## Notes to the financial statements (continued)

for the year ended 31 December 2020

### 1. Accounting policies (continued)

Critical accounting judgements and estimation uncertainty

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Impairment of investments: Investments are assessed for impairment at each reporting date. Any impairment losses or reversals of impairment losses are recognised immediately in profit or loss.

### 2. Directors' remuneration and employment

The Directors did not receive any emoluments during the current year or prior year from the Company but did receive remuneration through another group company. This remuneration was not recharged to the Company (2019: £nil), and the portion of time spent on the Company is not significant. The Company does not employ any staff.

### 3. Tax on profit

Current tax, including UK Corporation Tax and overseas tax, is included at amounts expected to be paid (or recovered) using the tax rates and laws that have been enacted or substantively enacted by the Statement of Financial Position date. Deferred tax is provided in respect of the tax effect of all timing differences that have originated but not reversed at the Statement of Financial Position date where transactions or events have occurred at the Statement of Financial Position date that result in an obligation to pay more tax or a right to pay less tax in the future. Deferred tax assets are recognised only to the extent that they are considered recoverable in the future. Deferred tax is measured at the tax rates that are expected to apply in the years in which the timing differences are expected to reverse. Deferred tax assets and liabilities have been recognised in these financial statements using the future Corporation Tax rates.
