Strategic report

The directors present their strategic report and the financial statements for the year ended 31 March 2020.

Principal activity and review of the business

The Company was established specifically for trading in oil, LNG and petroleum products on behalf of Marubeni Petroleum, one of the subsidiaries of its ultimate parent undertaking, and its principal commodities for trading and activities are narrowly proscribed. Since April 2013 its main activity consists of acting as an intermediary between suppliers of energy products and Marubeni Petroleum, the entity within the wider Marubeni Corporation group.

The turnover for the year ended 31 March 2020 was US\$3,263,454 (2019: US\$3,547,537) and comprises the commission received for the administration of transactions for the purchase of various petroleum products and oil commodities on behalf of Marubeni Petroleum.

The Company is focused on expanding its business relationships with the existing suppliers as well as developing a new supplier base, so it can source the best quality products, deliver favourable pricing and ensure shorter delivery terms for the transactions entered in behalf of Marubeni Group.

Risks and uncertainties

The Company has identified the following principal risks:

Operational management

The Company's main focus is to maintain its core operational activities. The Directors carry out regular risk assessments, which is implemented through the internal control system of the parent undertaking, Marubeni Corporation.

Dependence on the key customers

The Company has a few large customers which account for a significant proportion of revenue. To maintain these relationships, the Company works in partnership with them to deliver the specification and price of the product required.

Risk management for financial instruments

The Company's business, in common with other subsidiaries of the general trading companies, is closely linked to its ultimate parent undertaking and one other entity within the wider Marubeni Corporation group with respect to its trading transactions, the ability to obtain funding and the management of credit risk. The Company faces a relatively narrow range of risks in conducting its trading activities and does not consider risk management to be an important part of its function. This is because it acts primarily as an intermediary (or agent) rather than as a principal, and, thus, it is not significantly exposed to the same range of risks as its two main principals Marubeni Corporation and one other entity within Marubeni group.

Brexit

Following the UK's decision to leave the European Union, a number of uncertainties still remain affecting general economic conditions both in the UK and in the European Union. The Directors of the Company believe that there no significant impact of Brexit on the business of Marubeni Energy Europe Limited because the Company does not perform import and export operations between the UK and the European Union member states.

Strategic report (continued)

Going concern

Marubeni Energy Europe Limited is a profitable business with net assets of US\$5,457,745 as at 31 March 2020 (2019 - US\$5,300,626) and profit of US\$457,745 for the year ended 31 March 2020 (2019 - US\$300,626). As at 31 March 2020 the Company has cash reserves of US\$131,542 in the form of the cash balance in bank and US\$5,262,970 of receivables balance due from other group undertakings under the existing cash pooling arrangements within the Marubeni Group (2019 - US\$205,171 and US\$4,995,206, respectively).

The financial statements have been prepared on the assumption that the Company will continue as a going concern. In making this assessment the Directors have considered the effects of the outbreak of Covid-19 on the Company's ability to maintain its trading activity and, thus, service income at the level sufficient to meet its obligations as they fall due in the next twelve-month period. Operationally, as an intermediary company, Marubeni Energy Europe Ltd is not expected to be significantly impacted by Covid-19 given that its service income for the fiscal year is guaranteed by Marubeni Group at the sufficient level to cover the operating costs associated with running of the Company's business. However, the Company's performance results in the subsequent period to date reflect overall volatility on the oil and petroleum products market caused by the pandemic and might affect its liquidity position during the next twelve months considering the timing of its cash flows, e.g. when the Company receives service income from Marubeni for the services rendered and is due to discharge its obligations.

The Directors conclude that the Company has sufficient liquidity resources available from the existing cash and receivables balance due from other group companies under the cash pooling arrangements to meet its immediate obligations. However, given volatility in the markets impacting the Company's business and, also, significant economic uncertainties caused by the pandemic that might affect recoverability of these receivables in the next twelve-month period, liquidity issues might arise. Thus, the Directors obtained the support letter from Marubeni Corporation confirming that the parent will provide the financial support to the Company in case of financial difficulties in the next twelve-month period. Accordingly, these financial statements have been prepared on a going concern basis, which assumes that the Company will realise its assets and discharge its liabilities in the normal course of business.

Anti-Bribery and Corruption

The Company is committed to acting professionally, fairly and with integrity in all its business dealings. As part of its commitment to ethical business practices, the Company will not tolerate any form of bribery or corruption. The Company maintains a comprehensive Anti-Bribery and Corruption policy which outlines the behaviour and principles required to support this commitment.

Environmental Information

The Company operates a comprehensive environmental policy, complying with legislation, standards and best practice.

On behalf of the Board

K Hashimoto Director

27/01/2021

Registered No. 5786247

Directors' report

The directors present their report and financial statements for the year ended 31 March 2020.

Results and dividends

The profit for the year after taxation amounted to US\$457,745 (2019 – profit of US\$300,626). During the year, an interim dividend of US\$300,626 was paid to the shareholders (2019 – US\$243,685).

Future developments

The directors expect to continue in the same business but expect the increasingly competitive markets. The outlook for the next twelve months is challenging in terms of the trading margins.

Directors

The directors who served the Company during the year were as follows:

T Sano

K Hashimoto

W Yonehara

S Kamizono (Appointed 1 April 2019)

Disclosure of information to the auditors

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of the fellow directors and the Company's auditor, each director has taken all the steps that he is obliged to take as a director in order to make himself aware of any relevant audit information and to establish that the auditor is aware of that information.

Re-appointment of auditor

Ernst and Young LLP are deemed to be reappointed as the Company's auditor in accordance with Section 487 (2) of the Companies Act 2006.

On behalf of the Board

K Hashimoto

Director

27/01/2021

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law) including Financial Reporting Standard 101 'Reduced Disclosure Framework'. Under Company law, the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and the profit or loss for that period.

- select suitable accounting policies and then apply them consistently;
- make judgments and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue in business.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditors' report

to the members of Marubeni Energy Europe Limited

Opinion

We have audited the financial statements of Marubeni Energy Europe Limited for the year ended 31 March 2020 which comprise the Statement of Comprehensive Income, the Statement of Financial Position, the Statement of Changes in Equity and the related Notes 1 to 12. The financial reporting framework that has been applied in their preparation is the applicable law and the United Kingdom Accounting Standards including FRS 101 "Reduced Disclosure Framework (United Kingdom Generally Accepted Accounting Practice).

In our opinion, the financial statements:

- give a true and fair view of the Company's affairs as at 31 March 2020 and of its profit for the year then ended;
- have been properly prepared in accordance with the United Kingdom Generally Accepted Accounting Practice; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (UK) (ISAs (UK)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report below. We are independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of matter - effects of Covid-19

We draw attention to Notes 2 and 12 of these financial statements, which describe the economic and social consequences that the Company is facing as a result of Covid-19 outbreak, which could potentially impact the volume of the Company's trading activities, supply and distribution channels as well as the personnel available for work. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

We have nothing to report in respect of the following matters in relation to which the ISAs (UK) require us to report to you where:

- the directors' use of the going concern basis of accounting in the preparation of the financial statements is not appropriate; or
- the directors have not disclosed in the financial statements any identified material uncertainties that
 may cast significant doubt about the Company's ability to continue to adopt the going concern basis of
 accounting for a period of at least twelve months from the date when the financial statements are
 authorised for issue.

Other information

The other information comprises the information included in the annual report, other than the financial statements and our auditor's report thereon. The directors are responsible for the other information.

Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other

Independent auditors' report

to the members of Marubeni Energy Europe Limited (continued)

Other information (continued)

information. If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact.

We have nothing to report in this regard.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion, based on the work undertaken in the course of the audit:

- the information given in the strategic report and the directors' report for the financial year for which the financial statements are prepared is consistent with the financial statements; and
- the strategic report and directors' report have been prepared in accordance with applicable legal requirements.

Matters on which we are required to report by exception

In the light of the knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified material misstatements in the strategic report or directors' report.

We have nothing to report in respect of the following matters in relation to which the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- · certain disclosures of directors' remuneration specified by law are not made; or
- · we have not received all the information and explanations we require for our audit.

Responsibilities of directors

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on the Financial Reporting Council's website at https://www.frc.org.uk/auditorsresponsibilities. This description forms part of our auditor's report.

Independent auditors' report

to the members of Marubeni Energy Europe Limited (continued)

Use of our report

This report is made solely to the Company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members as a body, for our audit work, for this report, or for the opinions we have formed.

1. Accounting policies

Authorization of financial statements and statement of compliance with FRS 101

The financial statements of Marubeni Energy Europe Limited (the "Company") for the year ended 31 March 2020 were authorized for issue by the Board of directors on 27th of January 2021 and the Statement of Financial Position was signed on the Board's behalf by K Hashimoto. The Company is limited by shares, incorporated and domiciled in United Kingdom. These financial statements were prepared in accordance with Financial Reporting Standard 101 "Reduced Disclosure Framework" (FRS 101) and in accordance with the applicable accounting standards. The principal accounting policies adopted by the Company are set out below.

Basis of preparation

The Company's financial statements are prepared in accordance with FRS 101 and under historical cost conversion except for derivative financial instruments that have been measured at fair value and presented in the United States dollars as the directors consider this to be the Company's functional currency and all the values are rounded to the nearest dollar.

The accounting policies which follow set out those policies which apply in preparing the financial statements for the year ended 31 March 2020.

The Company has taken advantage of the following disclosure exemptions under FRS 101:

- a) the requirements of IFRS 7 "Financial Instruments: Disclosures";
- b) the requirements of paragraphs 91-99 of IFRS 13 "Fair Value Measurement";
- c) the requirement in paragraph 38 of IAS 1 "Presentation of Financial Statements" to present comparative information in respect of: (i) paragraph 79(a) (iv) of IAS 1 and (ii) paragraph 73(e) of IAS 16 "Property Plant and Equipment";
- d) the requirements of paragraphs 10(d), 16, 38A to 38D, 40A, 40B, 40C and 40D, 111 and 134 to 136 of IAS 1 "Presentation of Financial Statements";
- g) the requirements of IAS 7 "Statement of Cash Flows";
- i) the requirements of paragraph 17 of IAS 24 "Related Party Disclosures";
- j) the requirements in IAS 24 "Related Party Disclosures" to disclose related party transactions entered into between two or more members of a group, provided that any subsidiary which is a party to the transaction is wholly owned by such a member.
- k) The requirement of the second sentence of paragraph 110 and paragraphs 113(a), 114, 115, 118, 119(a) to (c), 120 to 127 and 129 of IFRS 15 "Revenue from Contracts with Customers".

Going concern

Marubeni Energy Europe Limited is a profitable business with net assets of US\$5,457,745 as at 31 March 2020 (2019 - US\$5,300,626) and profit of US\$457,745 for the year ended 31 March 2020 (2019 - US\$300,626). As at 31 March 2020 the Company has cash reserves of US\$131,542 in the form of the cash balance in bank and US\$5,262,970 of receivables balance due from other group undertakings under the existing cash pooling arrangements within the Marubeni Group (2019 - US\$205,171 and US\$4,995,206, respectively).

The financial statements have been prepared on the assumption that the Company will continue as a going concern. In making this assessment the Directors have considered the effects of the outbreak of Covid-19 on the Company's ability to maintain its trading activity and, thus, service income at the level sufficient to meet its obligations as they fall due in the next twelve-month period. Operationally, as an intermediary company, Marubeni Energy Europe Ltd is not expected to be significantly impacted by Covid-19 given that its service income for the fiscal year is guaranteed by Marubeni Group at the sufficient level to cover the operating costs associated with running of the Company's business. However, the Company's performance results in the subsequent period to date reflect overall volatility on the oil and petroleum products market caused by the pandemic and might affect its liquidity position during the next twelve months considering the timing.

at 31 March 2020

1. Accounting policies (continued)

Going concern (continued)

of its cash flows, e.g. when the Company receives service income from Marubeni for the services rendered and is due to discharge its obligations.

The Directors conclude that the Company has sufficient liquidity resources available from the existing cash and receivables balance due from other group companies under the cash pooling arrangements to meet its immediate obligations. However, given volatility in the markets impacting the Company's business and, also, significant economic uncertainties caused by the pandemic that might affect recoverability of these receivables in the next twelve-month period, liquidity issues might arise. Thus, the Directors obtained the support letter from Marubeni Corporation confirming that the parent will provide the financial support to the Company in case of financial difficulties in the next twelve-month period. Accordingly, these financial statements have been prepared on a going concern basis, which assumes that the Company will realise its assets and discharge its liabilities in the normal course of business.

Judgements and key sources of estimation uncertainty

The preparation of financial statements requires the management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the period. However, the nature of estimation means that the actual outcomes could differ from those estimates.

Taxation

Management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with an assessment of the effect of future tax planning strategies. Further details are contained in Note 5.

• Impairment of financial assets

Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 120 days overdue) are considered indicators that the trade receivable is impaired.

Tangible Fixed Assets - Furniture & Fittings and equipment

Furniture & Fitting and Other equipment are stated at cost, net of accumulated depreciation and/or accumulated impairment losses, if any. When significant parts of Furniture & Fitting and Other equipment are required to be replaced at intervals, the Company derecognises the replaced part, and recognises the new part with its own associated useful life and depreciation. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the Furniture & Fitting and Other equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in the income statement as incurred.

Depreciation is provided on all tangible fixed assets, at rates calculated to write off the cost, less estimated residual value, of each asset over its expected useful life as follows:

Depreciation rate (%) or period Method

Furniture & Fitting over 5 to 10 years Straight-line, zero residual value

Other equipment over 2 to 9 years Straight-line, zero residual value

An item of Furniture & Fitting and Other equipment and any significant part initially recognised is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the income statement when the asset is derecognised.

The assets' residual values, useful lives and methods of depreciation are reviewed at each financial year end and adjusted prospectively, if appropriate. The carrying values of tangible fixed assets are reviewed for impairment if events or changes in circumstances indicate the carrying value may not be recoverable.

at 31 March 2020

1. Accounting policies (continued)

Turnover

Commission on sales and purchase transactions of crude oil, LNG and petroleum products is recognised in the profit and loss account at the month of bill of lading or the equivalent date and included in turnover.

Turnover is recognised to the extent that the Company obtains the right to consideration in exchange for its performance. Turnover is measured at the fair value of the consideration received, excluding discounts, rebates, VAT and other sales taxes or duty.

Foreign currency

All monetary assets and liabilities denominated in foreign currency at the year-end have been translated at the rate of exchange ruling at the balance sheet date. Transactions in foreign currency are recorded at the rate ruling on the date of the transaction. All differences are taken to the profit and loss account. The average exchange rate between British Pounds and US Dollars for the year was USD1.27407 (2019: USD 1.31719 and the year-end exchange rate between British Pounds and US Dollars was USD 1.23991 (2019: USD 1.30312).

Operating leases

Rentals payable under operating leases are charged in the profit and loss account on a straight-line basis over the lease term. Lease incentives are recognised over the shorter of the lease term and the date of the next rent review.

Cash and cash equivalents

Cash and cash equivalents comprise cash in hand and on deposit with banks that are readily convertible to known amounts of cash and which are subject to insignificant penalties on early termination.

Financial Assets

Initial recognition and measurement

Financial assets within the scope of IFRS 9 are classified as financial assets at fair value through profit or loss and include trade and other receivables. The Company determines the classification of its financial assets at initial recognition. Receivables are recognised initially at fair value plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

Debtors

Debtors are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortized cost using effective interest (EIR) method, less impairment. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are integral part of the EIR. The EIR amortization is included in finance revenue in the income statement. The losses arising from impairment are recognised in the income statement in other operating expenses.

Impairment of financial asset

The Company assesses at each reporting date whether there is any objective evidence that a financial asset or group of financial asset is impaired. An allowance is made when there is objective evidence that the Company will not be able to collect amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 120 days overdue) are considered indicators that the trade receivable is impaired.

The amount of the allowance is the difference between the carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against bad and doubtful debts in profit and loss statement.

at 31 March 2020

1. Accounting policies (continued)

Derecognition of financial assets

The Company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity.

If the Company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Company retains substantially all the risks and rewards of ownership of a transferred financial asset, the Company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received. On derecognition of a financial asset in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable and the cumulative gain or loss that had been recognised in other comprehensive income and accumulated in equity is recognised in profit or loss.

Financial liabilities

Initial recognition and measurement

Financial liabilities within the scope of IAS 39 are classified as financial liabilities at fair value through profit or loss and include trade and other payables. Trade and other payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

Derecognition of financial liabilities

The Company routinely enters into derivative futures commodity contracts for trading purposes. Derivative contracts are financial instruments, such as futures and forwards.

A liability is generally derecognised when the contract that gives rise to it is settled, sold, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, such that the difference in the respective carrying amounts together with any costs or fees incurred are recognised in statement of comprehensive income.

All derivatives are recognised at fair value on the date on which the derivative is entered into and are remeasured to fair value at each reporting date. Derivative assets and derivative liabilities are offset and presented on a net basis only when both right of set-off exists and the intention to net settle the derivative contract is present.

Current period changes in the assets and liabilities from these activities (resulting primarily from newly originated transactions and the impact of price movements) are recognised in the statement of comprehensive income.

The prices used to value these transactions reflect the Company's best estimate, considering various factors including closing commodity exchanges.

Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount reported in the statement of financial position if and only if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

at 31 March 2020

1. Accounting policies (continued)

Taxation

The tax expense represents the sum of the tax currently payable and deferred tax. The tax is based on taxable profit for the year. Taxable profit differs from total comprehensive income as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible on other years and it further excludes items that are never taxable or deductible. The Company's liability for the current tax is calculated by using tax rates that have been enacted or substantively enacted by the balance sheet date.

Deferred tax is calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled based upon tax rates that have been enacted or substantively enacted by the statement of financial position date. Deferred tax is charged or credited in the statement of comprehensive income, except when it relates to items credited or charged directly to equity in which case the deferred tax is also dealt with in equity.

Deferred tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the statement of finance position and the corresponding tax bases used in the computation of taxable profit and is accounted for using statement of finance position liability method.

Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is not probable that sufficient taxable profits will be available to allow all or part of the assets to be recovered.

2. Turnover

The turnover represents commission and service fees, which is stated net of value added tax, received and receivable from the Company's continuing activity on behalf of Marubeni Group.

No geographical analysis of turnover, profit or net assets is given as, in the opinion of the directors, to provide such information would be seriously prejudicial to the interests of the Company.

3. Operating profit

This is stated after:

			2020	2019
			US\$	US\$
Auditor's remuneration	_	audit services	23,790	22,673
	_	tax services (non-audit services)	8,754	9,069
Depreciation			6,101	6,254
Net foreign currency loss			39,362	26,122
Operating lease rental	-	building	183,951	191,930

Marubeni Energy Europe Limited does not have future minimum lease payments under non-cancellable operating leases given that the Company has a one-month notice period to vacate their rented premises should they decide to do so.

at 31 March 2020

Staff costs

	2020	2019
	US\$	US\$
Wages and salaries	1,564,521	1,743,459
Social security costs	12,475	8,631
	1,576,996	1,752,090

The average monthly number of employees was 8(2019-7).

The aggregate directors' remuneration in respect of services as directors of the Company during the year were US\$644,125 (2019 - US\$1,020,419) and the highest paid director for 2020 received US\$329,896 (2019 - US\$391,283). The highest paid director did not exercise any share options and receive or is due to receive a long-term incentive scheme as none was provided.

5. Tax

(a) Tax on profit on ordinary activities

The tax on profit is made up as follows:

	-020	
	US\$	US\$
Current tax:		
Current tax on the profit for the year	108,173	77,331
Adjustment in respect of prior years	(19,097)	(14,764)
Total current tax	89,076	62,567
Deferred tax:		
Current year	1,122	1,343
Adjustment in respect of previous periods	-	1,519
Effect of changes in tax rates	(1,197)	(140)
Total deferred tax	(75)	2,722
Tax per income statement	89,001	65,289

Factors affecting current tax charge for the year

The tax assessed for the year differs from the standard rate of corporation tax in the UK of 19% (2019 -19%). The differences are explained below:

	2020 US\$	2019 US\$
Profit on ordinary activities before tax	546,746	365,915
profit on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2019 – 19%)	103,882	69,524
Effects of:		
Adjustments in respect of prior periods	(19,097)	(13,245)
Expenses not deductible for tax purposes	5,413	9,150
Tax rate changes	(1,197)	(140)
Income tax on profit reported in the income statement	89,001	65,289

7. Debtors

	2020 US\$	2019 US\$
Amounts due from parent undertaking	60,936	3,018
Amounts due from fellow subsidiary undertakings	5,410,296	5,054,416
Accrued income and prepayments	133,735	138,820
Other debtors	709,322	387,768
	6,314,289	5,584,022

All the balances are due within one year and the amounts due from fellow group undertakings are interest bearing (ICE LIBOR). Other debtors represent receivables due from the suppliers of oil and petroleum products as a result of demurrage claims made by the Company in relation with its core trading activity, which are then owed to other group entities or to the external customers. Under the service agreements with Marubeni, the Company is indemnified for the losses incurred in its core business activity, thus, does not bear a recoverability risk with regards to these receivables.

8. Creditors: amounts falling due within one year

	2020	2019
	US\$	US\$
Amounts due to parent undertaking	138,875	14,746
Amounts due to fellow subsidiary undertakings	450,039	66,440
Accruals	31,345	31,014
Other creditors	338,807	340,136
	959,066	452,336

All balances are non-interest bearing and most are due within one year. The amounts due to fellow subsidiary undertakings and, also, included in other creditors relate to demurrage claims made by the Company to the suppliers that are due to Marubeni entities or the external customers as part of the Company's core trading activity, which have not yet been settled by the suppliers.

As at 31 March 2020 Marubeni Energy Europe Limited has a total of US\$331,000,000 lines of credit available with the commercial traders and various financial institutions (2019 – US\$331,000,000). These credit facilities are being supported by the ultimate parent Marubeni Corporation with the parent guarantee agreements and used by the Company from time to time to draw letters of credit, etc. to finance its core trading activity. There have been no amounts drawn down from the above credit facilities and outstanding as of 31 March 2020 (2019 – US\$NIL).

9. Issued share capital

		2020		2019
Allotted, called up and fully paid	No.	US\$	No.	US\$
Ordinary shares of US\$1	5,000,000	5,000,000	5,000,000	5,000,000

at 31 March 2020

10. Related party transactions

The Company has taken advantage of the exemptions afforded by paragraph 8(le) of FRS 101 not to disclose transactions with related parties where the related party is wholly owned within the Marubeni Corporation group, of which the Company is a wholly owned subsidiary. Balances with group undertakings are shown in Note 7 and 8.

11. Post balance sheet events

On 11 March 2020, the World Health Organisation declared the novel strain of coronavirus (COVID-19) a global pandemic and recommended containment and mitigation measures worldwide. Whilst the length or severity of the pandemic and its ultimate effect on the markets cannot be estimated with high degree of certainty, the Directors have conducted an assessment on the potential human, operational and financial risk to the business.

The main risks for Marubeni Energy Europe Limited are:

- significant volatility in supply and demand on the market of crude oil and other petroleum products impacting availability of these products for trade, their pricing and the customer demand over the short and mid-term period. As a result of the pandemic, the overall economy experienced a significant decrease in the demand for oil and petroleum products driven by the general slowdown in the economic activity caused by the national lockdowns. The immediate effect for the Company is the decrease in the volume of orders and its transactional activity impacting the amount of service income earned on these transactions that might also result in liquidity issues due to the need for the Company to cover its fixed operating cost associated with running of the business;
- potential disruption in the distribution network and supply chain should the need for new or prolonged lockdowns arise affecting the Company's ability to source oil crude and petroleum products for sale and transport these to the different country locations across the globe;
- hedge effectiveness impact, where the agreements to secure a transaction price for future trading might be impacted by the negative market price dynamics, making the hedge ineffective and resulting in losses;
- recoverability of the amounts due from the group subsidiary undertakings under the cash pooling arrangements existing within the group should these be significantly affected by the liquidity risk;
- impact on the Company's personnel (including its top management) available for work as a result of health and wellbeing conditions caused by Covid-19.

The extent to which this event may impact the Company's business will depend on the future market developments, which are highly uncertain and cannot be predicted at this time. However, should these risks crystallise in 2020, some of the Company's critical accounting estimates might need to be revised (e.g. recoverability of deferred tax assets, receivables, hedging impact). The current impact of these matters as well as the directors' considerations on the Company's ability to continue as a going concern are presented in Note 2 to these financial statements.

12. Ultimate parent undertaking and controlling party

The Company's immediate and ultimate parent undertaking and controlling party is Marubeni Corporation, which is incorporated in Japan. Copies of Marubeni Corporation's group financial statements, which include the Company, can be obtained from its registered office at Tokyo Nihombashi Tower, 7-1, Nihonbashi 2-chome, Chuo-ku, Tokyo, 103-6060, Japan.
