The Heart Research Institute (UK)

Trustees' Annual Report

For the year ended 31 December 2018

Structure, governance and management

Governing document

The Heart Research Institute (UK) is a company limited by guarantee and is governed by its Memorandum and Articles, dated 14 September 2006. It is also registered as a charity with the Charity Commission for England and Wales (No. 1116918) and, with effect from 1 March 2012, the Scottish Charity Regulator (SC042984).

Appointment of trustees

As set out in the Articles of Association trustees are appointed by a resolution of the members for a renewable term of three years. The charity shall have at least three Trustees. The charity shall have at least three Trustees who are not trustees and/or employees of The Heart Research Institute Limited.

Trustee induction and training

The charity has espoused a policy of providing new trustees with whatever information and assistance is necessary to help them fulfill their responsibilities under both the Companies Act 2006 and their roles under relevant legislation and regulations affecting the organisation as a charity. The procedures adopted include providing new trustees with a copy of The Essential Trustee: what you need to know supplied by the Charity Commission for England and Wales which describes the roles and responsibilities of trustees, as well as a copy of the company's constitution. The trustees are also encouraged to visit the website of the charity commission for regular updates or changes to legislation and guidelines. Ongoing information updates along with regular communication between The Heart Research Institute Ltd management and the trustee ensures knowledge and information currency.

Organisation

The Heart Research Institute (UK) and The Heart Research Institute Ltd have entered into a 'Services Agreement' to record the basis on which they will work together to further the charities' charitable objects and to outline the services provided by The Heart Research Institute Ltd to The Heart Research Institute (UK).

Under the Services Agreement, the day-to-day fundraising and administrative activities of the charity have been delegated to the management staff of The Heart Research Institute Ltd. These staff members report to a Director of the Institute who, in turn, is subject to the Board of Governors of the Australian company. However, any arrangements and activities affecting the UK charity are also subject to the oversight and review of the board of trustees of The Heart Research Institute (UK). In particular, new fundraising programs require the specific approval of the trustees who will meet as a board to consider and vote on such proposals.

Related Parties

The charity is a wholly owned subsidiary of The Heart Research Institute Ltd, an Australian charity which runs heart research programmes and which has built up expertise in the fields of both running a charity and fundraising in this area. The objects of the charity (as outlined in the following section) are compatible with The Heart Research Institute Ltd and both are committed to the promotion and support of research and the advancement of education in this area. The Heart Research Institute Ltd assists the charity by providing it with the services and support it needs to successfully operate and raise funds in order to support heart research and educate the public.

The Heart Research Institute (UK)

Trustees' Annual Report

For the year ended 31 December 2018

The Heart Research Institute has a presence in Scotland and has made significant findings that have changed the way we live with and treat Scotland's number one killer. Our scientists are working across a number of research areas to identify factors that contribute to an increased risk of heart disease. Understanding the underlying causes of heart disease is the key to finding a solution.

Risk management

The major risks to which the charity is exposed relate in particular to the commitments made to outside parties who undertake the various fundraising campaigns for the charity. There can be considerable set-up costs involved in new fundraising campaigns, which means there is a delay before a particular campaign realises a surplus. Once the trustees have approved the new campaign, they subsequently receive regular reports of its progress and are kept apprised of any budget irregularities that the campaign may be facing. Restrictions on further commitments can be instituted quickly and, in addition, a request that the outside contractor comply with specific guidelines to keep the program contained can also be implemented efficiently. The trustees also require that safeguards be incorporated into legal agreements with the fundraising contractors to limit the risk exposure of the charity.

Objectives and activities

The Heart Research Institute has four core objectives:

- To investigate mechanisms contributing to the pathogenesis of cardiovascular disease
- To develop new ways to detect symptoms of cardiovascular disease before it leads to clinical problems
- To develop new treatments which can reverse the development of heart disease
- To prevent individuals developing cardiovascular disease in the future

The reason the charity and its parent company are focusing mainly on cardiovascular disease is because this is the major cause of death in the world, a phenomena that is also increasing in third-world countries. However, research into the origins of such disease spans many years and requires the services of highly qualified scientists, as well as the usage of expensive technology. That is why a major activity of the charity and its parent is fundraising, because any funding obtained through competitive grants for specific research projects and infrastructure support from governments or other bodies is insufficient to cover all the costs involved. The charity and its parent have a long-term aim of contributing to a significant reduction in cardiovascular disease, but recognise that eventual success in this regard means extensive investment in research here and now.

The charity's main objectives for the year ended 31 December 2018 were to determine the best distribution of funds raised to assist with meeting its objectives and focus on further development of the lottery and monthly pledge programs. The strategy for achieving these objectives was to maintain arrangements with reputable contractors well experienced in conducting lotteries and monthly pledge programs in the UK. Significant activities that contributed to the achievement of these objectives involved the negotiation and resolution of operational procedures, and the recording and processing of resultant transactions.

The trustees have given due consideration to the Charity Commission published guidance on the operation of the public benefit requirement.

The Heart Research Institute (UK)

Trustees' Annual Report

For the year ended 31 December 2018

Achievements and performance

The Heart Research Institute (UK) transfers funds to support the front line researchers and purchasing equipment from the UK or Europe so that we do not incur costs due to exchange rates.

Financial

The net incoming resources for the year ended 31 December 2018 amounted to £717,767 (2017: £653,023 incoming). The Trustees are confident of the future success of projected activities for 2018 and beyond and that these will result in the building of accumulated surpluses. In addition, the charity enjoys the on-going financial support of its parent company and the significant experience of its management to ensure its future success.

The principal financial management policies adopted in the year include the following:

Revenue recognition

Revenue derived from fundraising efforts is recognised when probable.

Reserves

The charity's reserves, together with sufficient funds in bank accounts and on deposit, cover all current liabilities. A portion of these reserves are used to fund the HRI International Fellowship scheme and the procurement of research equipment.

Provisions

The charity recognises by way of provision any anticipated outgoings relevant to the year under review for which it may have an obligation, whether legal or constructive.

Grantmaking policy

The charity awards grants to be used in accordance with its charitable objectives:

Principal funding sources

Principal funding sources during the year were from the generation of revenue from the lottery and monthly pledge campaigns. Expenditure during the year under review has supported the key objectives of the charity by firmly establishing a viable basis for the future success of the lottery and pledge campaigns.

Investment powers and policy

Under the Memorandum and Articles of Association, to further its objects the charity has the power to invest any funds not immediately required for its objects in or upon any investments, securities or property.

Plans for future periods

The charity will continue to support Post Doctorate Fellowships for young and emerging UK researchers and collaborate with The Heart Research Institute Australia in funding specialist equipment and research so we can understand more about, and to find a cure for cardiovascular diseases, which are the number one killer of people worldwide.

While uncertainty remains about the terms of the future relationship between the UK and the EU, it is important that strategic reports clearly provide the information necessary to enable users to form views on future prospects. In short, the effect of foreseeable outcomes on the business model and strategy should not come as a surprise to users. At the same time, users will expect clarity on governance and mitigating actions. Whilst there are no major strategic changes to report, the strategy discussion could connect with the Brexit-related disclosures that may affect future strategy.

The Heart Research Institute (UK)

Trustees' Annual Report (continued)

For the year ended 31 December 2018

Statement of Trustees' responsibilities in respect of the trustees' annual report and the financial statements

The trustees are responsible for preparing the Trustees' Annual Report and the financial statements in accordance with applicable law and regulations.

Company and charity law requires the trustees to prepare financial statements for each financial year. Under that law they have are required to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*.

Under company law the trustees must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the charitable company and of the excess of income over expenditure for that period. In preparing these financial statements, the trustees are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements; and
- assess the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

The trustees are responsible for keeping adequate and proper accounting records that are sufficient to show and explain the charitable company's transactions and disclose with reasonable accuracy at any time the financial position of the charitable company and enable them to ensure that the financial statements comply with the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005, and regulation 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended). They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the charitable company and to prevent and detect fraud and other irregularities.

Auditor

KPMG LLP have been appointed under section 44(1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and section 487(1) of the Companies Act 2006.

Each of the persons who is a trustee at the date of approval of this report confirms that:

- each trustee has taken all steps that they ought to have taken as a trustee to make themselves aware of any relevant audit information and to establish that the charity's auditor is aware of that information; and
- so far as each trustee is aware, there is no relevant audit information of which the charity's auditor is unaware;

Small company provisions

This report has been prepared in accordance with the provisions applicable to companies entitled to the small companies exemption.

Signed on behalf of the trustees

Antony Pollitt
Chairman
Director/Trustee

17 April 2019

Independent auditor's report to the trustees and members of The Heart Research Institute (UK) Limited

Opinion

We have audited the financial statements of Heart Research Institute (UK) Limited ("the charitable company") for the year ended 31 December 2018 which comprise the Statement of financial activities, Balance Sheet, Statement of cash flows and related notes, including the accounting policies in note 1.

In our opinion the financial statements:

- give a true and fair view of the state of the charitable company's affairs as at 31 December 2018 and of its incoming resources and application of resources, including its income and expenditure, for the year then ended;
- have been properly prepared in accordance with UK accounting standards, including FRS 102 *The Financial Reporting Standard applicable in the UK and Republic of Ireland*; and
- have been prepared in accordance with the requirements of the Companies Act 2006, the Charities and Trustee Investment (Scotland) Act 2005, and regulation 8 of the Charities Accounts (Scotland) Regulations 2006 (as amended).

Basis for opinion

We have been appointed as auditor under section 44 (1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and under the Companies Act 2006 and report in accordance with regulations made under those Acts.

We conducted our audit in accordance with International Standards on Auditing (UK) ("ISAs (UK)") and applicable law. Our responsibilities are described below. We have fulfilled our ethical responsibilities under, and are independent of the charitable company in accordance with, UK ethical requirements including the FRC Ethical Standard. We believe that the audit evidence we have obtained is a sufficient and appropriate basis for our opinion.

Going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least a year from the date of approval of the financial statements. We have nothing to report in these respects.

Other information

The directors are responsible for the other information, which comprises the Trustees' Annual Report. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work:

- we have not identified material misstatements in the other information;
- in our opinion the information given in the Trustees' Annual Report, which constitutes [the strategic report and the directors' report for the financial year, is consistent with the financial statements; and
- in our opinion that report has been prepared in accordance with the Companies Act 2006.

Matters on which we are required to report by exception

Under the Companies Act 2006 and the Charities Accounts (Scotland) Regulations 2006 (as amended), we are required to report to you if in our opinion:

- the charitable company has not kept adequate and proper accounting records or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of trustees' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit; or
- the trustees were not entitled to take advantage of the small companies exemption from the requirement to prepare a strategic report.

We have nothing to report in these respects.

Trustees' responsibilities

As explained more fully in their statement set out on page 6, the trustees (who are also the directors of the charitable company for the purposes of company law) are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the charitable company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the charitable company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue our opinion in an auditor's report. Reasonable assurance is a high level of assurance, but does not guarantee that an audit conducted in accordance with ISAs (UK) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

A fuller description of our responsibilities is provided on the FRC's website at www.frc.org.uk/auditorsresponsibilities.

The purpose of our audit work and to whom we owe our responsibilities

This report is made solely to the charitable company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006, and to the charity's trustees, as a body, in accordance with section 44 (1)(c) of the Charities and Trustee Investment (Scotland) Act 2005 and regulation 10 of the Charities Accounts (Scotland) Regulations 2006. Our audit work has been undertaken so that we might state to the charitable company's members and the charity's trustees those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the charity, its members as a body and its trustees as a body, for our audit work, for this report or for the opinions we have formed.

The Heart Research Institute (UK)

Notes to the financial statements

For the year ended 31 December 2018

1 Accounting policies

Basis of accounting

The financial statements have been prepared in accordance with Accounting and Reporting by Charities: Statement of Recommended Practice applicable to charities preparing their accounts in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) (effective 1 January 2015) - (Charities SORP (FRS 102)), the Financial Reporting Standard applicable in the UK and Republic of Ireland (FRS 102) and the Companies Act 2006.

The Heart Research Institute (UK) meets the definition of a public benefit entity under FRS 102. Assets and liabilities are initially recognised at historical cost or transaction value unless otherwise stated in the relevant accounting policy note(s).

Going concern

The charity has generated sufficient financial resources from its activities to allow the Trustees to believe that the charity is well placed to manage its business risks successfully in the current economic climate. Accordingly, the Trustees have a reasonable expectation that the charity has adequate resources to continue in existence for the foreseeable future, thus they continue to adopt the going concern basis of accounting in preparing the financial statements.

Funds structure

Funds held by the charity are unrestricted, these are funds which are available for use at the discretion of the trustees in accordance with the charitable objects.

Incoming resources

All incoming resources are included in the statement of financial activities when it is probable that the charity will become entitled to the income and the amount can be quantified with reasonable accuracy. The following specific policies are applied to particular categories of income:

Voluntary income

Donations generated through the pledge program activity are included within incoming resources when probable.

Activities for generating funds

Income from the lottery activities is included within incoming resources when probable.

Interest receivable

Interest is included in the statement of financial activities when probable by the charity.

Resources expended

Resources expended are recognised in the statement of financial activities when a liability is incurred. All expenditure is accounted for on an accruals basis and has been classified under headings that aggregate all costs related to the activity.

Costs of generating voluntary income include the expenditure associated with the activities undertaken by the charity to generate such income, such as the pledge programme.

Fundraising expenditure includes expenditure associated with the setting up and running the lottery activities undertaken by the charity and consists of the direct costs relating to these activities.

Charitable activities comprise expenditure incurred in working towards the objectives of the charity.

An allocation of 20% of both the pledge program recruitment costs and the calling costs of the lottery activity are considered by the charity to be an appropriate percentage which represent increasing the awareness of the charity and its activities.

The Heart Research Institute (UK)

Notes to the financial statements

For the year ended 31 December 2018

Grants payable are included the statement of financial activities when approved by the trustees.

Governance costs include expenditure incurred in the governance of the charity and its assets. These are primarily associated with constitutional and statutory requirements.

Taxation

The company is a charity within the meaning of the taxes acts and it is therefore eligible to claim certain exemptions to corporation tax and capital gains tax. As a consequence no taxation arises for the year.

The Heart Research Institute (UK)
Notes to the financial statements (continued)
For the year ended 31 December 2018

2 Incoming resources

Incoming resources, derived from the activities of the charitable company, attributable to geographical areas outside of the United Kingdom amounted to 1% (2017: 1%) for the year.

3 Voluntary income

	Unrestricted Funds	Total Funds 2018	Total Funds 2017
	£	£	£
General donations	1,679	1,679	10,023
