A provision for impairment is made for the lifetime expected credit losses on initial recognition of the receivable. If collection is expected in more than one year, the balance is presented within non-current assets.

In determining the expected credit losses, the Company takes into account any recent payment behaviours and future expectations of likely default events (i.e. not making payment on the due date) based on individual customer credit ratings, actual or expected insolvency filings or company voluntary arrangements and market expectations and trends in the wider macro-economic environment in which our customers operate.

Trade and other receivables are written off once all avenues to recover the balances are exhausted and the lease has ended. Receivables written off are no longer subject to any enforcement activity.
