1. STATUTORY INFORMATION

Pinehurst Stanmore Management Ltd is a private company, limited by shares, registered in England and Wales. The company's registered number and registered office address can be found on the Company Information page.

The presentation currency of the financial statements is the Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" including the provisions of Section 1A "Small Entities" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

The directors consider that service charges receivable are held in trust for the tenants and expenses relating to maintenance of the property are expended on behalf of the tenants and these are not company assets or liabilities.

On this basis, balances and transactions relating to the service charge account have not been included in the statutory accounts. Separate service charge accounts are prepared for the benefit of the tenants.

Consequently, the company was dormant throughout the current and previous period.

Taxation

Taxation for the year comprises current and deferred tax. Tax is recognised in the Income Statement, except to the extent that it relates to items recognised in other comprehensive income or directly in equity.

Current or deferred taxation assets and liabilities are not discounted.

Current tax is recognised at the amount of tax payable using the tax rates and laws that have been enacted or substantively enacted by the statement of financial position date.

Deferred tax

Deferred tax is recognised in respect of all timing differences that have originated but not reversed at the statement of financial position date.

Timing differences arise from the inclusion of income and expenses in tax assessments in periods different from those in which they are recognised in financial statements. Deferred tax is measured using tax rates and laws that have been enacted or substantively enacted by the year end and that are expected to apply to the reversal of the timing difference.

Unrelieved tax losses and other deferred tax assets are recognised only to the extent that it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Tangible fixed assets

The apartments in the property are held on long leases by the tenants and the company holds the freehold interest in the property which, in essence represents the value of the land and is not held for the company's own consumption. Accordingly, no depreciation has been charged on the freehold interest.
