Strategic Report

The directors present their report and financial statements for Rome PIK Holdco Limited ('the company') for the year ended 31 May 2014.

Principal activities and review of the business

Rome PIK Holdco Limited is an intermediate parent undertaking and holds the share capital of Rome Pikco Limited ('Pikco'). Due to its principal activity of being a parent undertaking, the directors do not consider specific key performance indicators to exist. The company is one of a group of companies set up to facilitate the acquisition of Caffè Nero Group Limited in 2007 by its ultimate parent, Saratoga Limited. Treasury and risk management

The company's ultimate shareholders hold Preferred Equity Certificates in the company with a nominal value of £91.5m. These liabilities and interest charges are passed down the enlarged group in the form of deep discounted bonds and intercompany loans, and are reflected in the company's balance sheet.

Capital management

Capital comprises shareholders equity and financing from the company's parent undertakings. The company's capital management is impacted by the capital management decisions made by its various parent undertakings. The company has no externally imposed capital restrictions.

Principal risks and uncertainties

The directors continually identify, evaluate and manage material risks and uncertainties faced by the company, which could adversely affect the company's business, operating results and financial condition. The directors consider the principal risks and uncertainties facing the business to comprise the following:

Company specific risks:

- A breakdown in internal control through fraud or error.

The company continually monitors exposure to this risk and has developed policies and appointed qualified personnel to mitigate its exposure.

Broader sector or macroeconomic risks:

- The loss of key personnel or the failure to manage succession planning.

BJ Price
Secretary
10 February 2015

Directors' Report

Results and dividends

The company generated a profit before taxation for the year of £0.4m (2013 – profit before taxation of £0.2m). No dividend is proposed (2013 – nil).

Directors

The directors who served the company during the year were as follows:

G W Ford

B J Price

Going concern

The financial statements have been prepared on a going concern basis which assumes that the company will be able to meet its liabilities as they fall due for the foreseeable future.

The company's immediate parent undertaking, Rome Topco Unlimited, has confirmed to the directors that it will not seek repayment of amounts owed totalling £161.6m until such time as the company is able to meet these liabilities. The company is part of a group of companies that are dependent on the ongoing trading and financing activities of Rome Pikco Limited, the company's 100% subsidiary ('the Pikco group').

The directors of the Pikco group have produced cash flow forecasts that indicate that the Pikco group will continue as a going concern for the foreseeable future, which is no less than 12 months from the date of approving these financial statements. In making this assessment, the directors have taken into account the ongoing difficult macro-economic and trading environment prevailing in the UK and have reflected this in their assumptions on the Pikco group's growth prospects. The directors remain confident their forecasts are achievable.

Having made due and careful enquiry, the directors consider that there are no material uncertainties that may cast doubt over the Pikco group's ability to continue as a going concern and therefore apply the same conclusion to the company.

Disclosure of information to the auditors

So far as each person who was a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made enquiries of fellow directors and the company's auditor, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of that information.

Auditors

In accordance with section 485 of the Companies Act 2006, a resolution is to be proposed at the Annual General Meeting for reappointment of Ernst & Young LLP as auditors.

By order of the Board

BJ Price

Secretary

10 February 2015

Statement of directors' responsibilities

The directors are responsible for preparing the annual report and the financial statements in accordance with applicable United Kingdom law and regulations. Company law requires the directors to prepare financial statements for each financial year. Under that law, the directors have elected to prepare financial statements under International Financial Reporting Standards as adopted by the European Union.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and the group and of the profit or loss of the company for that period. In preparing the financial statements the directors are required to:

- present fairly the financial position, financial performance and cash flows of the Group and the company;
- select suitable accounting policies in accordance with IAS 8: *Accounting Policies, Changes in Accounting Estimates and Errors* and then apply them consistently;
- present information, including accounting policies, in a manner that provides relevant, reliable, comparable and understandable information;
- provide additional disclosures when compliance with the specific requirements in IFRSs as adopted by the European Union is insufficient to enable users to understand the impact of particular transactions, other events and conditions on the company and Group's financial position and financial performance;
- state whether the financial statements have been prepared in accordance with IFRSs as adopted by the European Union, subject to any material departures disclosed and explained in the financial statements; and
- make judgements that are reasonable.

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the company and Group's transactions and disclose with reasonable accuracy at any time the financial position of the company and enable them to ensure that the company financial statements comply with the Companies Act 2006. They are also responsible for safeguarding the assets of the company and Group and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Independent auditors' report

to the members of Rome PIK Holdco Limited

We have audited the financial statements of Rome PIK Holdco Limited for the year ended 31 May 2014 which comprise the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Equity and the related notes 1 to 10. The financial reporting framework that has been applied in their preparation is applicable law and International Financial Reporting Standards (IFRSs) as adopted by the European Union.

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members as a body, for our audit work, for this report, or for the opinions we have formed.

Respective responsibilities of directors and auditor

As explained more fully in the Directors' Responsibilities Statement set out on pages 4, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit and express an opinion on the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's Ethical Standards for Auditors.

Scope of the audit of the financial statements

An audit involves obtaining evidence about the amounts and disclosures in the financial statements sufficient to give reasonable assurance that the financial statements are free from material misstatement, whether caused by fraud or error. This includes an assessment of: whether the accounting policies are appropriate to the company's circumstances and have been consistently applied and adequately disclosed; the reasonableness of significant accounting estimates made by the directors; and the overall presentation of the financial statements. In addition, we read all the financial and non-financial information in the report and financial statements to identify material inconsistencies with the audited financial statements and to identify any information that is apparently materially incorrect based on, or materially inconsistent with, the knowledge acquired by us during the course of performing the audit. If we become aware of any apparent material misstatements or inconsistencies we consider the implications for our report.

Opinion on the financial statements

In our opinion the financial statements:

- give a true and fair view of the state of the company's affairs as at 31 May 2014 and of its profit for the year then ended;
- have been properly prepared in accordance with IFRSs as adopted by the European Union; and
- have been prepared in accordance with the requirements of the Companies Act 2006.

Opinion on other matter prescribed by the Companies Act 2006

In our opinion the information given in the Strategic Report and Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

Independent auditors' report

to the members of Rome PIK Holdco Limited

Matters on which we are required to report by exception

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion:

- adequate accounting records have not been kept, or returns adequate for our audit have not been received from branches not visited by us; or
- the financial statements are not in agreement with the accounting records and returns; or
- certain disclosures of directors' remuneration specified by law are not made; or
- we have not received all the information and explanations we require for our audit.

Notes to the financial statements

at 31 May 2014

1. Accounting policies

Authorisation of financial statements and statement of compliance with IFRS

Rome PIK Holdco Limited is a private limited company incorporated and domiciled in England and Wales.

The financial statements have been prepared in accordance with International Financial Reporting Standards adopted by the European Union as applicable for the year ended 31 May 2014 applied in accordance with the provisions of the Companies Act 2006.

These financial statements have been prepared for the individual company only. The company has taken advantage of the exemption available under section 400 of the Companies Act 2006 not to prepare group financial statements as the results of the company are included in the consolidated financial statements of an intermediate parent undertaking and are publicly available (note 10).

The company's transactions have been funded by another group company and the company does not have a bank account. Accordingly, the company had no cash flows during the year and no statement of cash flows is presented.

Going concern

The financial statements have been prepared on a going concern basis which assumes that the company will be able to meet its liabilities as they fall due for the foreseeable future.

The company's immediate parent undertaking, Rome Topco Unlimited, has confirmed to the directors that it will not seek repayment of amounts owed totalling £161.6m until such time as the company is able to meet these liabilities. The company is part of a group of companies that are dependent on the ongoing trading and financing activities of Rome Pikco Limited, the company's 100% subsidiary ('the Pikco group').

The directors of the Pikco group have produced cash flow forecasts that indicate that the Pikco group will continue as a going concern for the foreseeable future, which is no less than 12 months from the date of approving these financial statements. In making this assessment, the directors have taken into account the ongoing difficult macro-economic and trading environment prevailing in the UK and have reflected this in their assumptions on the Pikco group's growth prospects. The directors remain confident their forecasts are achievable.

Having made due and careful enquiry, the directors consider that there are no material uncertainties that may cast doubt over the Pikco group's ability to continue as a going concern and therefore apply the same conclusion to the company.

Key sources of estimation uncertainty

The preparation of financial statements requires management to make estimates and assumptions that affect the amounts reported for assets and liabilities at the balance sheet date and the amounts reported for revenues and expenses during the year. The nature of estimation means that actual outcomes could differ from those estimates.

The key sources of estimation uncertainty that have a significant risk of causing material adjustment to the carrying amount of assets and liabilities within the next financial year are the measurement and impairment of investments and the recoverability of intra-group receivables. The Company identifies whether investments are impaired on an annual basis, and this requires an assessment of indicators of impairment and an estimation of the value in use of the group of cash generating units. This involves estimation of future cash flows and choosing a suitable discount rate. The recoverability of intra-group receivables is evaluated through its assessment of the ability of the debtor to pay in the context of the wider group's trading and capital structure.

Basis of preparation

The financial statements are presented in Sterling and all values are rounded to the nearest thousand (£000) except as otherwise indicated.

Notes to the financial statements

at 31 May 2014

1. Accounting policies (continued)

Investments

Non-current asset investments are stated at cost less provision for impairment. The carrying value of fixed asset investments is reviewed for impairment if events or changes in circumstances indicate the carrying value may not be recoverable.

Financial assets

Financial assets are recognised when the company becomes party to the contracts that give rise to them and are classified as financial assets at fair value through profit or loss; loans and receivables; held to maturity investments; or as available for sale financial assets, as appropriate. The company determines the classification of its financial assets at initial recognition and re-evaluates this designation at each financial year end. When financial assets are recognised initially, they are measured at fair value, being the transaction price, plus in the case of financial assets not a fair value through the profit or loss, directly attributable transaction costs.

All regular way purchases and sales of financial assets are recognised on the trade date, being the date that the company commits to purchase or sell the asset. Regular way transactions require delivery of assets within the timeframe generally established by regulation or convention in the market place. The subsequent measurement of financial assets depends on their classification, as follows:

Held to maturity investments

Non derivative financial assets with fixed or determinable payments and fixed maturity are classified as held to maturity when the company has the positive intention and ability to hold to maturity. Held to maturity investments are carried at amortised cost using the effective interest method. Gains and losses are recognised in income when the investments are derecognised or impaired, as well as through the amortisation process. Investments intended to be held for an undefined period are not included in the statement of comprehensive income.

Loans and receivables

Loans and receivables are non-derivative financial assets that are designated as such or are not classified in any other category.

Assets carried at cost

If there is objective evidence that an impairment loss on an unquoted equity instrument that is not carried at fair value because its fair value cannot be reliably measured, or on a derivative asset that is linked to and must be settled by delivery of such an unquoted equity instrument, has been incurred, the amount of the loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the current market rate of return for a similar financial asset.

Available-for-sale financial assets

After initial recognition, available for sale financial assets are measured at fair value with gains or losses being recognised as a separate component of equity until the investment is derecognised or until the investment is determined to be impaired at which time the cumulative gain or loss previously reported in equity is included in the statement of comprehensive income. For available-for-sale financial investments, the company assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

Notes to the financial statements

at 31 May 2014

1. Accounting policies (continued)

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost, where 'significant' is estimated to be around 20% of the original cost of the investment and 'prolonged' is more than 12 months. Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the statement of comprehensive income – is removed from other comprehensive income and recognised in the statement of comprehensive income. Impairment losses on equity investments are not reversed through the statement of comprehensive income, increases in their fair value after impairment are recognised directly in other comprehensive income.

Impairment of financial assets

The company assesses at each balance sheet date whether a financial asset or group of financial assets is impaired.

Income taxes

Current tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on tax rates and laws that are enacted or substantively enacted at the balance sheet date.

Deferred tax is recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements, with the following exceptions:

- in respect of taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, where the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future; and
- deferred tax assets are recognised only to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, carried forward tax credits or tax losses can be utilised.

Deferred tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply when the related asset is realised or liability is settled, based on tax rates and laws enacted or substantively enacted at the balance sheet date.

The carrying amount of deferred tax assets is reviewed at each balance sheet date. Deferred tax assets and liabilities are offset, only if a legally enforceable right exists to set off current tax assets against current tax liabilities, the deferred taxes relate to the same taxation authority and that authority permits the company to make a single net payment.

Capital instruments

Ordinary shares are classified as equity instruments. Other instruments are classified as liabilities if they contain an obligation to transfer economic benefits and if not they are included in equity.

Derecognition of financial assets and liabilities

A financial asset or liability is generally derecognised when the contract that gives rise to it is settled, sold, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, such that the difference in the respective carrying amounts together with any costs or fees incurred are recognised in profit or loss.

Notes to the financial statements

at 31 May 2014

1. Accounting policies (continued)

New standards and interpretations

The International Accounting Standards Board ('IASB') have issued a number of standards with an effective date after the date of approval of these financial statements that have not yet been adopted by the company. Those that are considered to be applicable to the company are listed below:

<i>International Accounting Standards (IAS/IFRS/IFRIC)</i>		<i>Effective date</i>
IFRS 9	Financial Instruments: Classification and Measurement	1 January 2015
IFRS 12	Disclosure of Interests in Other Entities	1 January 2014
IAS 32	Amendment - offsetting of financial assets and financial liabilities	1 January 2014
IFRS 9	Financial Instruments: Classification and Measurement	1 January 2015

The effective dates stated here are those given in the original IASB standards. As the Company prepares its financial statements in accordance with IFRS as adopted by the European Union, the application of new standards will be subject to the standards having been endorsed for use in the EU via the EU Endorsement mechanism. In the majority of cases this will result in an effective date consistent with that given in the original standard or interpretation but the need for endorsement restricts the company's discretion to early adopt standards.

The directors do not anticipate that the adoption of the standards will have a material impact on the company's financial statements in the period of initial application.

2. Operating profit

Auditors' remuneration for 2013 and 2014 has been met by another group company.

No remuneration was paid or is payable to the directors in their capacity as directors of the company (2013 – nil). The directors received remuneration from a fellow group undertaking of £718,772 in respect of services to the group. Total remuneration paid by the enlarged group to directors of the company (including pension scheme contributions) was £718,772 (2013 – £631,574). It is not possible to identify the proportion of these remunerations that relate to services to this company.

Notes to the financial statements

at 31 May 2014

3. Income tax

There is no tax charge for the year ending 31 May 2014 (2013 – nil). [] before tax for the year multiplied by the standard rate of corporation tax in the UK reconciles to the tax charge as follows:

	2014 £000	2013 £000
Profit on ordinary activities before tax	425	228
Profit on ordinary activities multiplied by the standard average rate of corporation tax in the UK of 22.7% (2013 – 23.8%)	96	54
Group relief for nil payment	(96)	(54)
Total current tax	–	–

4. Investments – non-current

*Shares in
subsidiary
undertakings
£000*

Cost:

At 1 June 2013 and 31 May 2014 2,024

The company owns the entire share capital of Rome Pikco Limited, which is the parent undertaking of Rome Bidco Limited, which owns the entire issued equity share capital of Caffè Nero Group Limited, which operates Italian style coffee bars.

5. Investments – current

*Loans to
subsidiary
undertakings
£000*

Cost:

At 1 June 2013 and 31 May 2014 98,450

In the opinion of the directors, the fair value of the investments in subsidiary undertakings is not less than the carrying amount. The loan to the company's subsidiary undertaking is repayable on demand, together with all the interest accrued on it of £92.1m (2013 – £93.5m). Interest accrues on the outstanding principal amount of debt and any unpaid interest at a rate agreed by the lender and borrower. Interest is payable on such day or days as may be agreed by the lender and borrower. During the year the company received £15.0m (2013 - £nil) in partial repayment of its loan.

Notes to the financial statements

at 31 May 2014

5. Investments – current (continued)

Details of company undertakings

Details of the investments in which the company holds 20% or more of the nominal value of any class of share capital are as follows:

<i>Name of company</i>	<i>Holding</i>	<i>Proportion of voting rights and shares held</i>	<i>Nature of business</i>
<i>Subsidiary undertakings</i>			
Rome Pikco Limited	Ordinary shares	100%	Holding
Rome Bidco Limited	Ordinary shares	100%	Financing
Caffe Nero Group Limited	Ordinary shares	100%	Holding
Nero Holdings Limited	Ordinary shares	100%	Coffee retail
Aroma Limited	Ordinary shares	100%	Coffee retail
Caffe Nero Investments Limited	Ordinary shares	100%	Holding
Caffe Nero Ventures Limited	Ordinary shares	100%	Holding
Nero Coffee Roasting Limited	Ordinary shares	100%	Coffee roasting
Green Coffee Sp. z.o.o.	Ordinary shares	65.1%	Coffee retail
Muffia Sp. z.o.o. Sp.k	Ordinary shares	30%	Food production
<i>Joint venture</i>			
Caffe Nero Gida Urunleri AS	Ordinary shares	50%	Coffee retail

Subsequent to the year-end, Caffe Nero Investments Limited acquired a 58% stake in Green Coffee Poland SP Zoo., a company incorporated in Poland.

6. Financial liabilities

	<i>2014</i>	<i>2013</i>
	<i>£000</i>	<i>£000</i>
<i>Interest bearing loans and borrowings:</i>		
Loan from parent undertaking	98,450	98,450
Rolled up interest due to parent undertaking	63,144	64,843
Total	<u>161,594</u>	<u>163,293</u>

The loan from the company's parent undertaking is repayable in January 2107, unless an earlier repayment date is agreed between the two parties.

The loan is carried at amortised cost using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to its net carrying amount. During the year the company repaid £15.0m (2013 - £nil) of its loan from its parent undertaking.

Notes to the financial statements

at 31 May 2014

7. Financial instruments

The company's principal financial instruments comprise investments, amounts due from subsidiary undertakings, and the loan from its parent undertaking. The main purpose of the loan from the parent undertaking is to provide finance for the company's operations and acquisitions. It is, and has been throughout the year under review, the company's policy that no trading in financial instruments shall be undertaken.

The main risks arising from the company's use of financial instruments includes liquidity risk, credit risk and interest rate risk. The directors review and agree policies for managing exposure to each of these risks and these policies are summarised below.

Liquidity risk

Interest on the loan from the company's parent is payable at 25.125% per annum in the first year, 23.125% per annum in the second year and 7.125% semi-annually thereafter. The effective annual interest rate on the loan is 8.4%, based on the assumption that the loan will be repaid no later than 2037. This assumption has been made on the basis that the loan with the parent undertaking mirrors the terms of the deep discount bonds held by the parent undertaking, which must be redeemed by 2037.

The effective annual interest rate was previously 8.3% until a repayment of £15.0m was made during the year. At the same time as the repayment was made, the company reassessed the market rate on the loan to be 8.4%.

Credit risk

Exposure to credit risk is substantially restricted to the inability of group companies to repay their debts. This exposure is deemed minimal. The exposure to credit risk is represented by the carrying value at the balance sheet date.

Interest rate risk

The company does not hold cash and its loans are at fixed interest rates.

The contract maturity table below assumes that interest will continue to be accrued until 2037.

Year ended 31 May 2014	On demand £000	Within 1 year £000	1-5years £000	More than 5 years £000	Total £000
