Surrey Aquatechnology Limited (05698169)
Statement of directors' responsibilities
Year ended 31 December 2019

The directors present their report and the unaudited financial statements of the company for the year ended 31 December 2019.

Principal activities

The company's principal activity is the development of technology to purify saltwater and other liquid in an efficient and cost-effective manner.

Review of the business, research and development and future developments

The statement of comprehensive income is set out on page 5. The loss for the financial year was £2,090,435 (2018: loss £242,446). The directors are unable to recommend the payment of a dividend (2018: £nil).

The company is part of the Modern Water plc group and further details of the group's performance for the year and future developments, including research and development activity, are set out in the strategic report on pages 2 to 7 of the annual report of Modern Water plc, the immediate and ultimate parent company, which does not form part of this report.

Going concern

The directors have received confirmation that Modern Water plc will continue to support the company for at least a year following the date of this report and hence believe that the going concern assumption of the basis of preparation of the financial statements remains appropriate, notwithstanding the net current liabilities position of the company.

Directors

The directors of the company who were in office during the year and up to the date of signing the financial statements were as follows:

Simon Humphrey
Toby Schumacher (resigned 17 April 2020)

Directors' liability insurance

Modern Water plc has maintained liability insurance for the directors and officers of the company throughout the year and up to the date of approval of the financial statements. This is a qualifying third party indemnity provision for the purposes of the Companies Act 2006.

Disclosure exemptions

These financial statements have been prepared in accordance with FRS101 'Reduced Disclosure Framework'. As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under the standard in relation to share-based payments, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

Signed on behalf of the board

Notes to the financial statements

Year ended 31 December 2019

Company Information

Surrey Aquatechnology Limited is a private company limited by shares and incorporated in England and Wales. The Registered office is 12th Floor, 6 New Street Square, London, EC4A 3BF.

1. Accounting policies

The principal accounting policies, which have been applied consistently throughout the year, are set out below.

(a) Accounting Convention

These financial statements have been prepared in accordance with FRS101 'Reduced Disclosure Framework'. As permitted by FRS 101, the Company has taken advantage of the disclosure exemptions available under the standard in relation to share-based payments, presentation of a cash flow statement, standards not yet effective, impairment of assets and related party transactions.

(b) Going Concern

The directors have received confirmation that the parent company, Modern Water plc, will continue to support the company for at least a year following the date of approving these financial statements and hence believe that the going concern assumption of the basis of preparation of the financial statements remains appropriate, notwithstanding the net current liabilities

(c) Intangible fixed assets

Patents: Acquired patents are initially recognised at historical cost. They have a finite useful life and are subsequently carried at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost of patents over their estimated useful economic lives of 20 years from filing date.

Know-how: The ordinary share capital subscribed for by the technology inventors (A Sharif and University of Surrey) has been fair valued based on the subscription price paid by third parties to acquire shares in the company at the same time. The difference between the fair value and the price paid has been recognised as know-how, an intangible fixed asset to be amortised on a straight line basis over five years.

(d) Impairment

Assets that are subject to amortisation are tested for impairment when events or a change in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying value exceeds its recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and the value in use.

(e) Tangible fixed assets

Tangible fixed assets are stated at cost, net of depreciation and any provision for impairment. Cost includes expenditure that is attributable to the acquisition of the items. Depreciation is provided on all tangible fixed assets on a straight-line basis at rates calculated to write off the cost, less estimated residual value, of each asset over its expected useful life, as follows:

Plant and machinery 3 - 4 years

(f) Research and development

Expenditure on research activities is recognised as an expense in the year in which it is incurred.

Any internally generated development intangible fixed asset is recognised only if all of the following are met:

- the related expenditure is clearly identified and is part of a defined project
- future economic benefits are reasonably certain to be generated by the project and
- adequate resources exist, or are reasonably expected to exist, to enable the completion of the project.

Where no internally generated intangible fixed asset can be recognised, development expenditure is recognised as an expense in the year in which it is incurred. Internally generated intangible fixed assets are amortised on a straight-line basis over three years.

Surrey Aquatechnology Limited (05698169)
Notes to the financial statements
Year ended 31 December 2019

(g) Deferred taxation

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date where transactions or events that result in an obligation to pay more tax in the future or a right to pay less tax in the future have occurred at the balance sheet date. A net deferred tax asset is recognised as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits against which to recover carried forward tax losses and from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured on an undiscounted basis at the average tax rates that are expected to apply in the periods in which the timing differences are expected to reverse based on tax rates and laws that have been enacted or substantively enacted at the balance sheet date.

2. Employee benefits

There are no employees in the company and any directors' remuneration during the period has been borne by other companies within the Modern Water plc group.

3. Tax on profit on ordinary activities

Current Tax: The tax currently payable is based on taxable profits for the year. Taxable profit differs from net profit as reported in the income statement because it excludes items of income or expense that are taxable or deductible in other years and it excludes items that are never taxable or deductible. The company's liability for the current tax is calculated using tax rates that have been enacted, or substantively enacted, by the reporting date.

Deferred Tax: has been provided in full in respect of taxation deferred by timing differences between the treatment of certain items for taxation and accounting purposes. The balance has not been discounted.

11. Related party transactions

The company has taken advantage of the exemption under FRS 101 in not disclosing details of transactions with other companies which are 100% owned by Modern Water plc.

12. Ultimate controlling party

The immediate and ultimate controlling party is Modern Water plc, a company registered in England and Wales, which is the parent company of the smallest and largest group to consolidate these financial statements. Modern Water plc holds 100% of the allotted ordinary share capital of the company.

The results of the company are included in the consolidated financial statements of Modern Water plc, copies of which are available from the Company Secretary, Modern Water plc, 12th Floor, 6 New Street Square, London, EC4A 3BF.
