1 Accounting policies

Basis of preparation

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

The accounts have been prepared on the going concern basis. Due to the financial position of the company, the validity of this basis is conditional upon the continued support of the director and sole shareholder of the company and its bankers.

The director of the company has confirmed that he will not demand payment of any amount due to him or payment of any amounts due to the related companies, of which he is also a director, for at least the next 12 months from the date of approval of these accounts. The director is not, however, legally bound by these assurances.

Should the company be unable to continue trading as a result of the withdrawal of support from the director or its bankers, adjustments would have to be made to reduce the value of the assets to their recoverable amounts, to provide for any further liability which might arise and to reclassify fixed assets and long term liabilities as current assets and liabilities.

Turnover

Turnover represents rents receivable from leasing investment properties.

Deferred taxation

No provision is made for deferred taxation resulting from timing differences between the recognition of gains and losses in the accounts and their recognition for tax purposes.

Going concern

The director is of the opinion that the company will continue to trade as a going concern and is confident that the shareholder will continue to support the company and provide it with adequate funds where necessary to enable it to meet its debts as they fall due in the foreseeable future.

Finance costs

The costs of obtaining finance are written off in the year in which they are incurred.
