1976

The first part of the report is devoted to a description of the

method used for the collection of data. The data were collected

by means of a questionnaire which was sent to all the

members of the sample. The questionnaire was

designed to obtain information on the following

aspects of the problem: the nature of the

problem, the causes of the problem, the

consequences of the problem, the measures taken to

deal with the problem, and the results of the

measures taken.

The results of the questionnaire are presented in
