## Strategic Report

The directors present their strategic report for By Education (Lewisham) Limited (the "Company") for the year ended 31 December 2014.

### Principal activities

The principal activity of the Company is the finance, design and construction, refurbishment and operation of education facilities under the Government's Private Finance Initiative ("PFI"). The construction phase ended in 2008 whereupon the Company commenced the operational phase. Operational activities have continued throughout the year and the Company will continue in this activity for the foreseeable future.

### Review and analysis of the business during the current year

The Company has a project agreement with the Mayor and the Burgesses of the London Borough of Lewisham (the "Authority"), together with an associated construction contract, funding agreements and hard and soft services contracts (the "Project Agreement"). The Project Agreement requires the Company to finance, design, develop, construct, maintain and deliver three educational facilities within the London Borough of Lewisham for a primary term of 29 years and 9 months from the date of signing of the Project Agreement to 15 May 2036.

The results of the Company are set out in the attached financial statements.

#### *Key performance indicators (KPIs)*

##### 1. Performance deductions under the service contract

Financial penalties are levied by the Authority in the event of performance standards not being achieved according to detailed criteria set out in the Project Agreement. These deductions are passed on to the service provider. In the year ended 31 December 2014, deductions of £5,054 (2013: £5,020) had been levied which represents 0.2% (2013:0.2%) of revenue. The directors believe the performance for the year to be satisfactory.

##### 2. Financial performance

The directors have modelled the anticipated financial outcome of the Project across its full term. The directors monitor actual financial performance against this anticipated performance. As at 31 December 2014, the Company's performance against this measure was satisfactory.

### Position of the Company at the year end

The Company completed the construction phase of the contract on 27 February 2009. In the opinion of the directors the operating phase of the Project is performing satisfactorily.

### Development and financial performance during the year

As reported in the Company's profit and loss account, revenue has increased from £3,071,000 in 2013 to £4,961,000 in 2014 in line with expectations.

The profit for the year after taxation was £145,000 (2013: £983,000 loss). Operations were in line with expectation for the period. The directors consider the results for the year satisfactory.

The balance sheet shows that the net carrying value of the Company's net liabilities at year end was £2,811,000 (2013: £2,956,000). The directors consider it reasonable to assume that the Company has adequate resources to continue for the foreseeable future and, for this reason, have continued to adopt the going concern basis in preparing the financial statements.

## Strategic Report *(continued)*

### *Principal risks and uncertainties*

The Authority is the sole client of the Company about the directors consider that no strategic risk arises from such a small client base since the Secretary of State for Education has underwritten the Authority's obligations under the Project Agreement.

Performance risk under the Project Agreement and related contracts are passed on to the service providers and to the building contractor. The obligations of these subcontractors are underwritten either by performance guarantees caused by banks or by parent Company guarantees.

The Company is exposed to financial risk through its financial assets and liabilities. The key financial risk is that the proceeds from financial assets are not sufficient to fund the obligations arising from liabilities as they fall due. The most important components of financial risk are credit risk and liquidity risk.

### *Credit Risk*

Although the Authority is the sole client of the Company, the directors are satisfied that the Authority will be able to fulfil its obligations under the Project Agreement as it is underwritten by the Secretary of State for Education.

### *Liquidity risk*

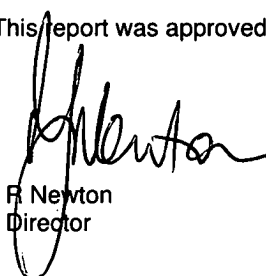

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's financial obligations, including the repayment of its borrowings which are provided on a long-term basis, have been structured to be met from the income which, under normal operating conditions, will be earned from its long-term concession contract with the Authority.

### *Interest rate risk*

The Company aims to manage exposure to interest rate fluctuations through a balance of fixed rate borrowings along with floating rate borrowings. The Company has also entered into swap contract covering all of the debt projected to be drawn down which hedges the Company's interest rate exposure on bank loans. The subordinated debt is subject to bi-annual indexation calculated from an agreed formula based on the change in the Retail Prices Index (excluding mortgages). The indexation risk is offset by turnover being subject to similar indexation terms.

Indemnity provisions of this nature have been in place during the financial year but have not been utilised by the directors.

## **Notes to the Financial Statements**

(forming part of the financial statements)

### **1 Accounting policies**

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Company's financial statements.

#### ***Basis of preparation***

The financial statements have been prepared in accordance with applicable accounting standards and under the historical cost accounting rules.

Under FRS 1 the Company is exempt from the requirement to prepare a cash flow statement on the grounds that a parent undertaking includes the Company in its own published consolidated financial statements.

#### ***Going concern***

The directors have reviewed the cash flow forecast and taking into account reasonable possible risks in operations to the Company and the fact the obligations of the Company's sole customer are underwritten by the Secretary of State for Education they believe that the Company will be able to settle its liabilities as they fall due for the foreseeable future and therefore it is appropriate to prepare these financial statements on the going concern basis.

#### ***Finance debtor and services income***

The Company is an operator of a PFI contract. The underlying asset is not deemed to be a tangible asset of the Company under FRS 5 Application Note F because the risks with rewards of ownership as set out in the standard are deemed to lie principally with the Mayor and Burgesses of the London Borough of Lewisham.

During the construction phase of the project, all attributable expenditure, excluding interest, was included in amounts recoverable on contracts and turnover. Upon becoming operational, the costs were transferred to the financial debtor. During the operational phase income is allocated between interest receivable and the finance debtor using a project specific interest rate. The remainder of the PFI unitary charge income is included within turnover in accordance with FRS 5 Application Note G.

The Company recognises income with regards to the services provided as it fulfils its contractual obligations in respect of those services and in line with the fair value of the consideration receivable for those services. Major maintenance costs are recognised on an incurred basis and the revenue receivable in respect of these services is recognised when the services are performed.

#### ***Taxation***

The charge for taxation is based on the profit for the year and takes account of taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised, without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen but not reversed by the balance sheet date, except as otherwise required by FRS 19.

#### ***Turnover***

All turnover and profit on ordinary activities before taxation originates in the United Kingdom. Turnover is recognised in accordance with the finance debtor and services income accounting policy above and excludes VAT.

#### ***Cash***

Cash at bank and in hand includes £1,375,000 (2013: £1,324,000) restricted from use in the business held in the Company's reserve accounts under the terms of the senior loan facility.

The future profits of the Company have been estimated based on the forecasted cash flows and its estimated contractual rights and obligations as an operator of a Private Finance Initiative contract.

### *Factors that may affect future current and total tax charges*

On 20 March 2013 the Chancellor proposed changes to further reduce the main rate of corporation tax by two per cent to 21 per cent on 1 April 2014 and by a further one per cent to 20 per cent on 1 April 2015. This tax change became substantively enacted on 2 July 2013.
