## Notes

*(Forming part of the financial statements)*

### 1. Accounting policies

Miller Maidenhead Limited (the "company") is a company limited by shares and incorporated and domiciled in the UK.

These company financial statements were prepared in accordance with Financial Reporting Standard 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland* ("FRS 102") as issued in August 2014. The presentation currency of these financial statements is sterling.

In the transition to FRS 102 from old UK GAAP, the company has made no measurement and recognition adjustments.

The company's parent undertaking, Miller Homes Holdings Limited includes the company in its consolidated financial statements. The consolidated financial statements of Miller Homes Holdings Limited are prepared in accordance with International Financial Reporting Standards as adopted by the EU and are available to the public and may be obtained from the address in note 10. In these financial statements, the company is considered to be a qualifying entity (for the purposes of this FRS) and has applied the exemptions available under FRS 102 in respect of the following disclosures:

- The reconciliation of the number of shares outstanding from the beginning to the end of the period has not been included a second time;
- The disclosures required by FRS 102.11 Basic Financial Instruments and FRS 102.12 Other Financial Instrument Issues in respect of financial instruments not falling within the fair value accounting rules of Paragraph 36(4) of Schedule 1;
- Cash Flow Statement and related notes; and
- Key Management Personnel compensation.

The accounting policies set out below have, unless otherwise stated, been applied consistently to all periods presented in these financial statements. On first time adoption of FRS 102, the company has not retrospectively changed its accounting under old UK GAAP for derecognition of financial assets and liabilities before the date of transition.

Judgements made by the directors, in the application of these accounting policies that have significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in note 9.

#### **Measurement convention**

The financial statements are prepared on the historical cost basis.

## **Notes** *(continued)*

### **1. Accounting policies** *(continued)*

#### ***Going concern***

It is the intention of the directors to wind up the company in the near future as the sale of all assets has been completed during the year to 31 December 2015. For this reason the directors' assessment is that the company is no longer a going concern and therefore, the financial statements have not been prepared on a going concern basis.

#### ***Basis of accounting***

As the company's results are consolidated within its ultimate parent company, The Miller Homes Group (UK) Limited, the company has taken advantage of the exemption contained in Financial Reporting Standard 102 section 33 and has therefore not disclosed transactions or balances with entities which form part of the group (or investees of the group qualifying as related parties).

#### ***Stocks and development work in progress***

Stocks are stated at the lower of cost and net realisable value. Net realisable value in relation to land and work in progress is assessed by taking account of estimated selling price less all estimated costs of completion.

Land purchased on deferred payment terms is recorded at fair value. Any difference between fair value and the amount which will ultimately be paid is charged as interest payable in the income statement over the deferral period.

The purchase and subsequent sale of part exchange properties is an activity undertaken in order to achieve the sale of a new property. As such, the activity is regarded as a mechanism for selling. Accordingly, impairments and gains and losses on the sale of part exchange properties are classified as a cost of sale, with the sales proceeds of part exchange properties not being included in turnover.

#### ***Turnover***

Turnover represents the amounts (excluding value added tax) derived from the sale of new houses and is based on the selling price for the unit, net of any cash incentives, and is recognised on legal completion and receipt of cash. Where cash incentives are given the full cash amount is deducted from turnover. Where properties are sold under a shared equity scheme, up to 25% of the value of the property is offered to the customer by way of an interest free loan from a fellow subsidiary undertaking. In recognising the initial sale of the properties sold under shared equity schemes, the company includes the relevant value in turnover and in balances with fellow subsidiary undertakings.

#### Taxation

Tax on the profit or loss for the year comprises current and deferred tax. Tax is recognised in the profit and loss account except to the extent that it relates to items recognised directly in equity or other comprehensive income, in which case it is recognised directly in equity or other comprehensive income.

Current tax is the expected tax payable or receivable on the taxable income or loss for the year, using tax rates enacted or substantively enacted at the balance sheet date, and any adjustment to tax payable in respect of previous years.

Deferred tax is provided on timing differences which arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in the financial statements. Deferred tax is not recognised on permanent differences arising because certain types of income or expense are non-taxable or are disallowable for tax or because certain tax charges or allowances are greater or smaller than the corresponding income or expense.

Deferred tax is measured at the tax rate that is expected to apply to the reversal of the related difference, using tax rates enacted or substantively enacted at the balance sheet date.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

### 2. Expenses and auditor's remuneration

Included in the profit and loss are the following:

	2015 £	2014 £
<i>Auditor's remuneration:</i>		
Audit of these financial statements	-	2,800
<i>Amounts receivable by the company's auditors and their associates in respect of:</i>		
Other tax advisory services	-	700
	<hr/>	<hr/>

Auditor remuneration was borne by Miller Homes Limited, a fellow subsidiary company, during the year.

The company has no employees (2014: nil). The directors did not receive any remuneration from the company during the year (2014: £nil).

## Notes (continued)

### 9. Accounting estimates and judgements

#### *Key sources of estimation uncertainty*

##### *Carrying value of inventories*

Inventories of land and development work in progress are stated at the lower of cost and net realisable value. Due to the nature of development activity and in particular, the length of the development cycle, the company has to allocate site wide development costs such as infrastructure between units being built and/or completed in the current year and those for future years. These estimates are reflected in the margin recognised on developments where unsold plots remain, and in the carrying value of land and work in progress. There is a degree of uncertainty in making such estimates.

The company has established internal controls that are designed to ensure an effective assessment is made of inventory carrying values and the costs to complete on developments. The company reviews the carrying value of its inventories on a quarterly basis with these reviews performed on a site by site basis using forecast sales prices and anticipated costs to complete based on a combination of the specific trading conditions of each site in addition to future anticipated general market conditions.

##### *Critical accounting judgements in applying the company's accounting policies*

The company believes that the major judgement applied is the use of the going concern principle which supports the valuation of assets included in the Balance sheet.

### 10. Immediate and ultimate parent company

The company's immediate parent company is Miller Homes Holdings Limited and its ultimate parent company is The Miller Homes Group (UK) Limited. Both companies are registered in Scotland and incorporated in Great Britain.

The largest group in which the results of the company are consolidated is that headed by The Miller Homes Group (UK) Limited. The smallest group in which they are consolidated into is that headed by Miller Homes Holdings Limited. The consolidated financial statements of these groups are available to the public and may be obtained from The Registrar of Companies, Companies House, 4<sup>th</sup> Floor, Edinburgh Quay 2, 139 Fountainbridge, Edinburgh, EH3 9FF.

At the date of approval of these financial statements the company was ultimately controlled by GSO Capital Partners LP, a division of the Blackstone Group LP.
