Notes to the Abbreviated Accounts
for the Year Ended 31 March 2014

1. **ACCOUNTING POLICIES**

Basis of preparing the financial statements

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain fixed assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Accounting convention

The financial statements have been prepared under the historical cost convention as modified by the revaluation of certain assets and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

Turnover

Turnover represents the rent due to be received during the period.

Investment property

Investment properties are revalued annually. Surpluses or deficits on individual properties are transferred to the investment revaluation reserve, except that a deficit which is expected to be permanent and which is in excess of any previously recognised surplus over cost relating to the same property, or the reversal of such a deficit, is charged (or credited) to the profit and loss account. Depreciation is not provided in respect of freehold investment properties, or in respect of leasehold investment properties where the unexpired term of the lease is more than 20 years. The directors consider that this accounting policy, which represents a departure from the statutory accounting rules, is necessary to provide a true and fair view as required under SSAP 19 "Accounting for investment properties". The financial effect of the departure from the statutory accounting rules is not material.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the balance sheet date.

Finance costs

Finance costs of debt are recognised in the profit and loss accounts over the term of such instruments at a constant rate on the carrying amount.

Going concern

The directors expect that trading over the next twelve months will generate positive cash flows and have therefore continued to adopt the going concern basis of preparing the financial statements.
