- Drafted and issued our first progress report dated 18 November 2021.

#### 4. OUTCOME OF THE ADMINISTRATION

The Insolvency Act 1986 states the purpose of an Administration is to achieve one of these three hierarchical objectives:

- a) rescue the Company as a going concern; or
- b) achieve a better result for the Company's creditors as a whole than would be likely if the Company were wound up (without first being in administration); or
- c) realise the Company's assets to pay a dividend to secured or preferential creditors.

Objective (a) could not be achieved as no purchaser could be found for the shares of the Company nor any investor to lend rescue capital into the business and the nature of the Company's trading and its financial circumstances meant that a Company Voluntary Arrangement was not appropriate.

As such, we sought to achieve objective (b) for the Company, and have achieved this by trading the business post appointment in order to finish the work in progress and selling the business and assets, maximising realisations available for the general body of creditors. Had the Company been placed into Liquidation within first being in Administration, it is likely the business would have ceased to trade and the value of its assets would have been much less.

#### 5. RECEIPTS AND PAYMENTS

I have now completed the Administration of the Company. My receipts and payments account for the Reporting Period is attached at Appendix II.

The payments from the account in the period are primarily in respect of the officeholders' remuneration and expenses of the Administration. The only other payment during the Reporting Period being £1,022 to cover the utility costs incurred during the trading period in the Administration.

#### 6. ASSETS

Sale of the business and assets

The assets comprised capital production plant, research and development equipment, office equipment, furniture and IT equipment.

Hilco, third party specialist valuers, was engaged to carry out an appraisal of the Company's tangible assets on an in-situ and ex-situ basis.

| Item                           | In-situ<br>£ | Ex-situ<br>£ |
|--------------------------------|--------------|--------------|
| Plant and machinery            | 1,728,000    | 346,000      |

| Total                          | 1,738,000    | 350,000      |

Immediately preceding and on the appointment of the Administrators, an accelerated marketing campaign was conducted to attract interest in the business and assets of the Company.

A comprehensive overview of the marketing undertaken and parties involved in that process is set out in the Administrators Proposals, but laid out below is a brief summary of the transaction, with reference to the asset categories, completed to the Purchaser, Accoya, on 4 August 2021.

Please note the transaction was undertaken in Euros and accordingly a comparison of the conversion to GBP has been provided for illustrative purposes.

Given the valuations attributed to the plant and machinery, we considered that the consideration paid as part of the transaction represented fair value in the circumstances.

Under the Transfer of Undertakings (Protection of Employment) Regulations 2006, the employees of the Company transferred to Accoya. A settlement for the rent arrears was also reached between the Joint Administrators and the landlord, as was paramount to enable Accoya to occupy the premises, which in the absence of such agreement would not have been feasible. As a result, this reduced the overall liabilities in the Administration, enabling a better return to the general body of creditors as a whole.

In addition to the payment of the rent arrears to the landlord, there were other costs associated to the facilitation of the sale that were met as an expenses of the Administration, including the costs of site clean up for the purposes of insurance and to negate the risk of any dilapidation claims arising subsequent to the sale.

These costs, and our obligation to pay them, would not been dissimilar in the event of an orderly wind-down of the business, i.e the business immediately closed and no sale having taken place.

A payment was also covered to secure title to certain stock held offsite that was included in sale to Accoya.

A full breakdown of the costs incurred are shown below:

|                     | £       |
|---------------------|---------|
| Site clean up       | 51,787  |

#### Property

Ongoing rent for the use of the leasehold premises to enable us to complete work in progress and honour existing agreements with customers was paid as a trading expense of the Administration.

#### **Trading**

We considered the best outcome for creditors would be achieved by allowing the business to trade under our supervision, to preserve value in the business and assets of the Company, rather than effecting an immediate shut down of the site. This also maximised the value to be realised from the raw timber and work in progress on site at the point of Administration as it allowed for a more orderly sale of these assets.

The costs of trading were initially funded from cash at bank on appointment and subsequently trading revenue.

The primary trading activity during the Administration period was the conversion of raw timber (purchased prior to Administration) and work in progress to finished LIGNIA products for sale into the construction industry. The Company also held a significant amount of non-core stock, which was not subject to the offer from Accoya.

This stock was disposed of during the trading period at a higher value than would otherwise have been achieved in a forced sale/non-trading disposal scenario.

Whilst it was initially anticipated that the conclusion of the trading period would coincide with the sale of the Company's business and assets, due to Accoya's extended negotiations with the landlord, completion was delayed by approximately one month. This led to the Company incurring an additional month of trading expenses, whilst the sale of trading stock had already concluded.

At closure of the trading period, sales income totalled £331,426 resulting in an anticipated trading loss of £18,382. This remains an estimated position as it has been calculated on the basis that the outstanding furlough claim will be received (referred to further below). The position, i.e. in respect of costs incurred and paid, is a trading loss of £33,434.

Although the Administration trading period ultimately resulted in a small loss, the Administrators consider it was necessary and provided a substantial benefit to creditor overall as it allowed the Administrators to extract the highest value from the Company's stock that was purchased prior to Administration by converting the stock into finished LIGNIA product, which is of much higher value than the untreated timber.

#### Deposits

Under the terms and conditions of the operating agreement, a refund of £10,309 relating to a partial upfront deposit paid for a batch order of raw timber stock was subsequently voided upon entering Administration and returned to the Company.

#### VAT refund

The pre-appointment VAT return of £23,801 will be submitted in the subsequent Liquidation.

As previously mentioned, in light of the Company's accrued unpaid PAYE liabilities of £200,511, we expect HM Revenue and Customs ('HMRC') will offset the two amounts, resulting in a reduction to HMRC's preferential claim in the Administration.

#### Furlough monies

We made claims under the Government's COVID job retention scheme during the trading period totalling £72,851, however to date only £50,299 has been received. We continue to chase HMRC for payment of the remaining balance.

#### 7. DIVIDENDS

#### Secured creditors

The records held at Companies House show that the Company has no current charges over its assets.

#### Preferential creditors

#### **Employees**

The overall liability to employees was reduced from £33,380 to £8,572 on completion of the sale to Accoya.

#### **HMRC**

In HMRC's capacity as a secondary preferential creditor as of 1 December 2020 for its element of unpaid VAT, on review of its submitted claim of £198,129, it appears that £125,679 constitutes part of its preferential claim and the remaining £72,450 as an unsecured claim. We anticipate the preferential part of its debt will be further reduced by £23,801 on filing the pre-appointment VAT return.

A dividend of 100 pence in the pound will be paid to the preferential creditors in the ensuing Liquidation.

#### Non-preferential unsecured creditors

The Statement of Affairs included 93 unsecured creditors with an estimated total liability of £2,077,807. I have received claims from 20 creditors at a total of £695,002. This includes two claims which are approximately £225k

higher than the value shown in the Statement of Affairs, which relate to product recall claims.

Two of these claims received to date are approximately £225k higher than the value shown in the Statement of Affairs, which relates to product recall claims arising from historic product quality issues with the Company's LIGNIA Yacht line. These claims will be assessed, alongside all other unsecured creditors' claims, following conversion to Liquidation and commencement of the unsecured distribution process. We anticipate that additional claims may arise as a result of the same issue.

There is no secured debt or charge holder of the Company and as such the prescribed part provisions do not apply.

Given the uncertainty of the extent of any further product recall claims, we are only able to forecast an estimated dividend to the unsecured creditors in the region of between 35p and 55p in the £.

#### 8. INVESTIGATION INTO THE AFFAIRS OF THE COMPANY

I undertook an initial investigation into the Company's affairs to establish whether there were any potential asset recoveries or conduct matters that justified further investigation. I took into account the public interest, potential recoveries, the funds likely to be available to fund an investigation, and the costs involved. There were no matters that justified further investigation in the circumstances of this appointment.

Within three months of my appointment as Joint Administrator, I am required to submit a confidential report to the Secretary of State to include any matters which have come to my attention during the course of my work which may indicate that the conduct of any past or present director would make him unfit to be concerned with the management of the company. I confirm that my report has been submitted.

#### 9. PRE-ADMINISTRATION COSTS

On 25 June 2021 my pre-appointment fees totalling £7,494 and pre-appointment expenses incurred of £2,350 were approved by creditors.

We confirm that our pre-appointment costs and expenses have been paid in full.

#### 10. ADMINISTRATORS' REMUNERATION

My remuneration was authorised by the Company's creditors on 25 June 2021, to be charged on a time cost basis, subject to a 20 per cent discount against my firm's prevailing hourly charge out rates, capped at £398.511.

My discounted time costs to 13 April 2022 amount to £341,359, representing 1,184 of hours work at an average charge out rate of £288 per hour, of which £17,364 was charged in the period between 20 October 2021 and 13 April 2022, representing 72 hours work at an average charge out rate of £291 per hour.

I have drawn £340,506 to date of which £98,000 was drawn in the Reporting Period.

Our future time costs (up to the fees cap) will be paid out of the funds in hand in the subsequent Liquidation. We estimate the costs we will incur in the Liquidation will be £58,000.

A schedule of my charge out rates, expense policy and a narrative description of the work undertaken in the Administration to date, together with the time costs incurred to date is attached as Appendices III and IV.

In respect of the costs incurred in the trading period, we would advise that time paid is not normally allocated between the various time charge categories but in this case, I estimate that as I have so far drawn 100 percent of my total discounted time costs, then 100 percent of my discounted trading costs of £141,051 have been paid.

#### <u>Notes</u>

<sup>1.</sup> Sales include sales of both finished LIGNIA timber product and any non-core stock of raw timber and finished goods.

<sup>2.</sup> As explained in the report, the above payments include a number of costs that would have been incurred in the event that the Administrators ceased to trade and implemented a site closure and realisation of assets e.g. rent, rates, certain wages and salaries (non-exhaustive). Such costs have been mitigated by continuing to trade, but are included in the trading receipts and payments for reporting purposes.
