## **BL Residual Holding Company Limited**

### **Strategic Report for the Year Ended 31 March 2022**

The directors present their Strategic Report for the year ended 31 March 2022.

#### **Business review and principal activities**

BL Residual Holding Company Limited ("the company") is a wholly owned subsidiary of The British Land Company PLC and operates as a constituent of The British Land Company PLC group of companies ("the group").

The company's principal activity is that of an investment holding company in the United Kingdom (UK).

As shown in the company's Profit and Loss Account on page 5, the company's turnover of £nil has decreased £5,000,000 compared with turnover of £5,000,000 in the prior year. This is due to dividends received from Broadgate Estates Limited, a subsidiary of the company of [£nil] (20£nil5,000,000) during the year.

Loss on ordinary activities before taxation is £22,874,632 compared to a loss on ordinary activities before taxation of £407,596 in the prior year. This is due to the impairment of investments in the year of £22,874,632 compared to impairment of investments in the previous year of £5,424,376 which were offset by the dividends received, as detailed above.

The value of investments held as at 31 March 2022 has remained consistent with the prior year. During the year, the company had additions to investments of £22,000,000 relating to the capital injection into the subsidiary BL Aldgate Investment Limited this was offset by impairment of investments of various subsidiaries of £22,874,633 consequently there was very little movement overall.

Dividends of £nil (2021: £nil) were paid in the year.

The Balance Sheet on page 7 shows that the company's financial position at the year end has, in net assets terms, decreased compared with the prior year.

The company is a subsidiary of The British Land Company PLC. The company's strategy is the same as the group's strategy - to deliver an above average annualised total return to shareholders, which is achieved by creating attractive environments in the right places focused around the people who work, shop and live in them.

The Board of the group uses total return, to monitor the performance of the group. This is a measure of growth in total equity per share, adding back any current year dividend.

Any expected future developments of the company are determined by the strategy of the group.

For more information also see The British Land Company PLC group annual report.

The performance of the group, which includes the company, is discussed in the group's annual report which does not form part of this report.

**Strategic Report for the Year Ended 31 March 2022 (continued)**

**Principal risks and uncertainties**

This company is part of a large property investment group. As such, the fundamental underlying risks for this company are those of the property group as discussed below.

The group generates returns to shareholders through long-term investment decisions requiring the evaluation of opportunities arising in the following areas:

- demand for space from occupiers against available supply;
- identification and execution of investment and development strategies which are value enhancing;
- availability of financing or refinancing at an acceptable cost;
- economic cycles, including their impact on tenant covenant quality, interest rates, inflation and property values;
- legislative changes, including planning consents and taxation;
- engagement of development contractors with strong covenants;
- key staff changes; and
- environmental and health and safety policies.

These opportunities also represent risks, the most significant being change to the value of the property portfolio. This risk has high visibility to directors and is considered and managed on a continuous basis. Directors use their knowledge and experience to knowingly accept a measured degree of market risk.

The group's preference for prime assets and their secure long term contracted rental income, primarily with upward only rent review clauses, presents lower risks than many other property portfolios.

The financial and political risks for the company are managed in accordance with the group financial risk management policy, as disclosed in the consolidated group financial statements.

The company has no third party debt and no associated third party interest rate exposure.

The general risk environment in which the Company operates has remained heightened during the period due to the continued impact of Covid-19, and the emergence of the UK economy from the pandemic, including related challenges in parts of the UK retail market and macroeconomic headwinds through rising inflation. Despite this the general risk environment is considered to have improved during the year with a stabilisation in rents, improved rental collection and footfall and sales returning close to, and in some cases above, pre-pandemic levels. The improvement in the general risk environment will directly impact the degree of certainty around the valuation of investment properties at year end which in turn will directly impact the degree of certainty around the carrying value of investments in subsidiaries.

The emergence of the conflict in Ukraine in February 2022 has led to increased global economic uncertainty with sanctions imposed upon Russia and heightened political and diplomatic tensions. The Directors do not consider the conflict at this stage to have had a material impact on the Company's financial statements owing to the nature of the Company's UK focused operations and limited exposure to Ukrainian and Russian businesses.

These amendments include IFRS 16 - Covid-19 Related Rent Concessions, and amendments to IFRS 9, IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform - Phase 2.

**Going Concern**

The Directors consider that the Company has adequate resources to continue trading for the foreseeable future, with no external borrowings and a working capital cycle enabling the company to meet all liabilities as they fall due.

As a consequence of this the Directors feel that the Company is well placed to manage its financing and other business risks satisfactorily despite the uncertain economic climate, and have a reasonable expectation that the Company and the Group have adequate resources to continue in operation for at least 12 months from the signing date of these financial statements. Accordingly, they believe the going concern basis is an appropriate one.

**Changes in accounting policy**

None of the standards, interpretations and amendments effective for the first time from 1 April 2021 have had a material effect on the financial statements.

**Turnover**

Dividends received from subsidiary undertakings are recognised in the Profit and Loss Account in the year to which they relate.

**Taxation**

Current tax is based on taxable profit for the year and is calculated using tax rates that have been enacted or substantively enacted. Taxable profit differs from net profit as reported in the Profit and Loss Account because it excludes items of income or expense that are not taxable (or tax deductible).

Deferred tax is provided on items that may become taxable at a later date, on the difference between the balance sheet value and tax base value, on an undiscounted basis.

**BL Residual Holding Company Limited****Notes to the Unaudited Financial Statements for the Year Ended 31 March 2022  
(continued)****3 Critical accounting judgements and key sources of estimation uncertainty**

In applying the Company's accounting policies, the Directors are required to make critical accounting judgements and assess key sources of estimation uncertainty that affect the financial statements.

The general risk environment in which the Company operates has remained heightened during the period due to the continued impact of Covid-19, and the emergence of the UK economy from the pandemic, including related challenges in parts of the UK retail market and macroeconomic headwinds through rising inflation. Despite this the general risk environment is considered to have improved during the year with a stabilisation in rents, improved rental collection and footfall and sales returning close to, and in some cases above, pre-pandemic levels. The improvement in the general risk environment will directly impact the degree of certainty around the valuation of investment properties at year end which in turn will directly impact the degree of certainty around the carrying value of investments in subsidiaries.

The emergence of the conflict in Ukraine in February 2022 has led to increased global economic uncertainty with sanctions imposed upon Russia and heightened political and diplomatic tensions. The Directors do not consider the conflict at this stage to have had a material impact on the Company's financial statements owing to the nature of the Company's UK focused operations and limited exposure to Ukrainian and Russian businesses.

**Key sources of estimation uncertainty**

The key source of estimation uncertainty relates to the valuation of investments. The potential for management to make judgements or estimates relating to those items which would have a significant impact on the financial statements is considered, by the nature of the Company's business, to be limited.

**Critical accounting adjustments**

The directors do not consider there to be any other critical accounting judgements in the preparation of the Company financial statements.

**4 Turnover**

The analysis of the company's turnover for the year from continuing operations is as follows:

	<b>2022</b>	<b>2021</b>
	<b>£</b>	<b>£</b>
Dividends received	-	5,000,000
	<u>-</u>	<u>5,000,000</u>

**5 Staff costs**

No director (2021: nil) received any remuneration for services to the company in either year. The remuneration of the directors was borne by another company, for which no apportionment or recharges were made.

Average number of employees, excluding directors, of the company during the year was nil (2021: nil).
