**Significant judgements and estimates**

In the application of the company's accounting policies, which are described in note 3, management is required to make judgements estimates and assumptions about the carrying value of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The Key sources of estimation uncertainty that have a significant effect on the amounts recognised in the financial statements are described below.
