Brampton View Limited

Strategic Report for the Year Ended 31 December 2020

The Directors present their strategic report for the year ended 31 December 2020.

Principal activity

The principal activity of the Company is the operation of care homes.

Fair review of the business

The results of the Company are included in the consolidated financial statements of the Group headed by Barchester Finco 2019 Limited. These financial statements contain a detailed business review relating to the Group, along with a summary of likely future developments. Copies can be obtained from Companies House.

The Company's key financial and other performance indicators during the year were as follows:

	Unit	2020	2019
Turnover	£'000	2,738	3,745
Operating profit	£'000	(832)	52
Occupancy	%	60	81

Principal risks and uncertainties

The Board of Barchester Finco 2019 Limited analyses key risks to the business and monitors exposure to these risks through a series of Key Performance Indicators (KPIs). These KPIs are reviewed to ensure that the Group is achieving its principal objectives of providing the highest quality of care for residents, while at the same time ensuring that the infrastructure is as fully and efficiently utilised as possible to provide appropriate returns to shareholders.

Clinical quality risk

We are committed to the need to provide a consistent level of care. We have invested in a number of key areas to monitor care provision, including a specialist dementia team, clinical development nurses and a more rigorous programme of quality inspections. The business operates sophisticated levels of performance monitoring with regular reporting to senior management and the Board of any potential issues. In addition, a comprehensive programme of service audits is undertaken across all homes with reports and resulting action plans being the subject of comprehensive review. Perhaps most importantly, the Board encourages a culture of reporting any minor concerns from staff, residents and relatives, all of which are appropriately investigated. There is increased awareness of regulatory changes at Board level and regular briefing updates are being used to ensure appropriate knowledge transfer to staff throughout the business.

KPIs used:

regulatory compliance (both internal and external);
various indicators of clinical well-being; and
number of hours for staffing (employed and agency).

Health & Safety

We understand the need to provide a safe environment for our staff, residents, their guests or anyone else on our premises. Everyone in our business has accountability for health and safety, and they are given the necessary tools (including training, safety equipment and resources) to operate safely. Compliance is organised and monitored through a dedicated health and safety team across the business.

KPIs used:

notifiable accident frequency; and
accident statistics.

Brampton View Limited

Strategic Report for the Year Ended 31 December 2020 (continued)

Public spending policy

Continued pressure is being exerted to reduce Government and Local Authority spending, which is manifesting itself increasingly in the reduction of fees being paid for the care of funded residents. To mitigate this, we undertake robust fee negotiations with the public sector and also focus more on the provision of space to privately funded individuals.

KPIs used:
average fee rates; and
occupancy rates and mix.

Employment of staff

Our business thrives on the skills and expertise of the staff we employ. The shortage of appropriate labour is a potential risk to the business, this is particularly acutely felt with the national shortage of qualified nursing staff. In order to mitigate this risk, the business has a proactive Human Resources and Recruitment team.

Continuity of service and care provided to residents is vitally important to the business. In order to ensure high quality care is provided it is necessary for the business to employ well trained staff and to encourage strong staff retention. To ensure staff have appropriate skills, the business provides on-going statutory and mandatory training to all resident facing staff. Development opportunities are identified and promoted throughout the business to continue to develop staff and encourage staff retention.

In addition, the business has procedures in place to ensure continued compliance with UKBA regulations.

KPIs used:
staff turnover;
staff training statistics; and
number of hours for staffing (employed and agency).

Cost base inflation

The principal costs for the successful operation of the business include staff costs, energy and food. All of these areas are subject to on-going cost pressures in advance of inflation. In order to mitigate these areas, we have a well organised procurement process to source energy and food at the best possible rates. We have a well organised operational structure to ensure that labour is employed as effectively as possible.

KPIs used:
EBITDA and EBITDAR per bed;
labour hours per resident per day; and
costs per resident per day.

Occupancy

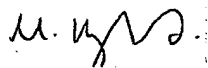

An inability to maintain and grow occupancy levels of both private and local authority funded residents is a potential risk to the business. In order to mitigate this risk, we have a proactive Sales and Marketing team who work alongside the operational team to monitor and review occupancy levels.

KPIs used:
occupancy rates and mix; and
enquiry conversion rates.

Statement of Directors' Responsibilities in respect of the Directors' Report and the Financial Statements

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with applicable law and regulations.

Company law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have elected to prepare the financial statements in accordance with UK Accounting Standards and applicable law (UK Generally Accepted Accounting Practice), including FRS 102 *The Financial Reporting Standard applicable in the UK and the Republic of Ireland*.

Under company law the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that period. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and apply them consistently;
- make judgements and accounting estimates that are reasonable and prudent;
- state whether applicable UK Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records that are sufficient to show and explain the Company's transactions and disclose with reasonable accuracy at any time the financial position of the Company and enable them to ensure that the financial statements comply with the Companies Act 2006. They are responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company and to prevent and detect fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the United Kingdom governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Brampton View Limited

Notes to the Financial Statements for the Year Ended 31 December 2020

1 General information

The company is a private company limited by share capital, incorporated in England and Wales.

2 Accounting policies

Summary of significant accounting policies and key accounting estimates

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Statement of compliance

These financial statements were prepared in accordance with Financial Reporting Standard 102 'The Financial Reporting Standard applicable in the UK and Republic of Ireland'. The functional and presentation currency of these financial statements is sterling. All amounts in the financial statements have been rounded to the nearest £'000.

Basis of preparation

These financial statements have been prepared using the historical cost convention except that as disclosed in the accounting policies certain items are shown at fair value.

Summary of disclosure exemptions

As the Company is a wholly owned subsidiary of Grove Limited the Company has taken advantage of the disclosure exemptions contained in FRS 102 Section 1.12. By virtue of FRS 102 Section 33.1A the Company has not disclosed transactions or balances with wholly owned entities which form part of the Group.

Name of parent of group

These financial statements are consolidated in the financial statements of Grove Limited.

The financial statements of Grove Limited may be obtained from www.jersey.fsc.org.

Brampton View Limited

Notes to the Financial Statements for the Year Ended 31 December 2020 (continued)

2 Accounting policies (continued)

Going concern

The financial statements have been prepared on a going concern basis which the Directors consider to be appropriate for the following reasons.

The Directors of Grove Limited (the Company's ultimate parent undertaking) have prepared cash flow forecasts for the Grove Group for the remainder of 2021 and the year ending 31 December 2022 which take into account the impact of COVID-19 to date and revised expectations in relation to occupancy, labour hours and infection control costs for the remainder of the forecast period. These forecasts demonstrate that the Grove Group will continue to have sufficient available cash resources for the forecast period, including when plausible downside sensitivity analysis is taken into account. In addition to the forecast cash resources available, the Grove Group also has access to a £20m banking facility which is not expected to be drawn down during the period to 31 December 2022 under either the base case or sensitised forecasts, and has a number of options available to management, such as a reduction in discretionary capital expenditure, should they be needed.

Consequently, the Directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements and therefore have prepared the financial statements on a going concern basis.

Key sources of estimation uncertainty

At each reporting date fixed assets are reviewed to determine whether there is any indication that those assets have suffered an impairment loss. If there is an indication of possible impairment, the recoverable amount of any affected asset is estimated and compared with its carrying amount. The estimated recoverable amount of each asset is assumed to be its fair value less costs to sell, and is based on a third party valuation.

The Company makes an estimate of the recoverable value of amounts owed by debtors. When assessing impairment of debtors, management considers factors including the ageing profile of debtors and historical experience.

Revenue recognition

Turnover comprises the fair value of the consideration received or receivable for the sale of goods and provision of services in the ordinary course of the Company's activities. Turnover is shown net of sales/value added tax, returns, rebates and discounts.

The Company recognises revenue when:

- the amount of revenue can be reliably measured;
- it is probable that future economic benefits will flow to the entity; and
- specific criteria have been met for each of the Company's activities.

Tax

The tax expense for the period comprises current and deferred tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Brampton View Limited

Notes to the Financial Statements for the Year Ended 31 December 2020 (continued)

2 Accounting policies (continued)

Deferred tax is recognised in respect of all timing differences between taxable profits and profits reported in the financial statements.

Unrelieved tax losses and other deferred tax assets are recognised when it is probable that they will be recovered against the reversal of deferred tax liabilities or other future taxable profits.

Deferred tax is measured using the tax rates and laws that have been enacted or substantively enacted by the reporting date and that are expected to apply to the reversal of the timing difference.

Tangible assets

Tangible assets are stated in the statement of financial position at cost, less any subsequent accumulated depreciation and subsequent accumulated impairment losses.

The cost of tangible assets includes directly attributable incremental costs incurred in their acquisition and installation.

Depreciation

Depreciation is charged so as to write off the cost of assets, other than land and properties under construction over their estimated useful lives, as follows:

Asset class	Depreciation method and rate
Long leasehold land and buildings	straight line over the lease term
Plant & Equipment	straight line over 3-5 years
Motor vehicles	straight line over 4 years

Stocks

Stocks are stated at the lower of cost and estimated selling price less costs to complete and sell. Cost is determined using the first-in, first-out (FIFO) method.

Leases

Leases in which substantially all the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases are charged to profit or loss on a straight-line basis over the period of the lease.

Share capital

Ordinary shares are classified as equity. Equity instruments are measured at the fair value of the cash or other resources received or receivable, net of the direct costs of issuing the equity instruments. If payment is deferred and the time value of money is material, the initial measurement is on a present value basis.

Defined contribution pension obligation

A defined contribution plan is a pension plan under which fixed contributions are paid into a pension fund and the Company has no legal or constructive obligation to pay further contributions even if the fund does not hold sufficient assets to pay all employees the benefits relating to employee service in the current and prior periods.

Contributions to defined contribution plans are recognised as employee benefit expense when they are due. If contribution payments exceed the contribution due for service, the excess is recognised as a prepayment.
