2 Summary of significant accounting policies

Basis of preparation

The accounts have been prepared in accordance with applicable accounting standards including Section 1A of Financial Reporting Standard 102 (2022) "The Financial Reporting Standard applicable in the UK and Republic of Ireland" (FRS102) and the Companies Act 2006. The accounts have been prepared on a going concern basis under the historical cost convention, modified to include certain items at fair value. The presentation currency is £ sterling and the accounts have been rounded to the nearest £1.

The significant accounting policies applied in the preparation of these accounts are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

Turnover

Turnover is measured at fair value of the consideration received or receivable, net of discounts and value added tax. Turnover includes revenue earned from the sale of houses upon completion.

Taxation

The tax expense for the period comprises of current tax. Tax is recognised in profit or loss, except that a change attributable to an item of income or expense recognised as other comprehensive income is also recognised directly in other comprehensive income.

Current tax is recognised for the amount of corporation tax payable in respect of the taxable profit for the year using tax rates and laws that have been enacted or substantively enacted by the balance sheet date.

Debtors

Short term debtors are measured at transaction price, less any impairment.

Cash and cash equivalents

Cash and cash equivalents comprise cash on hand and call deposits, and other short-term highly liquid investments that are readily convertible to a known amount of cash and are subject to an insignificant risk of change in value.

Creditors

Short term creditors are measured at transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are subsequently measured at amortised cost using the effective interest method.
