NOTES TO THE FINANCIAL STATEMENTS
for the Year Ended 28 February 2017

1. STATUTORY INFORMATION

E W Higgins & Son Limited is a private company limited by shares and incorporated and domiciled in England. It has its registered office at Becks Court, Annie Reed Road, Beverley, HU17 0LF and principle place of business at Wynn Cottage Farm, Brind, Howden, Goole, DN14 7LA.

The principal activity of the Company is that of a dormant company.

The presentational currency of the financial statements is Pound Sterling (£).

2. ACCOUNTING POLICIES

Basis of preparing the financial statements

These financial statements have been prepared in accordance with the provisions of Section 1A "Small Entities" of Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and the Companies Act 2006. The financial statements have been prepared under the historical cost convention.

Having regard to liquidity risk, current market conditions and other factors affecting the company, the use of the going concern basis of accounting is appropriate as, in the opinion of the directors, there are no material uncertainties related to events or conditions that may cast significant doubt about the ability of the company to continue as a going concern.

This is the first year in which the financial statements have been prepared under FRS102.

Taxation

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of comprehensive income because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's liability for the current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on timing differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable timing differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible timing differences can be utilised. The carrying amount of deferred tax is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Current or deferred tax for the year is recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax is also recognised in other comprehensive income or directly in equity respectively.
