Hole Park Developments Limited

Notes to the abbreviated accounts for the year ended 30 September 2010

1 Accounting policies

1.1 Basis of preparation of financial statements

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.2 Cash flow

The financial statements do not include a cash flow statement because the company, as a small reporting entity, is exempt from the requirement to prepare such a statement under the Financial Reporting Standard for Smaller Entities (effective April 2008)

1.3 Turnover

Turnover comprises the company's share of profits generated by the partnership of which it is a member. Turnover is recognised in the year to which it relates and is formally agreed when the partnership accounts are agreed by all the partners.

1.4 Partnership capital

The company's interest in Hole Park Estate, an unincorporated farming and rental business, is dealt with in the financial statements by the equity method of accounting. That is the profit and loss account includes in turnover the company's share of the partnership profits, and the company's share of profits less any drawings are added to the cost of the partnership capital in the balance sheet.

1.5 Stocks and work in progress

Stocks and work in progress are valued at the lower of cost and net realisable value after making due allowance for obsolete and slow-moving stocks. Cost includes all direct costs and an appropriate proportion of fixed and variable overheads.

1.6 Deferred taxation

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.
