customer generates sufficient monies to meet the company's obligations under its bank loan and loans from related parties.

Interest rate risk

The company has both interest-bearing assets and interest-bearing liabilities. Interest bearing assets consist of cash balances which earn interest at variable rates. Interest bearing liabilities consist of bank loans on which the company pays variable rates of interest and loans from related parties which the company pays fixed rates of interest. The company has entered into interest rate swaps in order to hedge the interest rate cash flow risk arising from its variable rate bank debt.

Directors

The directors of the company who were in office during the year, and up to the date of signing the financial statements, were:

- S Patton
- C Anderson
- D Hardingham
- A McKenna

Directors' report for the year ended 31 March 2021 (continued)

Statement of directors' responsibilities in respect of the financial statements

The directors are responsible for preparing the Annual report and the financial statements in accordance with applicable law and regulation.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have prepared the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law).

Under company law, directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- state whether applicable United Kingdom Accounting Standards, comprising FRS 102 have been followed, subject to any material departures disclosed and explained in the financial statements;
- · make judgements and accounting estimates that are reasonable and prudent; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business.

The directors are responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The directors are also responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006.

Statement of disclosure of information to auditors

So far as each of the directors in office at the date of approval of these financial statements is aware:

- · there is no relevant audit information of which the company's auditors are unaware; and
- they have taken all the steps that they ought to have taken as directors in order to make themselves aware of any relevant audit information and to establish that the company's auditors are aware of that information.

On behalf of the Board on 22/12/2021

D Hardingham

Director

Independent auditors' report to the members of Glen Water Limited

Report on the audit of the financial statements

Opinion

In our opinion, Glen Water Limited's financial statements:

- give a true and fair view of the state of the company's affairs as at 31 March 2021 and of its profit and cash flows for the year then
 ended:
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards, comprising FRS 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland", and applicable law); and
- have been prepared in accordance with the requirements of the Companies Act 2006.

We have audited the financial statements, included within the Annual report and Financial Statements (the "Annual Report"), which comprise: the Balance sheet as at 31 March 2021; the Profit and loss account, the Statement of comprehensive income, the Statement of changes in equity and the Cash flow statement for the year then ended; and the notes to the financial statements, which include a description of the significant accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities under ISAs (UK) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, which includes the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the company's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the company's ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Strategic report and Directors' report, we also considered whether the disclosures required by the UK Companies Act 2006 have been included.

Based on our work undertaken in the course of the audit, the Companies Act 2006 requires us also to report certain opinions and matters as described below.

Strategic report and Directors' report

In our opinion, based on the work undertaken in the course of the audit, the information given in the Strategic report and Directors' report for the year ended 31 March 2021 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.

In light of the knowledge and understanding of the company and its environment obtained in the course of the audit, we did not identify any material misstatements in the Strategic report and Directors' report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of directors' responsibilities in respect of the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view. The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to iliquidate the company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the company and industry, we identified that the principal risks of non-compliance with laws and regulations related to tax legislation and health and safety legislation, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the financial statements such as the Companies Act 2006. We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to posting inappropriate journal entries to manipulate financial results, including revenue recognition and manipulation of earnings before interest, tax, depreciation and amortisation and management bias in accounting estimates or significant judgements. Audit procedures performed by the engagement team included:

- Discussions with management, including consideration of known or suspected instances of non-compliance with laws and regulation and fraud;
- · Identifying and testing unusual journal entries, in particular those journal entries posted with an unusual account combination; and
- Evaluating and, where appropriate, challenging assumptions and judgements made by management in determining significant accounting estimates.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

A further description of our responsibilities for the audit of the financial statements is located on the FRC's website at: www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the company's members as a body in accordance with Chapter 3 of Part 16 of the Companies Act 2006 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2006 exception reporting

Under the Companies Act 2006 we are required to report to you if, in our opinion:

- we have not obtained all the information and explanations we require for our audit; or
- adequate accounting records have not been kept by the company, or returns adequate for our audit have not been received from branches not visited by us; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- the financial statements are not in agreement with the accounting records and returns.

We have no exceptions to report arising from this responsibility.

Notes to the financial statements for the year ended 31 March 2021

1 General information

Glen Water Limited ('the company') principal activities are the designing, building, financing and operation, including the provision of wastewater treatment and sludge disposal services, of a series of waste water treatment plants and sludge incinerators in Northern Ireland.

The company is a private company limited by shares and is incorporated in the United Kingdom and registered in England. The address of its registered office is: Third floor, Broad Quay House, Prince Street, Bristol, BS1 4DJ.

2' Statement of compliance

The company's financial statements of Glen Water Limited have been prepared in compliance with United Kingdom Accounting Standards, including Financial Reporting Standard 102, "The Financial Reporting Standard applicable in the United Kingdom and the Republic of Ireland" ("FRS 102") and the Companies Act 2006.

3 Accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of preparation

These financial statements are prepared on a going concern basis, under the historical cost convention, as modified by the recognition of certain financial assets and liabilities measured at fair value.

The preparation of financial statements requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the company accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are disclosed in note 4.

Going concern

Although the company's balance sheet reflects net liabilities, this is primarily caused by the recognition of derivative financial instruments at their fair values. These derivative financial instrument liabilities are unrealised and are part of hedging arrangements that help to reduce volatility in the company's cash flows over the duration of the PFI project. However, the company is cash generative and is forecast to remain cash positive over that period. The directors are satisfied that the company's cash flows are sufficient to enable the company to continue as a going concern and settle all liabilities as they fall due for at least the next 12 months from signing these financial statements. Accordingly, the financial statements have been prepared on a going concern basis.

Accounting for Private Finance Initiative contracts (service concession arrangements)

Where it can be demonstrated that the balance of risks and rewards derived from the underlying asset are not borne by the company, the asset created and/or provided under the contract is accounted for as a finance lease receivable or as a financial asset; otherwise, it is classified as a fixed asset.

Provisions and contingencies

(i) Provisions

Provisions are recognised when the company has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resources will be required to settle the obligation; and the amount of the obligation can be estimated reliably. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as a finance cost.

(ii) Contingencies

Contingent liabilities, arising as a result of past events, are not recognised when (i) it is not probable that there will be an outflow of resources or that the amount cannot be reliably measured at the reporting date or (ii) when the existence will be confirmed by the occurrence or non-occurrence of uncertain future events not wholly within the company's control. Contingent liabilities are disclosed in the financial statements unless the probability of an outflow of resources is remote.

3 Accounting policies (continued)

Turnover

Turnover is measured at the fair value of the consideration received or receivable and represents the amount receivable for goods supplied or services rendered, net of returns, discounts and rebates allowed by the company and value added taxes.

Where the consideration receivable in cash at bank and in hand is deferred, and the arrangement constitutes a financing transaction, the fair value of the consideration is measured as the present value of all future receipts using the imputed rate of interest.

The company recognises turnover when (a) the significant risks and rewards of ownership have been transferred to the buyer; (b) the company retains no continuing involvement or control over the goods; (c) the amount of revenue can be measured reliably; (d) it is probable that future economic benefits will flow to the entity and (e) when the specific criteria relating to each has been met, as described below.

Turnover in respect of the provision of water and sewerage services is recognised on the basis of daily usage.

Taxation

Taxation expense for the year comprises current and deferred tax recognised in the reporting period. Tax is recognised in the profit and loss account, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case tax is also recognised in other comprehensive income or directly in equity respectively.

Current or deferred taxation assets and liabilities are not discounted.

(i) Current tax

Current tax is the amount of income tax payable in respect of the taxable profit for the year or prior years. Tax is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the year end.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

(ii) Deferred tax

Deferred tax arises from timing differences that are differences between taxable profits and total comprehensive income as stated in the financial statements. These timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements.

Deferred tax is recognised on all timing differences at the reporting date. Unrelieved tax losses and other deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Borrowing Costs

All borrowing costs are recognised in profit and loss in the year in which they are incurred.

Tangible assets

Tangible assets are stated at cost (or deemed cost) less accumulated depreciation and accumulated impairment losses. Cost includes the original purchase price, costs directly attributable to bringing the asset to its working condition for its intended use, dismantling and restoration costs.

(i) Infrastructure, building & concrete structures, pumping equipment and other equipment

Infrastructure, building & concrete structures, pumping equipment and other equipment are stated at cost less accumulated depreciation and accumulated impairment losses.

3 Accounting policies (continued)

Tangible assets (continued)

(ii) Depreciation and residual values

Depreciation is calculated, using the straight-line method, to allocate the depreciable amount to their residual values over the expected useful economic lives of the assets concerned. The principal annual rates used are as follows:

Infrastructure assets - 24 years
Building & concrete structures - 24 years
Pumping equipment - 20 years
Other equipment - 7 to 15 years

The assets' residual values and useful lives are reviewed, and adjusted, if appropriate, at the end of each reporting period. The effect of any change is accounted for prospectively.

(iii) Subsequent additions and major components

Subsequent costs, including major inspections, are included in the assets carrying amount or recognised as a separate asset, as appropriate, only when it is probable that economic benefits associated with the item will flow to the Company and the cost can be measured reliably.

The carrying amount of any replaced component is derecognised. Major components are treated as a separate asset where they have significantly different patterns of consumption of economic benefits and are depreciated separately over its useful life.

Repairs, maintenance and minor inspection costs are expensed as incurred.

(iv) Derecognition

Tangible assets are derecognised on disposal or when no future economic benefits are expected. On disposal, the difference between the net disposal proceeds and the carrying amount is recognised in profit or loss and included in Administrative expenses.

Impairment of non-financial assets

At each balance sheet date non-financial assets not carried at fair value are assessed to determine whether there is an indication that the asset (or asset's cash generating unit) may be impaired. If there is such an indication the recoverable amount of the asset (or asset's cash generating unit) is compared to the carrying amount of the asset (or asset's cash generating unit).

The recoverable amount of the asset (or asset's cash generating unit) is the higher of the fair value less costs to sell and value in use. Value in use is defined as the present value of the future cash flows before interest and tax obtainable as a result of the asset's (or asset's cash generating unit) continued use. These cash flows are discounted using a pre-tax discount rate that represents the current market risk-free rate and the risks inherent in the asset.

If the recoverable amount of the asset (or asset's cash generating unit) is estimated to be lower than the carrying amount, the carrying amount is reduced to its recoverable amount. An impairment loss is recognised in the profit and loss account, unless the asset has been revalued when the amount is recognised in other comprehensive income to the extent of any previously recognised revaluation. Thereafter any excess is recognised in profit or loss.

If an impairment loss is subsequently reversed, the carrying amount of the asset (or asset's cash generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the revised carrying amount does not exceed the carrying amount that would have been determined (net of depreciation or amortisation) had no impairment loss been recognised in prior periods. A reversal of an impairment loss is recognised in the profit and loss account.

Financial instruments

The company has chosen to adopt Sections 11 and 12 of FRS 102 in respect of financial instruments.

(i) Financial assets

Basic financial assets, including trade and other receivables and cash and bank balances, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Such assets are subsequently carried at amortised cost using the effective interest method.

3 Accounting policies (continued)

Financial instruments (continued)

At the end of each reporting period financial assets measured at amortised cost are assessed for objective evidence of impairment. If an asset is impaired the impairment loss is the difference between the carrying amount and the present value of the estimated cash flows discounted at the asset's original effective interest rate. The impairment loss is recognised in profit or loss.

If there is decrease in the impairment loss arising from an event occurring after the impairment was recognised, the impairment is reversed. The reversal is such that the current carrying amount does not exceed what the carrying amount would have been had the impairment not previously been recognised. The impairment reversal is recognised in profit or loss.

Financial assets are derecognised when (a) the contractual rights to the cash flows from the asset expire or are settled, or (b) substantially all the risks and rewards of the ownership of the asset are transferred to another party or (c) despite having retained some significant risks and rewards of ownership, control of the asset has been transferred to another party who has the practical ability to unilaterally sell the asset to an unrelated third party without imposing additional restrictions.

(ii) Financial liabilities

Basic financial liabilities, including trade and other payables, bank loans and loans from related parties, are initially recognised at transaction price, unless the arrangement constitutes a financing transaction, where the debt instrument is measured at the present value of the future receipts discounted at a market rate of interest. Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade payables are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

Derivatives, including interest rate swaps and forward foreign exchange contracts, are not basic financial instruments.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value. Changes in the fair value of derivatives are recognised in profit or loss in finance costs or finance income as appropriate, unless they are included in a hedging arrangement.

Financial liabilities are derecognised when the liability is extinguished, that is when the contractual obligation is discharged, cancelled or expires.

(iii) Offsetting

Financial assets and liabilities are offset and the net amounts presented in the financial statements when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

(iv) Hedging arrangements

The company applies hedge accounting for transactions entered into to manage the cash flow exposures of borrowings. Interest rate swaps are held to manage the interest rate exposures and are designated as cash flow hedges of floating rate borrowings.

Changes in the fair values of derivatives designated as cash flow hedges, and which are effective, are recognised directly in equity. Any ineffectiveness in the hedging relationship (being the excess of the cumulative change in fair value of the hedging instrument since inception of the hedge over the cumulative change in the fair value of the hedged item since inception of the hedge) is recognised in the profit and loss account.

The gain or loss recognised in other comprehensive income is reclassified to the income statement when the hedge relationship ends. Hedge accounting is discontinued when the hedging instrument expires, no longer meets the hedging criteria, the forecast transaction is no longer highly probable, the hedged debt instrument is derecognised or the hedging instrument is terminated.

Share capital

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new ordinary shares or options are shown in equity as a deduction, net of tax, from the proceeds.

3 Accounting policies (continued)

Related party transactions

The company discloses transactions with related parties which are not wholly owned within the same company. Where appropriate, transactions of a similar nature are aggregated unless, in the opinion of the directors, separate disclosure is necessary to understand the effect of the transactions on the company financial statements.

4 Critical accounting judgements and estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Critical accounting estimates and assumptions

The company has adopted the going concern basis in preparing the financial statements as described in note 3.

Critical judgements in applying the company's accounting policies

Taxation

Management make an estimate of the taxation charge for the period and the value of balances, with reference to legislation, discussions with taxation authorities, advice from taxation advisors, and the determination of similar taxation cases.

Deferred tax is recognised at tax rates that are expected to be applicable when the timing differences reverse, to the extent that such rates have been substantially enacted. Deferred tax assets are only recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits. The directors have taken this into consideration in their assessment of deferred tax assets.

5 Turnover

Turnover relates to the company's main activity which is carried out in the United Kingdom.

6 Operating profit

	2021	2020
	£'000	£'000
Operating profit is stated after charging:		· · · · · · · · · · · · · · · · · · ·
Depreciation of tangible assets	7,743	7,630
Loss on disposal of tangible assets	-	130
Fees payable to the company's auditors in respect of the audit of the financial statements	15	. 12
Fees payable to the company's auditors in respect of taxation services	38	12

7 Interest payable and similar expenses

	2021	2020
	£'000-	£'000
Interest payable on bank loans	5,633	· 6,023
Interest payable on unsecured loan notes	1,941	1,783

Origination and reversal of timing differences		935	196
Change in tax rates		(436)	5
Total deferred tax charge		499	201
Tax charge on profit		509	233

The tax assessed for the year is higher than the standard rate of Corporation Tax in the UK of 19% (2020: 19%). The differences are reconciled below:

•			2021	2020
		·. ·	£'000	£,000
Profit before tax			1,240	956
Profit before tax multiplied by standard rate	in the UK 19% (2020: 19%)	236	182
Effects of:		•		
Expenses not deductible for tax purposes	۵	•	709	46
Change in tax rates			(436)	5
Tax charge on profit			509	. 233

Tax rate changes

The UK government announced in its 2021 budget an increase in the rate of Corporation Tax from 19% to 25% with effect from 1 April 2023. At the balance sheet date, the proposal to increase the rate to 25% had not been substantively enacted, substantive enactment took place on 24 May 2021, therefore, its effects are not included in these financial statements. The Finance Bill received Royal Assent on 10 June 2021 becoming Finance Act 2021. The estimated overall effect of this change, if it has applied to the deferred tax balance at the balance sheet date, would be to increase the deferred tax assets and decrease the tax charge for the year by £509,000.

11 Tangible assets

	Infrastructure assets £'000	Building & concrete structures £'000	Pumping equipment £'000	Other equipment £'000	Total £'000

Corporation tax	10	32
Accruals and deferred income	2,166	2,034
	12,729	11,745

The bank loan is secured by a fixed and floating charge over the assets of the company and by way of guarantees given by the parent undertakings of the corporate shareholders. The loan carries interest at a rate of LIBOR plus 0.95% to 1.15%.

Amounts owed to related parties are interest free, unsecured and repayable on demand.

14 Creditors: amounts falling due after more than one year

		2021	2020	
		£'000	£'000	
<u> </u>	· · · · · · · · · · · · · · · · · · ·	78,448	86,028	
		22,539	20,634	
		20,676	26,014	
.		121,663	132,676	
			£'000 78,448 22,539 20,676	

The bank loan is secured by a fixed and floating charge over the assets of the company. The loan carries interest at a rate of LIBOR plus 0.95% to 1.15%.

14 Creditors: amounts falling due after more than one year (continued)

The unsecured subordinated loan notes are repayable in varying instalments commencing 31 December 2009 with full repayment due by 31 December 2031 and carry interest at a rate of 9% per annum. The maturity of the bank loan and unsecured loan notes is as follows:

	•	ů.		2021	2020
: .				£'000	£,000
Within one year		· · · · · · · · · · · · · · · · · · ·		7,579	6,772
Between one and two years	•	•	•	8,054	7,578
Between two and five years				25,383	25,511
In more than five years	• •			67,550	73,573
				108,566	113,434

The bank loan and unsecured loan notes are stated net of unamortised issue costs of £535,000 (2020: £585,000). All amounts falling due after more than five years are repayable by instalments.

15 Provisions for liabilities

		provision £'000
At 1 April 2020 and at 31 March 2021	 	750

Decommissioning provision

The decommissioning provision relates to anticipated costs that are required to be carried out at sludge facilities at the end of their use.

16 Financial instruments

The company has the following financial instruments: 2021 2020 £'000 £'000 Financial assets that are a debt instrument measured at amortised cost Trade debtors 4,768 5,000 Amounts owed by related parties 28 2. 20 Ultimate controlling party

The immediate parent undertaking is Glen Water (Holdings) Limited, a company incorporated in England.

The only group of undertakings for which group financial statements are drawn up and of which the company is a member is Glen Water (Holdings) Limited. Copies of the group financial statements of Glen Water (Holdings) Limited are available from the company secretary at Third Floor Broad Quay House, Prince Street, Bristol, BS1 4DJ.

There is no ultimate controlling party. Portfolio Solutions (Northern Ireland) Limited and Veolia Water Outsourcing Limited are 50% shareholders in Glen Water (Holdings) Limited. Portfolio Solutions (Northern Ireland) Limited and Veolia Water Outsourcing Limited are incorporated in England.

21 Post Balance Sheet Event

Historically the company had received a number of claims from its operating and construction contractors in respect of the operation and construction of the company's water treatment and sludge facilities. These claims amounted to approximately £23,660,000 (2020: £23,660,000). The parties entered a facilitation process to resolve the disputes. On 17 August 2021 Settlement Agreements were signed between the operating and construction contractors and the company. A Settlement Agreement was also signed between the company and its customer. These Settlement Agreements released and discharged all previous and future claims, regarding the operation and construction of the company's water treatment and sludge facilities, up to the date of signing of the agreements.
