DIRECTORS' REPORT FOR THE YEAR ENDED 31 DECEMBER 2010

The directors present their report and the financial statements for the year ended 31 December 2010

Statement of directors' responsibilities

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law the directors have elected to prepare the financial statements in accordance with United Kingdom Generally Accepted Accounting Practice (United Kingdom Accounting Standards and applicable law). Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the company and of the profit or loss of the company for that period. In preparing these financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently.
- make judgments and estimates that are reasonable and prudent,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Review of business

The results for the period and financial position of the company are shown in the attached financial statements and are discussed further in the business review below

The period under review reflects the challenging nature of the business environment in 2010 and the investing in Intellectual Property to enhance Axispoint's service offerings

The acquisition of new business during the period under review fell below expectation due to the following core reasons

- Slower uptake of IT Services / Network Infrastructure Business

The directors have taken the following actions to ensure that the company will offer an improved financial position for 2011

- We have initiated a review of costs including staff and third party costs
- We have focused our efforts on the profitable and high growth Application Services business
