**P&O Ferries Division Holdings Limited**  
**Directors' Report**

The directors present their report and financial statements for P&O Ferries Division Holdings Limited and subsidiaries ("the Group") for the year ended 31 December 2009

**Principal activities**

The Group's principal activity during the year continued to be transportation via ferry and road transport services between Great Britain, Ireland and Continental Europe. P&O Ferries Division Holdings Limited ("the Company") is a holding company.

**Business review and future developments**

P&O Ferries Division Holdings Limited consists of two principal businesses: the operation of ferry services between Great Britain, Ireland and Continental Europe (Ferries) and the provision of European transportation and logistics services (Ferrymasters).

**Key Performance Indicators and Performance Review**

Whilst many of the markets in which we operate have slowed due to the widespread recession, our strong position in our chosen markets, coupled with high levels of customer service and our focus on cost control have enabled us to mitigate much of the effect of this economic downturn.

The following information is represented:

	2009	2008
Freight Units Carried (million)	2.0	2.0
Tourist Vehicles Carried (million)	1.8	1.7
Total Passengers Carried (million)	9.2	9.4

Turnover declined to £1,004m from £1,082m in 2008, in part due to a reduction in fuel surcharge revenue. Volumes overall remained broadly in line with the prior year, with tourist vehicle volumes up 5.9% and total passenger volumes down 2.1%. The relative performance of the different sectors resulted in overall average rates declining.

Gross profit as a percentage of revenue improved from 9.7% to 10.4%, reflecting the net impact of the changes in fuel prices and the effects of management's ongoing focus on yield.

The Group's profit after tax for the year was £1,098k (2008: loss £6,393k) and operating profit for the year was £8,721k (2008: £11,278k).

There were two one-off charges / credits within operating profit for the year: a charge of £6.2m principally in respect of restructuring the Group's North Sea operations (see current and future developments) and an impairment charge of £6.2m against two of the Group's vessels.

Profit before interest and tax includes a credit of £5.0m in respect of the disposal of a parcel of land by Larne Harbour Limited.

EBITDA before exceptional items, as a percentage of revenue improved from 4.8% for the year ended 31st December 2009, compared to 4.4% for the previous year.

Lower finance charges year on year include reduced net foreign exchange losses offset by higher pension related charges. Foreign exchange gains comprise a credit of £3.5m (2008: charge of £11.2m) in respect of a gain on a Euro-denominated finance lease (see note 19 in the financial statements).

The tax charge for the year is analysed in note 10 to the financial statements.

### **Directors' Report**

#### ***Current and future developments***

Construction on the two new ferries for the Dover Calais service continues, and total payments to STX Europe (formerly Aker Yards) of £63.7m were made in the year, of which 80% was financed with long term bank loans. The first of the new vessels is now expected to enter service in January 2011 and the second in September 2011.

Due to continued poor results of the North Sea sector, Management announced plans for the restructuring of its North Sea operations in July 2009. Implementation commenced during 2009 and will continue in to 2010.

The 50% joint venture in Port of Cairryan Limited, previously held by Stena Line, was purchased by the Group for a total consideration of £1m, as a result of which it is now a 100% owned subsidiary. There was no goodwill on acquisition. Further, as a part of this transaction, £11m lent to the Group by Stena Line was repaid.

In January 2010, Management announced that the Group's operation in the Western Channel (Portsmouth to Bilbao) will cease in October 2010, when the charter for the sole vessel on this route expires.

There remains considerable uncertainty surrounding the timing and speed of an economic recovery. Whilst freight volumes in 2010 remain broadly in line with expectations, there is significant pressure on prices. The tourist business was boosted in the short term by the Icelandic volcanic ash crisis and there are indications that customers are switching to non plane modes of travel for their main summer holidays in 2010.

#### ***Funding and liquidity***

As at the year end the Group had overdraft facilities of £11.7m and revolving credit facilities of £30m (2008: £45m) to fund working capital requirements, in addition to long term secured bank loans for the two new ferries. During the year, cash and cash equivalent balances averaged £82.6m, of which £20m was deposited with Ports and Free Zone World via a Credit Facility. This loan is repayable on demand with a validity of up to 30 September 2010.

#### ***Principal risks and uncertainties***

##### **Financial Risk Management**

The Group is exposed to a variety of financial risks that include fuel price risk, foreign exchange rate risk, credit risk and interest rate risk.

##### ***Fuel Price Risk***

The Group has highly predictable requirements for bunker fuels for its ferry fleet and fuel prices remain highly volatile. Ferries strategy is to buy hedges in layers. In addition, Ferries is able to mitigate some of the effect of rising fuel costs through the application of fuel surcharges.

##### ***Foreign Exchange Risk***

The Group is exposed to exchange rate risk principally against the dollar for purchases of fuel and the payment of some vessel charters, and more generally against the Euro. Exchange rate risk against the US\$ is mitigated via currency hedges. Ferries has both inflows and outflows of Euro's and this generally balances. For specific transactions, for example payments for new ships, the Group will undertake Euro hedges if market conditions are believed to be favourable.

##### ***Credit Risk***

Cash deposits and similar financial instruments give rise to credit risk. Management seeks to minimise this risk by ensuring the counterparties are rated in accordance with its Counterparty Limits Policy, for example a minimum of an 'AA' rating is required for exposure in excess of £20m.

Credit risk procedures on trade debtors vary from customer to customer. These procedures include activities such as credit checks, credit approval limits, debt insurance. There has been no significant change to the composition of trade debtors within the Group.

##### ***Interest Rate Risk***

The Group is exposed to movements in interest rates on its cash balances and variable rate loans. Management may seek to reduce volatility by fixing further proportions of the variable rate loans when market conditions are believed to be favourable.

### **Directors' Report**

#### Competition and market supply

The Group closely monitors competition in its markets, both from existing operators and potential new entrants. Market share is monitored on a monthly basis and demand projections incorporate both industry and wider economic predictions. Capacity changes resulting from the deployment of new ships, or changes to schedules are assessed and appropriate actions taken in response. With relatively long lead times in the building of new ships or the development of port capacity, long term market demand and supply projections are undertaken and these are incorporated in to the design of the Group's new ships.

#### Macro Economic risk

The current economic environment continues to be challenging. The Directors consider that the Group has appropriate planning processes in place to address this future uncertainty and the Directors continue to monitor the trading outlook carefully and take appropriate mitigating action.

#### Pensions

The group may be exposed to additional liabilities with respect to its participation in defined benefit pension schemes. Because of the Group's exposure to the industry wide Merchant Navy Officers Pension Fund, the Group has a relatively high proportion of deferred and current pensioners compared to its active membership. A decline in the equity market, improvements in life expectancy or decreases in real or nominal long term interest rates could require additional contributions in excess of those currently expected. The deficit in all schemes increased from £53.0m to £93.5m during the year (see page 26) due to a combination of these and other factors.

The current deficit funding plans were agreed on the basis of valuations carried out in 2006 to 2008, and discussions are ongoing with the Trustee of the Merchant Navy Officers Pension Fund regarding the deficit revealed at the March 2009 valuation. In addition to regular reporting under IAS19, the group regularly monitors the performance of the principal schemes.

Details of an ongoing legal challenge in respect of the group's ongoing participation in the Merchant Naval Ratings Pension Fund are given in note 30.

#### Going Concern

After making enquiries, the Directors have a reasonable expectation that the business has adequate resources to continue in operational existence for the foreseeable future, and accordingly the going concern basis continues to be adopted in the preparation of the accounts.

However, the Board continues to carefully manage the Group's funding and liquidity position. The main sources of debt funding are external bank loans, a multi-currency credit facility and overdraft facilities (note 18) and ship finance leases (note 19). Bank loans are being repaid in installments and none will be fully repaid within five years. The multi-currency credit facility is available until 2012.

The Group's debt funding is subject to the following covenants, comprising the following ratios: net debt to earnings before exceptional items, interest, tax, depreciation and amortization ('EBITDA'), EBITDA to interest payable, and secured borrowings to tangible fixed assets. All covenants, which are tested six monthly, were met during the year and as at the year end.

On the basis of its forecasts, including covenant testing, the Board has concluded that the going concern basis of preparation continues to be appropriate. The Board's considerations have included consideration of future forecasts, reflecting a continuing economic recession, and mitigating actions and measures available to the Group.

#### **Dividends**

No dividends were paid during the year (2008 £nil)

#### **Directors and directors' interests**

The following persons served as directors during the year and up to the date of this report:

H Deeble  
K Howarth  
Y Narayan  
J M K Theniyeh  
R B Woods

No Director had any interest in the share capital of the Company during the year or at the year end. No rights to subscribe for shares in or debentures of the Company or any other group company were granted to any of the Directors or their immediate families, or exercised by them, during the financial year.

Details in respect of directors' indemnification are given in note 6.

#### **Political and charitable donations**

Neither the Group nor the Company made any political donations or incurred any political expenditure during the year (2008 £nil).

The Group made charitable donations of £1,938 (2008 £6,000) during the year. The Company made no charitable donations during the year (2008 £nil).

**P&O Ferries Division Holdings Limited**  
**Directors' Report**

**Employee involvement**

The Group is committed to communication with all employees and has in place arrangements to facilitate periodic meetings with representatives of the staff. Matters of interest concerning the Group as a whole as well as those of a local interest are communicated in writing.

Various profit sharing schemes for Group employees are in operation.

**Employment of disabled persons**

It is the Group's policy to give consideration to disabled people in selection for employment, training and career development opportunities, and to take action to facilitate the continuing employment of people who become disabled while on the Group's payroll. This policy is applied in a manner consistent with good business practice and the Group's regard for the health and safety of all employees and the community at large.

**Policy and practice on payment to creditors**

The Group does not follow any formal code or practice in respect of the payment of creditors. The Group's policy is to pay suppliers in accordance with terms and conditions agreed when the orders are placed. Where payment terms have not been specifically agreed, then invoices dated in one calendar month are paid close to the end of the following month. This approach is communicated and followed by the Group's purchasing and finance functions. The Group has procedures for dealing promptly with complaints and disputes.

The Company did not have any trade creditors at the year-end or at any time during the year. The Group's principal subsidiary undertakings had the following creditor days outstanding at year end: P&O Ferrymasters Limited had 40 days (2008: 44 days); P&O Ferries Limited (which operates the central purchase ledgers of the P&O Ferries Division Holdings Limited group) had 22 days (2008: 27 days).

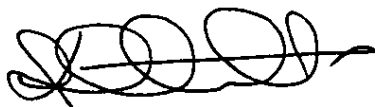

**Disclosure of information to auditors**

The directors who held office at the date of approval of this directors' report confirm that, so far as they are each aware, there is no relevant audit information of which the Company's auditors are unaware, and each director has taken all the steps that he/she ought to have taken as a director to make himself/herself aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

**Auditors**

Pursuant to Section 487 of the Companies Act 2006, the auditors will be deemed to be reappointed and KPMG LLP will therefore continue in office.

This report was approved by the board on 29 June 2010.

## **P&O Ferries Division Holdings Limited**

### **Statement of Directors' Responsibilities**

The directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the group and parent company financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice)

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the group and parent company and of their profit or loss for that period. In preparing each of the group and parent company financial statements, the directors are required to

- select suitable accounting policies and then apply them consistently,
- make judgments and estimates that are reasonable and prudent,
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements,
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the group and the parent company will continue in business

The directors are responsible for keeping adequate accounting records that are sufficient to show and explain the parent company's transactions and disclose with reasonable accuracy at any time the financial position of the parent company and enable them to ensure that its financial statements comply with the Companies Act 2006. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the group and to prevent and detect fraud and other irregularities

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the company's website. Legislation in the UK governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions

**KPMG LLP**  
**Independent Auditors' Report**  
**to the shareholders of P&O Ferries Division Holdings Limited**

We have audited the financial statements of P&O Ferries Division Holdings Limited for the year ended 31 December 2009 set out on pages 7 to 32. The financial reporting framework that has been applied in their preparation is applicable law and UK Accounting Standards (UK Generally Accepted Accounting Practice).

This report is made solely to the company's members, as a body, in accordance with Chapter 3 of Part 16 of the Companies Act 2006. Our audit work has been undertaken so that we might state to the company's members those matters we are required to state to them in an auditors' report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the company and the company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

**Respective responsibilities of directors and auditors**

As explained more fully in the Directors' Responsibilities Statement set out on page 5, the directors are responsible for the preparation of the financial statements and for being satisfied that they give a true and fair view. Our responsibility is to audit the financial statements in accordance with applicable law and International Standards on Auditing (UK and Ireland). Those standards require us to comply with the Auditing Practices Board's (APB's) Ethical Standards for Auditors.

**Scope of the audit**

A description of the scope of an audit of financial statements is provided on the APB's web-site at [www.frc.org.uk/apb/scope/UKNP](http://www.frc.org.uk/apb/scope/UKNP).

**Opinion on the financial statements**

In our opinion the financial statements

- give a true and fair view of the state of the group's and the parent company's affairs as at 31 December 2009 and of the group's profit for the year then ended,
- have been properly prepared in accordance with United Kingdom Generally Accepted Accounting Practice, and
- have been prepared in accordance with the requirements of the Companies Act 2006.

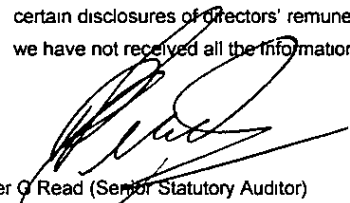

**Opinion on other matters prescribed by the Companies Act 2006**

In our opinion the information given in the Directors' Report for the financial year for which the financial statements are prepared is consistent with the financial statements.

**Matters on which we are required to report by exception**

We have nothing to report in respect of the following matters where the Companies Act 2006 requires us to report to you if, in our opinion

- adequate accounting records have not been kept by the parent company, or returns adequate for our audit have not been received from branches not visited by us, or
- the parent company financial statements are not in agreement with the accounting records and returns, or
- certain disclosures of directors' remuneration specified by law are not made, or
- we have not received all the information and explanations we require for our audit.

**P&O Ferries Division Holdings Limited**  
**Notes to the Financial Statements**  
**for the year ended 31 December 2009**

**1 Accounting policies**

The following accounting policies have been applied consistently in dealing with items which are considered material in relation to the Group and Company financial statements

***Basis of preparation and going concern***

The financial statements have been prepared under the historical cost convention and in accordance with applicable United Kingdom Accounting Standards. The financial statements have been prepared on a going concern basis. The Board continues to carefully manage the Group's funding and liquidity position. The main sources of debt funding are external bank loans, a multi-currency credit facility and overdraft facilities (note 18) and ship finance leases (note 19). Bank loans are being repaid in installments and none will be fully repaid within five years. The multi-currency credit facility is available until 2012.

The Group's debt funding is subject to the following covenants, comprising the following ratios: net debt to earnings before exceptional items, interest, tax, depreciation and amortization ('EBITDA'), EBITDA to interest payable, and secured borrowings to tangible fixed assets. All covenants, which are tested six monthly, were met during the year and as at the year end.

On the basis of its forecasts, including covenant testing, the Board has concluded that the going concern basis of preparation continues to be appropriate. The Board's considerations have included consideration of future forecasts, adjusted for significantly worse economic conditions and mitigating actions and measures available to the Group.

***Basis of consolidation***

The consolidated financial statements include the financial statements of the Company and its subsidiary undertakings made up to 31 December 2009.

The acquisition method of accounting has been adopted. Under this method, the results of subsidiary undertakings acquired or disposed of in the year are included in the consolidated profit and loss account from the date of acquisition or up to the date of disposal.

Under s408 of the Companies Act 2006 the Company is exempt from the requirement to present its own profit and loss account.

***Tangible fixed assets and depreciation***

Fixed assets are stated at cost less accumulated depreciation. Depreciation is provided to write down the cost or valuation of tangible fixed assets by equal annual instalments over their expected useful lives. The depreciation charge for ships is calculated after adjusting for the residual value based upon a percentage of the original cost. The periods applicable are -

Freehold buildings	10 to 50 years
Owned and leased ships	15 to 35 years
Plant, machinery, fixtures and fittings	2 to 40 years

Freehold land is not depreciated. Ships and other assets under construction are not depreciated until first brought into operation.

Provision for any impairment in the value of ships and other assets is made in the profit and loss account.

***Stocks***

Stock is valued at the lower of cost and net realisable value.

***Taxation***

The ferry operations are within tonnage taxation regime and the taxation charge is based on the tonnage of the ships operated. Other operations taxation charge is based on the results for the year and takes into account taxation deferred because of timing differences between the treatment of certain items for taxation and accounting purposes.

Deferred tax is recognised without discounting, in respect of all timing differences between the treatment of certain items for taxation and accounting purposes which have arisen and not reversed by the balance sheet date, except as otherwise required by FRS 19. A net deferred tax asset is regarded as recoverable and therefore recognised only when, on the basis of all available evidence, it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of the underlying timing differences can be deducted.

**1 Accounting policies (continued)**

***Foreign currencies***

Transactions in foreign currencies are recorded using the rate of exchange ruling at the date of the transaction or, if hedged forward, at the rate of exchange under the related forward currency contract. Monetary assets and liabilities denominated in foreign currencies are translated using the contracted rate or the rate of exchange ruling at the balance sheet date and the gains or losses on translation are included in the profit and loss account.

***Leases***

Assets acquired under finance leases are capitalised as tangible fixed assets. The capital elements of future obligations under leases are shown as liabilities in the balance sheet. The total finance charge is allocated to accounting periods to produce a constant periodic rate of charge on the outstanding obligation during the lease term.

Operating lease rentals and charter hire costs are charged to the profit and loss account on a straight-line basis over the period of the lease or charter.

***Pensions***

***Defined contribution schemes***

The Group operates a number of defined contribution pension schemes. The assets of the schemes are held separately from those of the Group in independently administered funds. The amount charged to the profit and loss account represents the contributions payable to the scheme in respect of the accounting period.

***Defined benefit schemes***

The Group operates and participates in pension schemes providing benefits based on final pensionable pay. The assets of the schemes are held separately from those of the Group. The principal schemes include the P&O UK Scheme operated by the Company and the Merchant Navy Officers Pension Fund ('MNOFF'), an industry scheme in which the Group's employees participate.

Defined benefit pension scheme assets are measured using market values. For quoted securities the current bid price is taken as market value. Pension scheme liabilities are measured using a projected unit method and discounted at the current rate of return on a high quality corporate bond of equivalent term and currency to the liability. The measurement is undertaken by a qualified actuary.

The pension scheme surplus (to the extent that it is recoverable) or deficit is recognised in full. The movement in the scheme surplus/deficit is split between operating charges, finance items and, in the statement of total recognised gains and losses, actuarial gains and losses.

A further scheme is the Merchant Navy Ratings Pension Fund ('MNRPF'). The Group cannot identify its share of the underlying assets and liabilities of the MNRPF on a consistent and reasonable basis and is therefore, for the year ended 31 December 2009 and prior years, the Group has accounted for the MNRPF as if it were a defined contribution scheme. Further information in respect of the MNRPF and the Group's interest in this scheme is in Note 30.

***Maintenance costs***

Where the Group has a legal obligation arising under the terms of an operating lease, provision is made for vessel maintenance and dry dock overhauls. The provisions are calculated based on current factors including the lease term and latest yard costs. Costs incurred are charged against the provision.

Similar costs for owned or finance leased vessels are prepaid as current assets and amortised over their useful economic life (typically over a period of 12-24 months to match the period prior to the next overhaul).

**Notes to the Financial Statements**  
**for the year ended 31 December 2009**

**1 Accounting policies (continued)**

***Derivative financial instruments***

The Group uses various derivative financial instruments to manage its exposure to foreign exchange risks and fuel price movements. Gains and losses on hedges of firm commitments or anticipated transactions are deferred and are recognised in the profit and loss account when the hedged transaction occurs.

***Goodwill***

Purchased goodwill (representing the excess of the fair value of the consideration given over the fair value of separable net assets acquired) arising on consolidation in respect of acquisitions is capitalised. Goodwill is considered to have an indefinite useful life as the P&O brand has over 150 years of positive usage, so it is not amortised but is annually tested for impairment which is written off through the profit and loss account.

This is not in accordance with the Large and Medium-sized Companies and Groups (Accounts and Reports) Regulations 2008 which requires that all goodwill be amortised. The directors consider that this would fail to give a true and fair view of the profit for the year and that the economic measure of performance in any period is properly made by reference only to any impairment that may have arisen. It is not practicable to quantify the effects on the financial statements of this departure.

***Investments***

In the Company's financial statements, investments in subsidiary undertakings, associates and joint ventures are stated at cost less amounts written off.

***Turnover***

Turnover represents the amounts derived from the provision of goods and services to third party customers from the operation of ferry and road transport services between Great Britain, Ireland and Continental Europe.

Turnover excludes VAT and other sales taxes and is measured at the fair value of the consideration receivable, net of discounts.

Revenue from tourist and freight ferry traffic (including on-board sales) is recognised on departure of the relevant sailing. Road transport revenue is recognised at the point of delivery of the load.

**10 Taxation (continued)**

**Factors affecting tax charge for the year**

The UK standard rate of corporation tax change from 30% to 28% with effect from 1 April 2008, resulting in a combined rate of 28.5% for the 2008 financial year

The current tax charge for the year is higher (2008 higher) than the standard rate of corporation tax in the UK (28%, 2008 28.5%). The differences are explained below

	2009 £000	2008 £000
Profit/(loss) on ordinary activities before tax	<u>3,265</u>	<u>(3,951)</u>
Standard rate of corporation tax in the UK	<u>28.0%</u>	<u>28.5%</u>
	£000	£000

Tonnage tax	1,500	2,475
Profits not attributable to UK companies	-	405
Expenses not deductible for tax purposes	59	340
Timing differences	1,420	1,151
Adjustments to tax charge in respect of previous periods	(1,892)	606
Current tax charge for the year	<u>2,001</u>	<u>3,851</u>

Most of the Group's activities are qualifying activities for the purpose of the UK tonnage tax regime and the Group pays corporation tax on these activities by reference to the tonnage of the ships owned or operated. For its road transportation business and certain other minor non-qualifying activities the Group pays corporation tax at 28% (2008 28.5%) of the profits earned by these activities. Adjustments in respect of prior years arise from amendments to current tax computations submitted to HMRC and are largely offset by opposite prior year adjustments to deferred taxation timing differences.

**Factors that may affect future tax charges**

The future tax charge is expected to be at a consistent level to the current year, before taking into account any changes which may arise to the tonnage of the Group's shipping fleet or changes to the UK tonnage tax regime.

<b>11 Intangible fixed assets</b>	<b>2009</b>
Goodwill	<b>£000</b>
<b>Cost and net book value</b>	
At 1 January 2009 and 31 December 2009	<u><b>289,804</b></u>

The intangible fixed assets represent goodwill, being the excess of the purchase price over the fair value of net assets at the purchase date of 30 March 2007. Fair value was determined by professional valuation for ships, and director's valuation for other assets and liabilities. The goodwill is considered to have an indefinite useful life as the P&O brand has over 150 years of positive usage. The Group has a licence agreement with the Peninsular and Oriental Steam Navigation Company for the royalty free use of the P&O name and logo for worldwide ferry and road transport activities, subject to certain restrictions, including change of ownership.

Accordingly, the goodwill is not amortised, but is annually tested for impairment and has resulted in no impairment charge for the year (2008 Nil) being applied against the goodwill.

The impairment charge in the current year relates to two ships and is based on the Directors' estimate of the vessels' net realisable value, having had regard to external valuation reports. The remaining value of the ships carried on the balance sheet is £36.5m.

Included in the total net book value of owned and leased ships is £64,499,000 (2008: £67,743,000) in respect of assets held under finance leases. Depreciation for the period on these assets was £3,263,000 (2008: £3,251,000).

Other equipment comprises plant, machinery, computer hardware and software and other fixtures and fittings.

Assets under construction comprise two new build ships and computer systems under development.

\* There is a total facility for the ships in construction of Euros 284m of which £96.8m has been drawn. Both loans will increase as various stages of construction are reached, and repayments only begin after the ship is launched, which is expected to be at least 12 months from the balance sheet date.

Bank loans include £114,785,000 of loans that will not be fully repaid within 5 years. These loans are subject to interest rates ranging from 1.8% to 5.6% as at 31 December 2009.

The Group had in place multi-currency credit facilities with various banks of £30 million which are available until 2012, and overdraft facilities of £14.4m. As at 31 December 2009 none of the multi-currency credit facility was being utilised.

The operational ferry companies elected to enter the UK tonnage tax regime in 2001 & 2002, which eliminated future potential tax liabilities on most of their activities' profits. The tonnage tax regime includes provision whereby a proportion of capital allowances previously claimed by the company may be subject to tax in the event that a significant number of ships were sold and not replaced. This contingent liability decreases to nil over the first seven years following entry to the regime. The contingent liability at 31 December 2009 was £nil (2008 £nil) assuming such disposal occurred at book value. No provision has been made as no liability is expected to arise.

Historically rates have been charged and paid to the local councils by the port authorities directly. However, in 2008, rates demands were received for the period from April 2005 to present for the Group to make a payment directly. This is being disputed with the Government, but a provision has been made for the portion that relates to prior years.

The ship reinstatement provision relates to reinstatement of charter ships at the end of their contract.

The reorganisation provision includes restructuring and redundancy costs and the company's obligations to pay costs under contracts for properties returned to lessor. The expectation is that most of these costs will be paid in 2010.

The legal provision relates to disputed vehicle transit costs, contractual employee rights and potential duty fines.

**Notes to the Financial Statements**  
**for the year ended 31 December 2009**

**30 Pension schemes**

The Group participates in three company sponsored funded defined benefit pension schemes. The principal scheme, The P&O Ferries Division 2008 Pension Scheme (the "P&O Ferries UK Scheme") is closed to new members. The assets of the scheme are managed on behalf of the trustee by independent fund managers. The two smaller schemes are the P&O Irish Pension Scheme and the P&O North Sea Ferries (Netherlands) Scheme.

The Group also participates in the Merchant Navy Officers' Pension Fund (the "MNOF Scheme"), and the Merchant Navy Ratings' Pension Fund (the "MNRPF Scheme") industry wide schemes.

For the year ended 31 December 2009 the Group cannot identify its share of the underlying assets and liabilities of the MNRPF on a consistent and reasonable basis and is therefore, for the year ended 31 December 2009, accounting for the MNRPF under FRS17 as if it were a defined contribution scheme.

As the group's UK companies are no longer current employers in the MNRPF, they have no legal obligation with respect to the on-going deficit in the fund, having settled their statutory debt obligation. This position is, however, currently being challenged by Stena Line Limited in the High Court. The case is not expected to be heard until after the date of these financial statements. The Gibraltar companies' proportion of the deficit required a payment of £608,974 in March 2009 (2008 £612,000). These payments make up the annual charge included in the group accounts.

The Group also makes contributions to various company defined contribution schemes and various industry defined contribution schemes which have assets in separate administered funds. The charge in the Group accounts for these schemes in 2009 was £3,802,000 (2008 £3,545,000).

The Group expects to contribute approximately £15,438,000 to its defined benefit plans in the next financial year.

The Company did not participate in any pension scheme during the current or prior periods.

The information disclosed below is in respect of the plans for which Group companies are either the sponsoring employer or have been allocated a share of cost under an agreed group policy throughout the periods shown.

PA92 medium cohort tables have been used as a basis projected up to 2008, subject to a 1% minimum annual increase in line with long cohort, to reflect improvements in future mortality

As part of the March 2007 reorganisation, the current employees were offered the opportunity to have their pension transferred to the new P&O Ferries UK Scheme, with the same benefits as before, and most of the employees accepted. The pensioners and deferred pensioners assets and liabilities were retained by the Peninsular and Oriental Steam Navigation Company, along with the risks and rewards of that fund. The transfer took place in April 2008, and has no significant effect on the financial position of the Group. Figures shown for periods prior to the transfer are in respect of the Group's proportion of the P&O Pension Scheme assets and liabilities.
