#### **1. Accounting Policies**

##### **1.1 Basis of preparation of financial statements**

The full financial statements, from which these abbreviated accounts have been extracted, have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective January 2015).

##### **1.2 Going concern**

The company is dependent upon a loan from one of the directors, who has indicated that he will continue to provide the financial support necessary to enable the company to continue in operational existence for the foreseeable future. Accordingly, these financial statements have been prepared on the going concern basis.

##### **1.3 Turnover**

Turnover comprises revenue recognised by the company in respect of goods and services supplied during the year, exclusive of Value Added Tax and trade discounts.

##### **1.4 Tangible fixed assets and depreciation**

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost of fixed assets, less their estimated residual value, over their expected useful lives on the following bases:

Plant and machinery	- 5 years straight line
---------------------	-------------------------

##### **1.5 Deferred taxation**

Full provision is made for deferred tax assets and liabilities arising from all timing differences between the recognition of gains and losses in the financial statements and recognition in the tax computation.

A net deferred tax asset is recognised only if it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

Deferred tax assets and liabilities are calculated at the tax rates expected to be effective at the time the timing differences are expected to reverse.

Deferred tax assets and liabilities are not discounted.

##### **1.6 Foreign currencies**

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at rates of exchange ruling at the balance sheet date.

Transactions in foreign currencies are translated into sterling at the rate ruling on the date of the transaction.
