NOTES TO THE FINANCIAL STATEMENTS
for the Year Ended 31 December 2021

1. STATUTORY INFORMATION

The company is a private company limited by guarantee, registered in England and Wales. The address of the registered office is 1 Wolsey Road, East Molesey, Surrey, KT8 9EL, United Kingdom.
The presentational currency is Pound Sterling £

2. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006.

3. ACCOUNTING POLICIES

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention.

Revenue recognition

Turnover is measured at the fair value of the consideration received or receivable for goods supplied and services rendered, net of discounts and Value Added Tax.

Membership Revenue is recognised with reference to time as the period of membership so that the amount of revenue reflects the actual right to consideration by reference to the period of membership covered. Membership received in excess of the relevant amount of revenue is deferred to future periods to which it relates and included in deferred income within creditors.

Tangible fixed assets

Depreciation is provided at the following annual rates in order to write off each asset over its estimated useful life.

Long leasehold	- in accordance with the property
Fixtures and fittings	- 25% on cost
Computer equipment	- 25% on cost

Income tax

The taxation expense represents the aggregate amount of current and deferred tax recognised in the reporting period. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, tax is recognised in other comprehensive income or directly in equity, respectively.

Current tax is recognised on taxable profit for the current and past periods. Current tax is measured at the amounts of tax expected to pay or recover using the tax rates and laws that have been enacted or substantively enacted at the reporting date.

Impairment

Assets not measured at fair value are reviewed for any indication that the asset may be impaired at each balance sheet date. If such indication exists, the recoverable amount of the asset, or the asset's cash generating unit, is estimated and compared to the carrying amount. Where the carrying amount exceeds its recoverable amount, an impairment loss is recognised in profit or loss unless the asset is carried at a revalued amount where the impairment loss is a revaluation decrease.

Pension costs and other post-retirement benefits

The company operates a defined contribution pension scheme. Contributions payable to the company's pension scheme are charged to profit or loss in the period to which they relate.

Creditors less than 1 year

Amounts falling due within one year are measured at transaction price. Trade Creditors are obligations to pay for goods and services that have been acquired in the ordinary course of business. Other creditors include interest bearing loans. These are classified as current liabilities as payment is due in one year or less.

Creditors greater than 1 year

Amounts falling due after one year are measured at transaction price. Other creditors include interest bearing loans that are classified as non current liabilities as payment is due in more than one year.

Operating leases

Lease payments are recognised as an expense over the lease term on a straight-line basis. The aggregate benefit of lease incentives is recognised as a reduction to expense over the lease term, on a straight-line basis.

4. EMPLOYEES AND DIRECTORS

The average number of employees during the year was 8 (2020 - 6).
