2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets.

These are the company's first accounts under FRS 102, Section 1A, with the date of transition being 01 January 2015. There are no transitional or prior year adjustments affecting prior years' profit and equity as a result of the transition to FRS 102.

Turnover

Turnover is measured at the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes.

A sale is recognised when the goods have been despatched to clients, which is the point at which the risks and rewards of ownership pass to the customer and therefore revenue recognised.

The total turnover of the company for the year has been derived from its principal activity wholly undertaken with the United Kingdom.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life or, if held under a finance lease, over the lease term, whichever is the shorter.

Fixtures and fittings - 20% on reducing balance
Computer equipment - 25% on cost and 20% on cost

The company carries tangible fixed assets in the balance sheet using the depreciated historic cost method. Carrying amounts of fixed assets in the company's balance sheet are shown net of depreciation charges and, where applicable, provisions for impairment. Residual values of fixed assets are calculated on prices prevailing at the balance sheet date. If the assets where of the age and condition expected at the end of their useful economic lives. Profits or losses on the disposal of fixed assets are included in the calculation of profit for the period.

Financial instruments

Financial assets and financial liabilities are recognised when the company becomes a party to the contractual provisions of the financial instrument.

Debtors

Debtors do not carry interest and are stated at their nominal value. Appropriate allowances for estimated irrecoverable amounts are recognised in the profit and loss account when there is objective evidence that the asset is impaired. Prepayments do not meet the definition of a financial instrument.

Cash and cash equivalents

These comprise cash at bank and other short-term, highly liquid bank deposits with an original maturity of three months or less.
