NOTES TO THE ABBREVIATED ACCOUNTS FOR THE YEAR ENDED 31 DECEMBER 2009

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention

1.2 Compliance with accounting standards

The financial statements are prepared in accordance with applicable United Kingdom Accounting Standards (United Kingdom Generally Accepted Accounting Practice), which have been applied consistently (except as otherwise stated)

1.3 Investments

Fixed asset investments are stated at cost less provision for diminution in value

1.4 Deferred taxation

In accordance with Financial Reporting Standard 19 'Accounting for deferred tax', deferred tax is recognised in respect of all timing differences that have originated but not reversed by the balance sheet date. Provision is made at the rates expected to apply when the timing differences reverse.

Timing differences are differences between the Company's taxable profits and its results as stated in the financial statements that arise from the inclusion of gains and losses in taxable profits in periods different from those in which they are recognised in the financial statements.

A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

1.5 Group accounts

The financial statements present information about the company as an individual undertaking and not about its group. The company and its subsidiary undertaking comprise a small-sized group. The company has therefore taken advantage of the exemptions provided by section 248 of the Companies Act 1985 not to prepare group accounts.
