Director

Company registration number: 05830601

The notes on pages 3 to 7 form an integral part of these financial statements.

THE ADDINGTON GOLF CLUB LIMITED

Notes to the Financial Statements for the Year Ended 30 April 2019

1 GENERAL INFORMATION

The company is a private company limited by share capital, incorporated in England and Wales.

The address of its registered office is:

Streete Court
Rooks Nest Park
Godstone
Surrey
RH9 8BY

The principal activity of the company is that of management of a golf club.

2 AUDIT REPORT

The Independent Auditor's Report was unqualified. The name of the Senior Statutory Auditor who signed the audit report on 4 December 2019 was Martin Widdowson, who signed for and on behalf of Brebners.

3 ACCOUNTING POLICIES

Statement of compliance

These financial statements have been prepared in accordance with Financial Reporting Standard 102 Section 1A - 'The Financial Reporting Standard applicable in the UK and Republic of Ireland' and the Companies Act 2006.

Basis of preparation

These financial statements have been prepared using the historical cost convention except any items disclosed in the accounting policies as being shown at fair value and are presented in sterling, which is the functional currency of the entity.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the company's activities.

Turnover represents members' club subscriptions receivable, green fees and other golfing and ancillary income receivable from members and visitors. Membership fees received in advance are released to the income statement over the relevant period. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

The company recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the company's activities.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a charge attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the reporting date in the countries where the company operates and generates taxable income.

THE ADDINGTON GOLF CLUB LIMITED

Notes to the Financial Statements for the Year Ended 30 April 2019

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Plant and machinery	20% straight line
Fixtures and fittings	25% straight line
Freehold buildings	2% straight line

Freehold land is not depreciated.

Freehold buildings are depreciated over their economic useful life at cost less estimated residual value. The estimated residual value is such that no material annual depreciation charge arises.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

The cost of finished goods and work in progress comprises direct materials and, where applicable, direct labour costs and those overheads that have been incurred in bringing the inventories to their present location and condition. At each reporting date, stocks are assessed for impairment. If stocks are impaired, the carrying amount is reduced to its selling price less costs to complete and sell; the impairment loss is recognised immediately in profit or loss.

THE ADDINGTON GOLF CLUB LIMITED

Notes to the Financial Statements for the Year Ended 30 April 2019

Borrowings

Interest-bearing borrowings are initially recorded at fair value, net of transaction costs. Interest-bearing borrowings are subsequently carried at amortised cost, with the difference between the proceeds, net of transaction costs, and the amount due on redemption being recognised as a charge to the Income Statement over the period of the relevant borrowing.

Interest expense is recognised on the basis of the effective interest method and is included in interest payable and similar charges.

Borrowings are classified as current liabilities unless the company has an unconditional right to defer settlement of the liability for at least twelve months after the reporting date.

Finance leases and hire purchase

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee.

Assets held under finance leases are recognised at the lower of their fair value at inception of the lease and the present value of the minimum lease payments. These assets are depreciated on a straight-line basis over the shorter of the useful life of the asset and the lease term. The corresponding liability to the lessor is included in the Statement of Financial Position as a finance lease obligation.

Lease payments are apportioned between finance costs in the Income Statement and reduction of the lease obligation so as to achieve a constant periodic rate of interest on the remaining balance of the liability.

Assets held under hire purchase contracts are capitalised at the lesser of fair value or present value of minimum lease payments in the statement of financial position. The present value of the minimum lease payments is calculated using the interest rate implicit in the lease. A corresponding liability is recognised at the same value in the statement of financial position. The asset is then depreciated over its useful life.

The minimum lease payments are apportioned between the finance charge recognised in the income statement and the reduction of the outstanding liability using the effective interest method. The finance charge in each period is allocated so as to produce a constant periodic rate of interest on the remaining balance of the liability.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.

4 STAFF NUMBERS

The average number of persons employed by the company during the year was 26 (2018 - 28).
