NOTES TO THE ABBREVIATED ACCOUNTS

FOR THE YEAR ENDED 31 MARCH 2014

1 Accounting policies

1.1 Accounting convention

The financial statements are prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities (effective April 2008).

These financial statements have been prepared on a going concern basis, which is deemed to be appropriate, on the understanding that continued support from J P Burton, a director will remain in place for the foreseeable future. At the year end, £1,358,287 (2013: £1,358,287) was owed to J P Burton. This is included within creditors falling due after more than one year. This amount will not be repaid for a period exceeding 12 months from the date the accounts are signed.

1.2 Turnover

Turnover represents amounts receivable for goods and services net of VAT and trade discounts.

1.3 Tangible fixed assets and depreciation

Tangible fixed assets are stated at cost less depreciation. Depreciation is provided at rates calculated to write off the cost less estimated residual value of each asset over its expected useful life, as follows:

Leasehold improvements Over term of lease

Plant and machinery 20% p.a. Reducing balance basis
Computer equipment 33.3% p.a. Straight line basis
Fixtures, fittings & equipment 20% p.a. Reducing balance basis
Motor vehicles 25% p.a. Reducing balance basis

1.4 Leasing

Rentals payable under operating leases are charged against income on a straight line basis over the lease term.

1.5 Investments

Fixed asset investments are stated at cost less provision for diminution in value.

1.6 Stock

Stock is valued at the lower of cost and net realisable value.

1.7 Deferred taxation

Deferred taxation is recognised in respect of all timing differences which have originated but not reversed at the balance sheet date. Timing differences are differences between taxable profits and the results as stated in the financial statements which arise from the inclusion of gains and losses in tax assessments in periods different from those in which they are recognised for tax purposes.

A net deferred tax asset is regarded as recoverable and therefore recognised only when it can be regarded as more likely than not that there will be suitable taxable profits from which the future reversal of underlying timing differences can be deducted.

Deferred tax is measured at the average tax rates which are expected to apply in the periods in which the timing differences are expected to reverse, based on tax rates and laws which have been enacted or substantively enacted by the balance sheet date. Deferred tax is measured on a non-discounted basis.

1.8 Foreign currency translation

Monetary assets and liabilities denominated in foreign currencies are translated into sterling at the rates of exchange ruling at the balance sheet date. Transactions in foreign currencies are recorded at the rate ruling at the date of the transaction. All differences are taken to profit and loss account.

1.9 Group accounts

The financial statements present information about the company as an individual undertaking and not about its group. The company and its subsidiary undertaking comprise a small-sized group. The company has therefore taken advantage of the exemptions provided by section 399 of the Companies Act 2006 not to prepare group accounts.
