NOTES TO THE FINANCIAL STATEMENTS

FOR THE YEAR ENDED 31 MARCH 2016

1 Accounting policies

1.1 Accounting convention

The financial statements have been prepared under the historical cost convention in accordance with FRS 102 Section 1A - The Financial Reporting Standard applicable in the UK and Republic of Ireland and the Companies Act 2006

1.2 Going concern

At 31 March 2016, the company had net current liabilities of £154,949 (2015 £154,949) including a loan from Home From Home Care Limited, of £153,607 (2015 £153,226)

The directors of Home From Home Care Limited have confirmed that this loan will continue to be made available

1.3 Turnover

Turnover represents charges receivable for the provision of accommodation. The supply is outside the scope of Value Added Tax

1.4 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases

Freehold land and buildings	Nil
-----------------------------	-----

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is credited or charged to profit or loss

1.5 Impairment of fixed assets

At each reporting period end date, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any)

1.6 Taxation

The tax expense represents the sum of the tax currently payable and deferred tax

Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from net profit as reported in the profit and loss account because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The company's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the reporting end date
