And signed on their behalf by:

Mr Troels Jordansen, Director

Notes to the Abbreviated Accounts for the period ended 31 March 2013**1 Accounting Policies****Basis of measurement and preparation of accounts**

The accounts have been prepared under the historical cost convention and in accordance with the Financial Reporting Standard for Smaller Entities effective April 2008.

Other accounting policies**Financial instruments**

Financial liabilities and equity instruments are classified according to the substance of the contractual arrangements entered into. An equity instrument is any contract that evidences a residual interest in the assets of the entity after deducting all of its financial liabilities.

Where the contractual obligations of financial instruments (including share capital) are equivalent to a similar debt instrument, those financial instruments are classed as financial liabilities. Financial liabilities are presented as such in the balance sheet. Finance costs and gains or losses relating to financial liabilities are included in the profit and loss account. finance costs are calculated so as to produce a constant rate of return on the outstanding liability.

Where the contractual terms of share capital do not have any terms meeting the definition of a financial liability then this is classed as an equity instrument. Dividends and distributions relating to equity instruments are debited direct to equity.

Post Balance Sheet Events

In December 2013, International Health Technology Limited, a company in which Illum Jordansen Holding Limited holds 26% of the shares, was put into creditors voluntary liquidation. It is unknown at the time of signing these accounts whether there will be any funds available to the shareholders, but it would be prudent to assume that this will not be the case. the company has invested £70,050 in this company, largely via the personal investment of the directors.
